

INTRODUCTION:

We are thrilled you have chosen to spend your day at Six Flags! Our goal is to make your visit fun and memorable. This Six Flags Guest Safety and Accessibility Guide includes important information to assist Guests with planning their visit to the park and enjoy its various attractions, rides, services and amenities. In this Guide, Guests will find specific information for individuals with disabilities along with general policies and guidelines.

We work closely with the manufacturer of each of our rides and our policies incorporate the manufacturers' guidelines as well as the requirements of the Americans With Disabilities Act. We hope that this Guide will help Guests make the best choices to ensure a safe, comfortable and convenient experience at the park. If, at any time, Guests need additional assistance or a further explanation of our policies and guidelines, they should feel free to ask any Six Flags Team Member.

Our goal is to safely and efficiently accommodate the needs of all Guests, including individuals with disabilities. This Guide, along with the availability of our Team Members to answer any questions and offer assistance, will allow Guests to have a thrilling and safe day at the park.

GENERAL WARNING:

We are committed to providing you a safe environment during your visit to Six Flags. While there are inherent risks to participating in any amusement park ride or attraction, our goal is to ensure your safety with the incorporation of some restrictions. For your safety, you should be in good health to ride. Only you know your physical conditions or limitations.

Many amusement park rides incorporate safety systems designed by the manufacturer to accommodate people of average physical stature and body proportion. These safety systems may place restrictions on the ability of a Guest to safely be contained within the ride restraint. Extremely large or small individuals, Guests who have heart, back or neck trouble or conditions, pregnant women, people who have had recent surgery or an illness, people with casts, braces, restrictive devices or certain disabilities may not be safely accommodated by certain ride systems. For example, height requirements are based on the size needed for safety restraints to

function properly and the level of maturity usually associated with a certain height.

If you suspect your health could be at risk for any reason, or you could aggravate a pre-existing condition of any kind, **DO NOT RIDE**. The specific features, rider requirements and health restrictions of each ride are described later in this Guide.

In order to ride, all Guests must be able to maintain the proper riding position, meet the ride requirements and appropriately utilize the restraint systems, including lap bars, shoulder harnesses and seatbelts as indicated. All Guests must also be able to demonstrate a willingness and ability to comply with verbal and written rider requirements.

Six Flags reserves the right to make the final determination regarding eligibility of a Guest to ride a particular ride based on the Guest's size, weight, height or other limitations. Information in this Guide is subject to change.

RIDER RESPONSIBILITY:

All Guests have a duty to exercise good judgment and act in a responsible manner while participating on a ride or attraction and to obey all verbal and written warnings and instructions. Guests also have a duty to properly use all ride and attraction safety equipment provided.

PARKING:

Accessible parking is available on a first-come, first-serve basis within the main parking lots of the park. When you arrive at the parking toll booths, ask a Team Member for instructions regarding where to proceed to the accessible parking lot. Both auto and van accessible spaces are provided. A valid disabled persons parking placard or license plate must be displayed at all times while parked in the designated accessible parking area. If the designated accessible parking area is full at the time of your arrival, members of your party may be dropped off at the main pick-up/drop-off area, near the main entrance to the park. Please ask a Team Member for directions to additional parking areas.

WHEELCHAIRS AND ELECTRIC CONVENIENCE VEHICLES (ECV'S):

Wheelchairs and electric convenience vehicles (ECV's) are available for rent at Guest Relations. A deposit is also required.

Guests may also use their own wheelchairs or ECV's. If you need to take the rented wheelchair or ECV outside of the park, a Team Member escort is necessary to do so. Please ask for assistance at Guest Relations. Battery recharging is also available at Guest Relations.

Guests using wheelchairs or ECV's may utilize any ticket window and designated turnstiles to enter the park. Many of the park's shopping and dining facilities are also wheelchair accessible. Many of the rides and attractions have queues that are accessible to Guests using manual wheelchairs. If an alternate entrance is required, these entrances are generally at the ride exit and are identified by a sign with the universal wheelchair symbol. Please keep in mind that there are specific boarding requirements and accommodations for those using wheelchairs at each ride or attraction.

SEGWAY:

Due to varying walkways, terrains and large crowds, we cannot permit the use of two-wheeled, self-balancing electric vehicles such as Segways. We are pleased to offer other forms of transportation, including ECV's and standard wheelchairs. Please contact Guest Relations for more information.

SERVICE ANIMALS:

Trained service animals are welcome at our Six Flags Theme Parks. Service animals are defined as dogs that are individually trained to do work or perform tasks for people with disabilities. Examples of such work or tasks include guiding people who are blind, alerting people who are deaf, pulling a wheelchair, alerting and protecting a person who is having a seizure, reminding a person with mental illness to take prescribed medications, calming a person with Post Traumatic Stress Disorder (PTSD) during an anxiety attack, or performing other duties. Service animals are working animals, not pets.

The work or task a dog has been trained to provide must be directly related to the person's disability. Dogs whose sole function is to provide comfort or emotional support do not qualify as service animals. Miniature horses that have been individually trained to do or perform tasks for people with disabilities will qualify as service animals.

Service animals must be house broken and remain on a leash or harness and under the control of their handler at all times. Guests whose service animal demonstrates aggressive and/or annoying actions toward a Guest or Team Member will be directed to remove the animal from the park.

Service animals are welcome in most locations of the park. Most of our rides are not equipped or designed for accessibility to service animals. Therefore, a member of your party must be available to stay with the animal while you ride.

Guests may take advantage of our Kid Swap policy for staying with their service animal. However, park Team Members will not take responsibility for, or provide care to any service animal. Refer to the section on Kid Swap for more information.

A Service Animal "Relief Area" is located in the grassy area of Whistlestop Park in the Lickskillet section. Owners are responsible for clean-up and disposal of their animal's waste.

RESTROOMS:

Most restrooms within the park are accessible for Guests using wheelchairs. Please check the park map for locations. The park's Team Members or Guest Relations can provide location directions should you need companion restrooms during your visit.

ALTERNATE ACCESS:

Most of the park's theaters, attractions, restaurants and shops are accessible to wheelchairs. Most, if not all rides require transfer from the wheelchair to the ride seat. Special access entrances are available to accommodate Guests with mobility aides and service animals. These special entrances are generally at the ride exit and are identified by a sign with the universal wheelchair symbol.

Entry, Exit and Transfer must be accomplished independently by the Guest or with the assistance of a member from his/her party. Six Flags Team Members are not trained in lifting or carrying persons with disabilities and are therefore not permitted to assist Guests on or off the rides. Not all rides have alternate access. If in doubt, please contact the Ride Attendant, The Rides Information Center, or Guest Relations for more information.

ATTRACTION ACCESS PASS PROGRAM:

Our goal is to safely accommodate the needs of all Guests including individuals with disabilities by providing equal access to rides and attractions.

Six Flags' Attraction Accessibility Program is designed to accommodate guests with disabilities or certain other qualifying impairments so they may participate in the enjoyment of our Parks. Each attraction at Six Flags has been evaluated for the criteria necessary for an individual to ride safely. Our ridership criteria (set forth on page 1 of this Guide) is based on the requirements of the attraction manufacturer and the ability of guests to utilize all safety restraints and devices as designed, while maintaining the proper riding position throughout the duration of the ride. It is our policy to allow anyone to ride who meets all of these requirements and does not cause or create a legitimate safety concern to herself/himself or others. Our Attraction Accessibility Program matches the individual abilities of our guests to the ridership criteria for each attraction.

The Attraction Accessibility Program is an accommodation designed to provide equal access to Park attractions and not to bypass other guests waiting in the standard queue.

The following procedures apply to guests who wish to participate in our Attraction Accessibility Program:

1. Guests can visit Guest Relations to obtain Six Flags' Safety & Accessibility Guide to review the rider requirements of each ride or attraction. This Guide is also available on our website at www.sixflags.com.
2. To obtain an Attraction Access Pass guests with disabilities, mobility impairments or certain other qualifying impairments should visit Guest Relations inside the Park. Such guest will be required to present a valid doctor's note in order to receive an Attraction Access Pass. The doctor's note must include the name of the individual requesting the AAP, doctor's name, address, phone number and his/her signature along with a statement indicating the guest has a disability or other qualifying impairment under the Americans with Disabilities Act (ADA) and/or applicable state law that prevents the guest from waiting in a standard queue. Please note that the nature of the disability should not be provided in the doctor's note. If the disability is of a temporary nature, the doctor's note should state the time period of the temporary disability. A photo identification must be presented at the time of issuances, (for children 12 and under, photo ID of the parent or guardian would be accepted).
3. In an effort to provide equal treatment to all of our guests, only those guests with a disability or other qualifying impairment and up to three (3) riding companions will be allowed to access attractions through the alternate entrance. If the guest's party is larger than four (4) guests, the other members of the party will be required to enter the ride or attraction through the standard queue.
4. To use the Attraction Access Pass, the guest should proceed to the attraction's alternate entrance and show the attraction attendant the Attraction Access Pass. The attraction attendant will document a reservation time that is comparable to the current wait time for the same ride/attraction. The guest, and up to three (3) riding companions, can then return to the attraction, using the alternate entrance, at the time of the reservation in order to ride.

A guest using an Attraction Access Pass may rest in a comfortable location or enjoy other attractions in the area until the assigned reservation time has come or when the others from the guest's party waiting in the standard queue reach the boarding platform. There is a 15 minute grace period for late arrivals.

A guest with an Attraction Access Pass must ride in order for the guest's companions to utilize the Attraction Access Pass to enter the attraction through the alternate entrance. If the guest with an Attraction Access Pass chooses not to ride, the guest's companions must wait in the standard queue.

Attraction Access Passes are not designed to bypass or "skip" the standard queue and the wait will be equal to the posted wait times. Individuals found to be fraudulently using the Attraction Access Pass will be in violation of our Guest Code of Conduct and may be subject to civil penalties. Violators may also be asked to leave the Park without any refund.

MEDICAL DEVICES AND MOBILITY AIDES:

For your safety and the safety of others, riders may be required to remove medical devices, half or full length orthotics, braces, crutches, canes, prosthetics and any other type of medical assistance device that is not permanently affixed to the rider's body to prevent hazards or loss due to ride forces. These devices prevent safety restraints from working as designed, keep the rider from maintaining the proper riding posture, and present a hazard to the rider or others. If in doubt about your ability to safely experience a ride or attraction, please refer to the Rider Requirement Sign at the ride entrance. You may also consult with a Ride Attendant or Guest Relations for more information.

Please also refer to the "Ride Information" section of this Guide for specific information regarding removal of medical devices and mobility aides on a ride by ride basis. If you have any questions, please ask a Ride Attendant or visit Guest Relations.

LARGER FRAMED GUESTS:

Many rides incorporate safety systems designed by the manufacturer to accommodate people of average physical stature and body proportion. These systems may place restrictions on the ability of an individual to safely experience the ride

In order to ride, all seatbelts, lap bars, and shoulder harnesses must be positioned and fastened properly. Due to rider restraint system requirements, Guests of a larger size may not be accommodated on some rides.

KID SWAP:

The Kid Swap program is designed to accommodate groups with younger children who may not be tall enough to ride some attractions. To participate: 1) The entire party should enter the ride queue; 2) When preparing to board, tell the Ride Attendant you are using the Kid Swap program; 3) Children who are not tall enough to ride may wait at the exit with an adult from your party; 4) After the first ride is completed, the adult who waited with the child will be allowed to ride.

RIDE RATINGS AND WARNINGS:

RIDE RATINGS AND WARNINGS:

Ride warning signs can be found at the entrance of each ride to help determine the attractions that are best for Guests based upon their experience level, physical condition and abilities. Information on each ride can also be found on the Park Map and Guide.

Key to Symbols:

GENERAL INFORMATION

FRIGHT FEST:

Theatrical fog effects, areas of low lighting, loud music, sound effects, and theatrical and strobe lighting are used throughout the park during Fright Fest. This includes streets, midways, outdoor scare zones, mazes and haunted houses both indoor and outdoor, live entertainment venues and children's attractions.

Guests with respiratory sensitivities, history of seizures or epilepsy, or sensitivities to latex, loud music and sound effects are advised not to participate in these attractions. Please adhere to all posted and verbal warnings and directions.

FAMILY SERVICES/NURSING MOTHERS:

A private room for nursing mothers is available upon request. Baby changing areas and a companion restroom can be found in most restrooms. Please feel free to ask a Team Member for directions to these locations or review a park map.

HEARING DISABILITIES: Assisted listening devices are available upon request. Please see Guest Relations for additional information.

PREGNANCY:

Guests who know or believe they may be pregnant should follow all rules, guidelines and restrictions listed for each ride. Those who are pregnant should not ride a ride that specifically lists pregnancy as a rider restriction. Please closely review all rules and guidelines at the entrance of each ride.

RESTAURANTS:

The park's restaurants offer a variety of food options. Assistance is available upon request. Exceptions are made for Guests with special dietary needs including food allergies and baby food/formula.

Guests should contact Park Security or Guest Relations upon arrival at the park for approval to bring in special dietary foods. The special dietary food containers will be marked and dated to clearly show that they have been approved for entry into the park.

FIRST AID:

Emergency Medical Technicians or Paramedics are on duty during all park operating hours. If you require medical assistance, ask any Team Member and they will summon medical personnel to your location. Please refer to your Park Map and Guide for the location of First Aid.

OXYGEN TANKS/AIR CONCENTRATORS:

Due to the dynamics and certain characteristics of the rides, oxygen tanks or portable systems are not permitted on most of our rides and attractions. Oxygen tanks are permitted in enclosed facilities. For your convenience, the park's First Aid station(s) will be able to appropriately store your additional oxygen tanks during your visit.

SPECIAL EFFECTS AT THEATERS, RIDES AND ATTRACTIONS:

Theatrical fog and other effects, including but not limited to: haze and other atmospheric effects, scents, areas of low lighting, loud music, sound effects, theatrical lighting and strobe lighting may be used at various locations in the park such as theaters and during Fright Fest. Guests with respiratory sensitivities, history of seizure or epilepsy, or sensitivities to latex, loud music and sound effects are advised not to participate in these attractions. Please adhere to all posted and verbal warnings and directions.

RIDE INFORMATION

CAMERAS:

Picture taking and the use of cameras and video recording devices is not permitted on any ride, while it is in motion. It is encouraged that Guests leave their equipment with a non-rider or secure it in a locker or their vehicle. Lockers are available to store items for a nominal fee. Guests must have written permission to use photographs and/or recordings of any aspect of the park for commercial broadcasting, advertising, marketing, or publishing in any medium.

FULL BODY HARNESS:

The safety of our guests and employees is always our highest priority and we strive to provide a fun, safe experience for all guests. In an effort to better accommodate the needs of guests with certain disabilities, we have worked with ride manufacturers to develop safety harnesses for select rides in our park. Riders who do not meet certain extremity requirements may be able to ride Goliath and Batman: The Ride utilizing the full body harness [if all requirements are met]. Our ride operators have been trained to assist guests with the harnesses to ensure their safety and enjoyment.

RIDE EVACUATIONS:

If a ride evacuation is necessary, Guests may need to negotiate stairs from the highest points of the ride down steeply inclined stairs or walking surfaces. Guests requiring assistance during the ride evacuation may be escorted last in order to expedite the ride evacuation process. Please ask a Ride Attendant about the specific procedures prior to boarding a particular ride.

Definitions: Every ride entrance lists height requirements and special instructions regarding the ride. Six Flags uses the following terms:

Responsible Person: A responsible person is someone who meets all the requirements to ride the ride themselves and is at least 54” tall or taller.

Accompanied By:
Whenever a Guest needs accompaniment, the accompanying person must meet all the ride requirements and be able to assist the Guest including helping the Guest to board and exit the ride and assisting the Guest down stairs, catwalks, or ladders in case of an evacuation.

Lap Child: A lap child is a child who is unable to walk to the ride independently or maintain independent seated postural control.

Functioning Extremity: A functioning extremity is a limb over which a person has control. A prosthetic device is not considered a functioning extremity. Six Flags has additional requirements regarding prosthetic devices. Please see the section on Prosthetics in this Guide.

Ability to hold on or brace: Ability to use one’s arms to maintain a grasp on an assist bar and support one’s body during normal and emergency procedures on a ride and to use one’s legs to brace to maintain a seated position during the ride.

Functioning Arm is a full arm with the ability to be flexed at the elbow and a minimum of three full fingers with the ability to hold on with a firm grip. Functioning leg is a leg with a foot.

Acrophobia

Simulation of free falling. Guests are loaded onto "bicycle" seat type apparatuses and have to be able to be restrained by a shoulder harness and crotch belt. The ride has a twirling motion, will carry riders to a height of 200 ft. then drop, reaching speeds of 65 miles per hour and will have a smooth, but quick stop. Guests should be prepared to brace for front to back, top to bottom, and side-to-side forces. Ride motion may cause dizziness. Evacuation is considered extremely difficult and time consuming.

HEIGHT REQUIREMENT

Guests must be at least 52" tall or 132 cm.

PHYSICAL REQUIREMENTS

Each rider must maintain an upright seated position with their head against the headrest during the duration of the ride. Guests must possess at least one (1) fully functioning arm and one (1) fully functional leg. No prosthetics are permitted on the ride. Riders with a leg cast, or an arm cast above the elbow are not permitted. Riders with an arm cast below the elbow are permitted.

Riders must be able to sit properly, use all restraining devices and stabilize themselves.

SIZE LIMITATION

Boarding may be difficult for guests with large girths (over 52" or 132 cm) due to the over-the-shoulder restraint and safety strap.

RIDE ACCESS

Ride access for guests confined to a wheelchair or Guests with disabilities that cannot wait in the normal queue line is via the ride exit. Guests with disabilities that do not impair their ability to wait in the queue line should enter via the ride entrance. Guests should utilize the Attraction Access Pass to receive a boarding time. Riders using a wheelchair must transfer from the wheelchair onto the ride.

Batman: The Ride

An inverted, outside looping thrill ride. Moderately difficult to board and disembark. Very difficult to evacuate due to high, narrow catwalks. Riders must have upper body control. A shoulder harness and a safety strap restrain all riders. Riders should be prepared to brace for strong front-to-back, top-to-bottom, bottom-to-top and side-to-side forces.

HEIGHT REQUIREMENT

Guests must be at least 54" or 137 cm.

PHYSICAL REQUIREMENTS

Each rider must maintain an upright seated position with their head against the headrest during the duration of the ride. No casts, No prosthetics, Rider with 1 amputated foot or 2 amputated feet (amputation below the knee) with or without prosthesis, may ride provided rider has ability to hold on with 2 functioning hands. Rider with 1 missing arm or hand may ride, provided rider has ability to hold on with 1 functioning hand and stabilize themselves with 2 functioning legs. Riders who do not meet the extremity requirements may be able to ride Batman: The Ride by utilizing a full body harness, if all other requirements are met.

SIZE LIMITATION

Boarding may be difficult for guests with large girths (over 52" or 132 cm) due to the over-the-shoulder restraint and safety strap.

RIDE ACCESS

Enter this ride through the regular entrance. Continue through the queue line looking for wheelchair ramp signs and proceed to loading. This ramp will be just before you enter the first tunnel. Guests with disabilities that do not impair their ability to wait in the queue line should proceed through the queue line to board the ride. Guests should utilize the Attraction Access Pass to receive a boarding time.

Riders using a wheelchair must transfer from the wheelchair onto the ride.

Carrot Patch

A children's play area.

HEIGHT REQUIREMENT

Guests must be under 54" or 137 cm. tall

RIDE ACCESS

Ride access is via the entrance to the ride.

Convoy Grande

A kiddie roller coaster.

HEIGHT REQUIREMENT

Guests must be 36" or 91 cm tall to ride alone. Guests under 36" must be accompanied by an adult over 54" or 137 cm. tall. No lap children are allowed.

PHYSICAL REQUIREMENTS

Each rider must maintain an upright seated position with their back against the seatback during the duration of the ride with their arms, hands, legs, and feet inside the ride vehicle at all times. Guests must possess at least one (1) fully functioning arm and one (1) fully functional leg. Riders must be able to sit properly, utilize all restraining devices, and stabilize themselves.

SIZE LIMITATION

Due to the design of the seating & safety device on this ride, exceptionally large or tall people may not be able to ride.

RIDE ACCESS

Ride access is via the entrance to the ride. Casts may not restrict the restraints in any way. Riders using a wheelchair must transfer from the wheelchair onto the ride.

Dahlongega Mine Train

A moderate Roller Coaster. Moderately difficult to board and disembark.

Each rider must maintain an upright seated position with their back against the seat back during the duration of the ride with their arms, hands, legs, and feet inside the ride vehicle at all times. Guests must have upper body control and must be restrained by a lap bar. Guests should be prepared to brace for strong front-to-back, back-to-front and side-to-side forces and rapidly changing turbulent forces. Very difficult to evacuate due to high, narrow catwalks.

HEIGHT REQUIREMENT

Guests must be at least 42" tall or at least 107 cm.

PHYSICAL REQUIREMENTS

Riders must possess three (3) full extremities. This includes one (1) fully functioning arm and two (2) fully functioning legs or two (2) fully functioning arms and one (1) fully functioning leg.

SIZE LIMITATION

Due to the design of the seating & safety device on this ride, exceptionally large or tall people may not be able to ride.

RIDE ACCESS

Ride access for guests confined to a wheelchair or Guests with disabilities who cannot wait in the normal queue line is via the normal ride entrance; use the right side of the walkway to enter. A ramp at the bottom of the entrance line must be negotiated. Guests with disabilities that do not impair their ability to wait in the queue line should enter via the ride entrance. Guests should utilize the Attraction Access Pass to receive a boarding time. Casts may not restrict the restraints in any way. Riders using a wheelchair must transfer from the wheelchair onto the ride.

Dare Devil Dive

A high speed coaster with steep inclines, drops and loops. Very difficult to evacuate due to high, narrow catwalks. Riders must have upper body control. A lap bar restrains all riders. Riders should be prepared to brace for strong front-to-back, top-to-bottom, bottom-to-top and side-to-side forces.

HEIGHT REQUIREMENT

Guests must be at least 48" or 122 cm. tall.

PHYSICAL REQUIREMENTS

Each rider must maintain an upright seated position with their head against the headrest during the duration of the ride with their arms, hands, legs, and feet inside the ride vehicle at all times. Riders must possess at least one (1) fully functional arm and two (2) fully functional legs. Guests must have upper body control and must be restrained by a lap bar.

SIZE LIMITATIONS

Due to the design of the seating & safety device on this ride, exceptionally large or tall people may not be able to ride.

RIDE ACCESS

Ride access for guests confined to a wheelchair or Guests with disabilities that cannot wait in the normal queue line is via the ride exit. Guests with disabilities that do not impair their ability to wait in the queue line should enter via the ride entrance. Guests should utilize the Attraction Access Pass to receive a boarding time.

Casts may not restrict the restraints in any way. Riders using a wheelchair must transfer from the wheelchair onto the ride.

Dodge City Bumper Cars

Bumper Car Ride. Guests must have upper body control and must be restrained by a safety strap. Guests should be prepared to brace for strong front-to-back, back-to-front, and side-to-side forces. Bumper Cars can be hit from all directions.

HEIGHT REQUIREMENT

Guests must be at least 42" tall or least 107 cm.

PHYSICAL REQUIREMENTS

Each rider must maintain in an upright seated position with their head against the headrest during the duration of the ride and their arms, hands, legs, and feet inside the ride vehicle at all times. Riders must possess one (1) fully functioning arm and one (1) fully functioning leg. Drivers must have the ability to hold and/or turn the steering wheel and depress the foot pedal. Passengers must have the ability to brace themselves.

SIZE LIMITATIONS

Due to the design of the seating & safety device on this ride, exceptionally large or tall people may not be able to ride.

RIDE ACCESS

Ride access for guests confined to a wheelchair or Guests with disabilities that cannot wait in the normal queue line is via the Flash Pass entrance located on the right hand side of the building as you face the entrance. Guests with disabilities that do not impair their ability to wait in the queue line should enter via the ride entrance.

Guests should utilize the Attraction Access Pass to receive a boarding time. Casts may not restrict the restraints in any way. Riders using a wheelchair must transfer from the wheelchair onto the ride.

Fiesta Wheel

A children's attraction with a rocking motion.

HEIGHT REQUIREMENT

Guests must be under 54" or 137 cm. tall

PHYSICAL REQUIREMENTS

Each rider must maintain in an upright seated position with their back against the seatback during the duration of the ride and their arms, hands, legs, and feet inside the ride vehicle at all times. Riders must be able to sit properly, utilize all restraining devices, and stabilize themselves.

SIZE LIMITATIONS

Due to the design of the seating & safety device on this ride, exceptionally large or tall people may not be able to ride

RIDE ACCESS

Ride access is via the entrance to the ride. Casts may not restrict the restraints in any way. Riders using a wheelchair must transfer from the wheelchair onto the ride.

Georgia Cyclone

Large, high speed, very intense wooden roller coaster. Guests must have upper body control and strong grasp. Must be restrained by a lap bar and seat belt. Guests should be prepared to brace for strong front-to-back, back-to-front, and side-to-side forces as well as rapidly changing turbulent forces. Evacuation is extremely difficult and time consuming due to high, narrow catwalks.

HEIGHT REQUIREMENT

Guests must be at least 48" tall or least 122 cm.

PHYSICAL REQUIREMENTS

Each rider must maintain an upright seated position with their back against the seatback and head against the head rest during the duration of the ride and their arms, hands, legs, and feet inside the ride vehicle at all times. No prosthetics. Riders must possess one (1) fully functioning arm and two (2) fully functioning legs. Riders must be able to sit properly, use all restraining devices and stabilize themselves.

SIZE LIMITATION

Due to the design of the seating & safety device on this ride, exceptionally large or tall people may not be able to ride.

RIDE ACCESS

Ride access for guests confined to a wheelchair or Guests with disabilities that cannot wait in the normal queue line is via the exit ramp located on right hand side of the ride entrance just past the restrooms. Guests with disabilities that do not impair their ability to wait in the queue line should enter via the ride entrance. Guests should utilize the Attraction Access Pass to receive a boarding time. Casts may not restrict the restraints in any way. Riders using a wheelchair must transfer from the wheelchair onto the ride.

Georgia Scorcher

A high speed stand-up roller coaster. Moderately difficult to board and disembark. Very difficult to evacuate due to high, narrow catwalks. Riders must have upper body control and be able to stand in an upright position. A shoulder harness and a safety strap restrain all riders. Riders should be prepared to brace for strong front-to-back, top-to-bottom, bottom-to-top and side-to-side forces.

HEIGHT REQUIREMENT

Guests must be at least 54" or 137 cm.

PHYSICAL REQUIREMENTS

Each rider must maintain in an upright standing position with their head against the headrest and back against the seatback during the duration of the ride and their arms, hands, legs, and feet inside the ride vehicle at all times. No prosthetics, No cast, Rider with one amputated foot or two amputated feet, with or without prosthesis, shall not be allowed on the ride. Rider with one missing arm or hand may ride, provided such rider has the ability to hold on with one functioning hand and stabilize themselves with two functioning legs.

SIZE LIMITATION

Boarding may be difficult for guests with large girths (over 52" or 132 cm) due to the over-the-shoulder restraint and safety strap.

RIDE ACCESS

Ride access for guests confined to a wheelchair or Guests with disabilities who cannot wait in the normal queue line is via the Flash Pass entrance located on left hand side of the ride entrance. Guests with disabilities that do not impair their ability to wait in the queue line should enter via the ride entrance.

Guests should utilize the Attraction Access Pass to receive a boarding time. Riders using a wheelchair must transfer from the wheelchair onto the ride.

Gold Town Racers

A Go-Kart ride with high-speeds, sharp turns, and sudden stops. Drivers and passengers must be able to be restrained by a lap and shoulder seat belt restraint system.

HEIGHT REQUIREMENT

The driver must be at least 58" tall (single seat Go-Kart). For the Double seat Go-Kart, drivers must be at least 58" tall and 18 years old, while the passenger must be at least 40" tall ride.

PHYSICAL REQUIREMENTS

Each rider must maintain an upright seated position with their back against the seatback and head against the head rest during the duration of the ride and their arms, hands, legs, and feet inside the ride vehicle at all times.

Riders must possess two (2) fully functioning arms and two (2) fully functioning legs. A driver with sight must have ability to hold and/or turn the steering wheel and depress the foot pedal. Passengers must have the ability to brace themselves.

SIZE LIMITATIONS

Due to the design of the seating & safety device on this ride, exceptionally large or tall people may not be able to ride.

RIDE ACCESS

Ride access for guests confined to a wheelchair or Guests with disabilities that cannot wait in the normal queue line is via the ride exit. Guests with disabilities that do not impair their ability to wait in the queue line should enter via the ride entrance. Casts may not restrict the restraints in any way. Riders using a wheelchair must transfer from the wheelchair onto the ride.

Goliath

A Hypercoaster with high speeds, tall drops, and side to side forces. Must be restrained by a lap bar. Guests should be prepared to brace for strong front-to-back, back-to-front and side-to-side forces as well as rapidly changing turbulent forces. Evacuation is extremely difficult and time consuming due to high, narrow catwalks.

HEIGHT REQUIREMENT

Guests must be at least 54" tall or least 137 cm.

PHYSICAL REQUIREMENTS

Each rider must maintain an upright seated position with their head against the headrest during the duration of the ride and their arms, hands, legs, and feet inside the ride vehicle at all times. No casts, Rider with one amputated leg or two amputated legs (amputation above the ankle) with or without prosthesis, shall not be allowed on the ride. Rider with one amputated foot or two amputated feet (amputation below the ankle) may ride, provided rider has ability to hold on with 2 functioning hands; Rider with 1 missing arm or hand may ride, provided rider has ability to hold on with 1 functioning hand and stabilize themselves with 2 functioning legs. No prosthetics. Riders who do not meet the extremity requirements may be able to ride Goliath by utilizing a full body harness, if all other requirements are met.

SIZE LIMITATION

Due to the design of the seating & safety device on this ride, exceptionally large guests or tall guests may not be able to ride.

RIDE ACCESS

Ride access for guests confined to a wheelchair or Guests with disabilities that cannot wait in the normal queue line is via the exit ramp located through the Goliath store located on the right hand side of the ride entrance. Guests with disabilities that do not impair their ability to wait in the queue line should enter via the ride entrance. All guests that ride Goliath must have lower mobility. Guests should utilize the Attraction Access Pass to receive a boarding time. Riders using a wheelchair must transfer from the wheelchair onto the ride.

Gotham City Crime Wave

Elevated swing ride. Moderately difficult to board and disembark. Riders must have upper body control and be able to sit in an upright position. Riders should be prepared to brace for strong front-to-back, top-to-bottom, bottom-to-top and side-to-side forces.

HEIGHT REQUIREMENT

Guests must be at least 48" or 122 cm.

PHYSICAL REQUIREMENTS

Each rider must maintain in an upright seated position with their back against the seatback during the duration of the ride and their arms, hands, legs, and feet inside the ride vehicle at all times. Guests must possess at least one (1) fully functioning arm and one (1) fully functional leg.

SIZE LIMITATION

Boarding may be difficult for guests with large girths (over 52" or 132 cm) due to the safety strap.

RIDE ACCESS

Ride access for guests confined to a wheelchair or Guests with disabilities that cannot wait in the normal queue line is via the ride exit. Guests with disabilities that do not impair their ability to wait in the queue line should enter via the ride entrance. Guests should utilize the Attraction Access Pass to receive a boarding time. Casts may not restrict the restraints in any way. Riders using a wheelchair must transfer from the wheelchair onto the ride.

Great American Scream Machine

Wooden roller coaster. Guests must have upper body control, strong grasp, and must be restrained by a lap bar and seatbelt. Guests should be prepared to brace for strong front-to-back, back-to-front and side-to-side forces and rapidly changing turbulent forces. Very difficult to evacuate due to the high, steep, narrow catwalks.

HEIGHT REQUIREMENT

Guests must be at least 42" or 107 cm. tall

PHYSICAL REQUIREMENTS

Each rider must maintain an upright seated position with their back against the seatback and head against the headrest during the duration of the ride with their arms, hands, legs, and feet inside the ride vehicle at all times. No prosthetics are permitted. Riders must possess one (1) fully functioning arm and two (2) fully functioning legs. Riders must be able to sit properly, use all restraining devices and stabilize themselves.

SIZE LIMITATIONS

Due to the design of the seating & safety device on this ride, exceptionally large or tall people may not be able to ride.

RIDE ACCESS

Ride access for guests confined to a wheelchair or Guests with disabilities that cannot wait in the normal queue line is via the ride exit ramp. Guests with disabilities that do not impair their ability to wait in the queue line should enter via the ride entrance. Guests should utilize the Attraction Access Pass to receive a boarding time.

Casts may not restrict the restraints in any way. Riders using a wheelchair must transfer from the wheelchair onto the ride.

Hanson Cars

Gasoline powered car ride. Guests should be able to brace themselves and remain seated during the ride, including possible bumping by other cars. Guests should be prepared to brace for mild front-to-back, back-to-front forces.

HEIGHT REQUIREMENT

An adult who is at least 54" or 137 cm. tall must accompany guests who are less than 42" tall (or 107 cm).

PHYSICAL REQUIREMENTS

Each rider must maintain an upright seated position with their back against the seatback during the duration of the ride and their arms, hands, legs, and feet inside the ride vehicle at all times

Guests must possess at least one (1) fully functioning arm and one (1) fully functional leg. A sighted driver must be in control of the ride vehicle.

SIZE LIMITATION

Due to the design of the seating on this ride, exceptionally large guests may not be able to ride.

RIDE ACCESS

Ride access for guests confined to a wheelchair or Guests with disabilities that cannot wait in the normal queue line is via the exit located on right hand side of the ride entrance. Guests should utilize the Attraction Access Pass to receive a boarding time. Guests with disabilities that do not impair their ability to wait in the queue line should enter via the ride entrance. Riders using a wheelchair must transfer from the wheelchair onto the ride.

Harley Quinn Spinsanity

An exciting ride with spinning action.

HEIGHT REQUIREMENT

Guests must be 48" tall to ride alone. Guests between 42" and 47" must be accompanied by an adult over 54" tall. No lap children are allowed.

PHYSICAL REQUIREMENTS

Each rider must maintain an upright seated position with their back against the seatback during the duration of the ride and their arms, hands, legs, and feet inside the ride vehicle at all times. Riders must have one (1) functioning arm and one (1) functioning leg absent of prosthetic devices. Riders must step up and down into the ride vehicle and will need to transfer from a wheelchair to the ride vehicle.

SIZE LIMITATION

Due to the design of the seating on this ride, exceptionally large or tall guests may not be able to ride.

RIDE ACCESS

Ride access for guests confined to a wheelchair or Guests with disabilities that cannot wait in the normal queue line is via the exit located on right hand side of the ride entrance. Guests with disabilities that do not impair their ability to wait in the queue line should enter via the ride entrance. Riders using a wheelchair must transfer from the wheelchair onto the ride.

Joker's Chaos

A high-speed ride with sudden acceleration, steep drops and sudden stops.

HEIGHT RESTRICTION: Riders must be at least 48"/122cm tall to ride this ride.

PHYSICAL REQUIREMENTS: Each rider must maintain in an upright seated position with their back against the seatback during the duration of the ride and their arms, hands, legs, and feet inside the ride vehicle at all times. In addition, riders must possess at least one (1) naturally fully formed and functioning arm absent of prosthetic devices and two (2) naturally fully formed and functioning legs absent of prosthetic devices. Prosthetics and cast are not permitted. Riders must step up and down into the ride vehicle and will need to transfer from a wheelchair to the ride vehicle.

SIZE LIMITATION: Due to the design of the seating safety device on this ride, exceptionally large or tall people may not be able to ride.

RIDE ACCESS: Guests using a manual or electric wheelchair or an ECV should proceed to the Ride Entrance Attendant and present a valid Attraction Access Pass to receive a wait time. Guests may utilize the ramp located on the left side of the station, marked with the universal wheelchair symbol, after their time has elapsed.

Little Aviator

A children's attraction with circular and up and down motion.

HEIGHT REQUIREMENT

Guests must be 36" or 91 cm tall or accompanied by someone 36" – 60" tall for the Little Aviator.

PHYSICAL REQUIREMENTS

Each rider must maintain an upright seated position with their back against the seatback during the duration of the ride and their arms, hands, legs, and feet inside the ride vehicle at all times. In addition, riders must possess at least one (1) naturally fully formed and functioning arm extremity absent of prosthetic devices and one (1) naturally fully formed and functioning leg extremity absent of prosthetic devices. No leg casts.

SIZE LIMITATION

Due to the design of the seating on this ride, exceptionally large guests may not be able to ride.

RIDE ACCESS

Ride access is via the entrance to the ride. Casts may not restrict the restraints in any way. Riders using a wheelchair must transfer from the wheelchair onto the ride.

Log Jamboree

Water ride. Several steps must be negotiated at the exit of this ride. Guests should be prepared to brace for strong front-to-back forces. Guests become considerably wet; therefore prosthetic devices should be protected. Very difficult to evacuate due to high, narrow catwalks.

HEIGHT REQUIREMENT

An adult who is at least 54" or 137 cm. tall must accompany guests less than 42" or 107 cm. tall. No lap children may ride.

PHYSICAL REQUIREMENTS

Each rider must maintain an upright seated position with their back against the seatback during the duration of the ride and their arms, hands, legs, and feet inside the ride vehicle at all times.

Guests must possess at least one (1) fully functioning arm and one (1) fully functional leg. Riders must have full body control with the ability to support themselves.

SIZE LIMITATION

Due to the design of the seating on this ride, exceptionally large guests may not be able to ride. There must not be more than 680 pounds or a total of four (4) people per log.

RIDE ACCESS

Ride access for Guests confined to a wheelchair is difficult due to a stairway at the entrance, a narrow boarding walkway, and stairs at the boarding area. Access for Guests with disabilities that do not impair their ability to wait in line is via the ride entrance. Guests should utilize the Attraction Access Pass to receive a boarding time. Riders using a wheelchair must transfer from the wheelchair onto the ride.

Mindbender

High speed looping steel coaster. Guests should be prepared to brace for strong front-to-back, top-to-bottom and bottom-to-top forces as well as mild side-to-side forces. The Mindbender is very difficult to evacuate due to the high, steep, narrow catwalks.

HEIGHT REQUIREMENT

Guests must be at least 42" or 107 cm. tall

PHYSICAL REQUIREMENTS

Each rider must maintain an upright seated position with their head against the headrest and back against the seatback during the duration of the ride and their arms, hands, legs, and feet inside the ride vehicle at all times.

Guests must possess at least one (1) fully functioning arm and two (2) fully functional legs. Riders must have upper body control, a strong grasp, and must be restrained by a lap bar.

SIZE LIMITATIONS

Due to the design of the seating & safety device on this ride, exceptionally large or tall people may not be able to ride.

RIDE ACCESS

Ride access for guests confined to a wheelchair or Guests with disabilities that cannot wait in the normal queue line is via the ride exit located by the Gotham City games area. Guests with disabilities that do not impair their ability to wait in the queue line should enter via the ride entrance. Guests should utilize the Attraction Access Pass to receive a boarding time.

Casts may not restrict the restraints in any way. Riders using a wheelchair must transfer from the wheelchair onto the ride.

Monster Mansion

Boats float through a dark mansion with animated monsters. This ride is difficult to evacuate due to the narrow catwalks along the side of the trough.

HEIGHT REQUIREMENT

An adult who is at least 54" or 137 cm. tall should accompany lap children.

PHYSICAL REQUIREMENTS

Each rider must maintain an upright seated position with their back against the seatback during the duration of the ride and their arms, hands, legs, and feet inside the ride vehicle at all times.

Guests must possess two (2) natural legs with lower extremities to the mid-thigh on both legs and one (1) fully functioning arm. Riders must be able to sit properly and stabilize themselves.

SIZE LIMITATIONS

Due to the design of the seating on this ride, exceptionally large or tall people may not be able to ride.

RIDE ACCESS

Ride access for guests confined to a wheelchair or Guests with disabilities that cannot wait in the normal queue line is via the ride exit. Guests with disabilities that do not impair their ability to wait in the queue line should enter via the ride entrance. Guests should utilize the Attraction Access Pass to receive a boarding time. Riders using a wheelchair must transfer from the wheelchair onto the ride.

Ninja

High speed looping steel coaster with corkscrew turns. Guests should be prepared to brace for strong front-to-back, top-to-bottom and bottom-to-top forces as well as mild side-to-side forces. Very difficult to evacuate due to the high, steep, narrow catwalks.

HEIGHT REQUIREMENT

Guests must be at least 48" or 122 cm. tall.

PHYSICAL REQUIREMENTS

Each rider must maintain an upright seated position with their head against the headrest and back against the seatback during the duration of the ride and their arms, hands, legs, and feet inside the ride vehicle at all times. Guests must possess at least one (1) fully functioning arm and one (1) fully functional leg. Guests must have upper body control and must be restrained by an over the shoulder harness.

SIZE LIMITATIONS

Due to the design of the seating safety device on this ride, exceptionally large or tall people may not be able to ride.

RIDE ACCESS

Ride access for guests confined to a wheelchair or Guests with disabilities that cannot wait in the normal queue line is via the ride exit. Guests with disabilities that do not impair their ability to wait in the queue line should enter via the ride entrance. Guests should utilize the Attraction Access Pass to receive a boarding time. Casts may not restrict the restraints in any way. Riders using a wheelchair must transfer from the wheelchair onto the ride.

Riverview Carousel

A gentle circular ride with both stationary and up/down moving horses.

HEIGHT RESTRICTION

Riders must be at least 42" to ride alone. Riders under 42" must ride with an adult.

PHYSICAL REQUIREMENTS

Each rider must be able to remain sitting up straight, keeping their head upright. In addition, Riders must possess at least one (1) naturally fully formed and functioning arm extremity absent of prosthetic devices, one (1) naturally fully formed and functioning leg extremity absent of prosthetic devices, and one (1) leg to the knee to utilize a horse. Riders utilizing a chariot must have upper body control and be able to sit in an upright position.

Casts may not restrict the restraints in any way.

Riders using a wheelchair must transfer from the wheelchair onto the ride.

SIZE LIMITATIONS

Due to the design of the seating & safety device on this ride, exceptionally large or tall people may not be able to ride.

RIDE ACCESS

Guests using a manual or electric wheelchair or an ECV should proceed to the exit and present a valid Attraction Access Pass to a Team Member at the exit to receive a wait time. Casts may not restrict the restraints in any way. Riders using a wheelchair must transfer from the wheelchair onto the ride.

Rockin' Tug

Moderate ride with back and forth motion. Guests must have upper body control and must be restrained by a lap bar. Guests should be prepared to brace for strong front-to-back, top-to-bottom and bottom-to-top forces as well as mild side-to-side forces.

HEIGHT REQUIREMENT

Guests must be at least 42" or 107 cm. tall.

PHYSICAL REQUIREMENTS

Each rider must maintain an upright seated position with their head against the headrest and back against the seatback during the duration of the ride and their arms, hands, legs, and feet inside the ride vehicle at all times.

Guests must possess at least one (1) fully functioning arm and one (1) fully functional leg. Riders must be able to sit properly, use all restraining devices, and stabilize themselves.

SIZE LIMITATIONS

Due to the design of the seating & safety device on this ride, exceptionally large or tall people may not be able to ride.

RIDE ACCESS

Ride access for guests confined to a wheelchair or Guests with disabilities that cannot wait in the normal queue line is via the ride exit. Guests with disabilities that do not impair their ability to wait in the queue line should enter via the ride entrance. Casts may not restrict the restraints in any way. Riders using a wheelchair must transfer from the wheelchair onto the ride.

Santa Maria Boats

A children's attraction with circular motion

HEIGHT REQUIREMENT

An adult who is at least 54" or 137 cm. tall must accompany guests less than 36" or 91 cm. tall. No lap children may ride.

PHYSICAL REQUIREMENTS

Riders must possess upper body control and the ability to sit in an upright position and maintain an upright posture.

SIZE LIMITATIONS

Due to the design of the seating & safety device on this ride, exceptionally large or tall people may not be able to ride.

RIDE ACCESS

Ride access for guests confined to a wheelchair is via the ride exit. Casts may not restrict the restraints in any way. Riders using a wheelchair must transfer from the wheelchair onto the ride.

Six Flags Railroad

Train ride around the park. The railroad may be boarded either at the Marthasville station or the Rabun Gap station. The last coach can accommodate standard wheelchairs. If you leave your chair behind, bring that fact to the attention of a host or hostess so that you can be assured of a round-trip ride on the train. The Railroad attendant can direct and/or escort you to the proper access area.

HEIGHT REQUIREMENT

An adult who is at least 54" or 137 cm. tall should accompany lap children.

PHYSICAL REQUIREMENTS

Riders must possess upper body control and the ability to sit in an upright position and maintain an upright posture.

If one cannot maintain upper body control, he/she must ride with a responsible adult.

RIDE ACCESS

Ride access for guests confined to a wheelchair is via the ride exit.

Sky Buckets

Cable car ride across the park. The Sky Buckets may be boarded at either the Lickskillet station or the Peachtree Square station. If you wish to leave your wheelchair, round trips are available from either station.

HEIGHT REQUIREMENT

An adult who is at least 54" or 137 cm. tall should accompany lap children.

PHYSICAL REQUIREMENTS

Riders must possess upper body control and the ability to sit in an upright position and maintain an upright posture. If one cannot maintain upper body control, he/she must ride with a responsible adult.

SIZE LIMITATIONS

Due to the design of the seating on this ride, exceptionally large or tall people may not be able to ride. No more than six (6) persons or 700 pounds per car is allowed.

RIDE ACCESS

Ride access for guests confined to a wheelchair or Guests with disabilities that cannot wait in the normal queue line is via the ride exit. Guests with disabilities that do not impair their ability to wait in the queue line should enter via the ride entrance. Riders using a wheelchair must transfer from the wheelchair onto the ride.

Sky Coaster

A flying-drop ride in which riders are secured into flight suits, placed in a "prone" position, attached to flight cables and hoisted 180ft to the flight position. One to three flyers can participate at one time, and one flyer must pull the "ripcord." The ride has a sudden drop, with high speeds, and side-to-side forces.

HEIGHT REQUIREMENT

Guests must be at least 42" tall to participate. If the guest is 42", but less than 48" tall then the guest must be accompanied by a guest over 54" tall.

PHYSICAL REQUIREMENTS

Riders must be physically able to be suspended in a prone position while in the flight suit. Guests must possess two (2) arms sufficient to be contained and restrained by the shoulder pads, and at least one (1) leg sufficient to be contained and restrained by a leg strap.

SIZE LIMITATIONS

Due to the design of the safety device on this ride, exceptionally large or tall people may not be able to ride.

RIDE ACCESS

Ride access for guests confined to a wheelchair or Guests with disabilities that cannot wait in the normal queue line is via the ride entrance. A stairway must be navigated to get to the loading area. Casts may not restrict the restraints in any way. Riders using a wheelchair must transfer from the wheelchair into a flight suit and onto the ride platform.

SkyScreamer

Elevated chair swing tower ride. Moderately difficult to board and disembark. Riders must have upper body control and be able to sit in an upright position. Riders should be prepared to brace for strong front-to-back, top-to-bottom, bottom-to-top and side-to-side forces.

HEIGHT REQUIREMENT

Guests must be at least 48" or 122 cm tall to ride alone. Riders who are at least 44" tall may ride with a responsible person 54" or above.

PHYSICAL REQUIREMENTS

Each rider must maintain an upright seated position with their back against the seatback during the duration of the ride and their arms, hands, legs, and feet inside the ride vehicle at all times. Riders must have legs that include the knee.

Riders must have arms that extend at a minimum to the elbow and one natural, functioning hand on one of the two arms.

Riders must be able to sit properly, use all restraining devices, and stabilizing themselves. No prosthetics.

SIZE LIMITATIONS

Due to the design of the seating & safety device on this ride, exceptionally large or tall people may not be able to ride.

RIDE ACCESS

Ride access for guests confined to a wheelchair or Guests with disabilities that cannot wait in the normal queue line is via the ride exit. Guests with disabilities that do not impair their ability to wait in the queue line should enter via the ride entrance. Guests should utilize the Attraction Access Pass to receive a boarding time.

Casts may not restrict the restraints in any way. Riders using a wheelchair must transfer from the wheelchair onto the ride.

Splashwater Falls

Water ride. Guests must have upper body control and must be restrained by a lap bar. Guests should be prepared to brace for strong front-to-back forces. Guests become considerably wet, therefore prosthetic devices should be protected. Very difficult to evacuate due to high, narrow catwalks.

HEIGHT REQUIREMENT

Guests must be at least 36" or 91 cm. tall to ride Splashwater Falls. If the guest is less than 42" or 107 cm tall an adult who is at least 54" or 137 cm. tall must accompany them. Riders in the front row must be at least 54" or 137 cm.

PHYSICAL REQUIREMENTS

Each rider must maintain an upright seated position with their back against the seatback during the duration of the ride and their arms, hands, legs, and feet inside the ride vehicle at all times. Guests must possess at least one (1) fully functional arm, and at least one (1) fully functional leg. Riders must be able to sit properly, use all restraining devices, and stabilize themselves.

SIZE LIMITATIONS

Due to the design of the seating & safety device on this ride, exceptionally large or tall people may not be able to ride.

RIDE ACCESS

Ride access for guests confined to a wheelchair or Guests with disabilities that cannot wait in the normal queue line is via the ride exit ramp.

Guests with disabilities that do not impair their ability to wait in the queue line should enter via the ride entrance. Guests should utilize the Attraction Access Pass to receive a boarding time. Casts may not restrict the restraints in any way. Riders using a wheelchair must transfer from the wheelchair onto the ride.

Superman: Ultimate Flight

Steel "flying" coaster with a loop, strong turns, a spiral, and moderate speeds. Guests must be prepared for front-to-back and side-to-side forces. Guests must be able to be restrained in a "flying" position in order to ride. . Evacuation is considered difficult due to the long narrow catwalks.

HEIGHT REQUIREMENT

Guests must be at least 54" or 137 cm. tall

PHYSICAL REQUIREMENTS

Each rider must maintain an upright seated position with their back against the seatback during the duration of the ride, be able to be in a prone flying position for the duration of the ride with their arms, hands, legs, and feet inside the ride vehicle at all times.

No prosthetics, no cast. Rider with one amputated foot or two amputated feet with or without prosthesis shall not be allowed on the ride. Rider with 1 missing arm or hand may ride, provided rider has ability to hold on with 1 one functioning hand and stabilize themselves with 2 functioning legs.

SIZE LIMITATIONS

Due to the design of the seating & safety device on this ride, exceptionally large or tall people may not be able to ride

RIDE ACCESS

Ride access for guests confined to a wheelchair or Guests with disabilities that cannot wait in the normal queue line is via the Flash Pass entrance located at the entrance to the ride. Guests with disabilities that do not impair their ability to wait in the queue line should enter via the ride entrance. Guests should utilize the Attraction Access Pass to receive a boarding time. Riders using a wheelchair must transfer from the wheelchair onto the ride.

Thunder River

River rapids ride. Guests must have upper body control and must be restrained by a seat belt. Guests should be prepared to brace for strong side-to-side, front-to-back and back-to-front forces as well as rapidly changing turbulent forces. Rafts can bump off barriers from all directions. Guests may become considerably wet; therefore prosthetic devices should be protected. Very difficult to evacuate.

Guests must demonstrate the ability to walk unassisted to board due to the possible need to climb a ladder should evacuation become necessary.

HEIGHT REQUIREMENT

Guests must be at least 36" or 91 cm. tall to ride Thunder River. If the guest is less than 42" or 107 cm tall an adult who is at least 54" or 137 cm. tall must accompany them.

PHYSICAL REQUIREMENTS

Each rider must maintain an upright seated position with their head against the headrest during the duration of the ride and their arms, hands, legs, and feet inside the ride vehicle at all times. Guests must possess at least one (1) fully functional arm, and at least one (1) fully functional leg. Riders must be able to sit properly, use all restraining devices, and stabilize themselves.

SIZE LIMITATIONS

Due to the design of the seating & safety device on this ride, exceptionally large or tall people may not be able to ride

RIDE ACCESS

Ride access for guests confined to a wheelchair or Guests with disabilities that cannot wait in the normal queue line is via the ride exit. Guests with disabilities that do not impair their ability to wait in the queue line should enter via the ride entrance. Guests should utilize the Attraction Access Pass to receive a boarding time. Casts may not restrict the restraints in any way. Riders using a wheelchair must transfer from the wheelchair onto the ride.

Toro Toro

A children's attraction with circular motion.

HEIGHT REQUIREMENT

Guests must be under 54" or 137 cm. tall

PHYSICAL REQUIREMENTS

Each rider must maintain an upright seated position with their back against the seatback during the duration of the ride and their arms, hands, legs, and feet inside the ride vehicle at all times. Guests must possess at least one (1) fully functioning arm and one (1) fully functional leg. Riders must be able to sit properly, utilize all restraining devices, and stabilize themselves. No leg casts.

SIZE LIMITATIONS

Due to the design of the seating & safety device on this ride, exceptionally large or tall people may not be able to ride

RIDE ACCESS

Ride access is via the entrance to the ride. Casts may not restrict the restraints in any way. Riders using a wheelchair must transfer from the wheelchair onto the ride.

Tweety's Clubhouse

A children's attraction with up and down motion.

HEIGHT REQUIREMENT

Guests must be at least 36" or 91 cm tall but not taller than 54" or 137 cm tall in order to ride.

PHYSICAL REQUIREMENTS

Each rider must maintain an upright seated position with their back against the seatback during the duration of the ride and their arms, hands, legs, and feet inside the ride vehicle at all times. Guests must possess at least one (1) fully functioning arm and one (1) fully functional leg. Riders must be able to sit properly, utilize all restraining devices, and stabilize themselves.

SIZE LIMITATIONS

Due to the design of the seating & safety device on this ride, exceptionally large or tall people may not be able to ride

RIDE ACCESS

Ride access is via the entrance to the ride. Casts may not restrict the restraint in any way. Riders using a wheelchair must transfer from the wheelchair onto the ride.

Tweety's Swings

A children's attraction with circular motion.

HEIGHT REQUIREMENT

Guests must be at least 36" or 91 cm tall but not taller than 54" or 137 cm tall in order to ride.

PHYSICAL REQUIREMENTS

Each rider must maintain an upright seated position with their back against the seatback during the duration of the ride and their arms, hands, legs, and feet inside the ride vehicle at all times. Guests must possess at least one (1) fully functioning arm and one (1) fully functional leg. Riders must be able to sit properly, utilize all restraining devices, and stabilize themselves.

SIZE LIMITATIONS

Due to the design of the seating & safety device on this ride, exceptionally large or tall people may not be able to ride

RIDE ACCESS

Ride access is via the entrance to the ride. Casts may not restrict the restraints in any way. Riders using a wheelchair must transfer from the wheelchair onto the ride.

Up, Up, and Away

Horizontal and vertical circular rotation. Somewhat difficult to board and disembark due to small openings in car. Guests must have upper body control. Guest should be prepared to brace for strong front-to-back and back-to-front forces, moderate side-to-side, top-to-bottom and bottom-to-top forces. Ride motion may cause dizziness.

HEIGHT REQUIREMENT

Guest must be least 48" or 122 cm tall to ride alone or must be accompanied by an adult over 54" or 137 cm. No lap children are allowed.

PHYSICAL REQUIREMENTS

Guests must possess at least one (1) fully functional arm, and at least one (1) fully functional leg.

SIZE LIMITATIONS

Due to the design of the seating & safety device on this ride, exceptionally large or tall people may not be able to ride

RIDE ACCESS

Each rider must maintain an upright seated position with their back against the seatback during the duration of the ride and their arms, hands, legs, and feet inside the ride vehicle at all times.

In addition, riders must possess at least one (1) naturally fully formed and functioning arm extremity absent of prosthetic devices and one (1) naturally fully formed and functioning leg extremity absent of prosthetic devices.

Casts may not restrict the restraints in any way.

Riders using a wheelchair must transfer from the wheelchair onto the ride.

Whistle Stop Park Playground

Children's playground and activity area.

HEIGHT REQUIREMENT

Guests under 44" tall must be accompanied by a responsible person 54" or taller.

PHYSICAL REQUIREMENTS

Based on manufacturer requirements, no specific physical requirements are set for the playground at Whistle Stop Park.

PLAYGROUND ACCESS

Access to the playground for guests confined to a wheelchair or Guests with disabilities is at the entrance to the playground area. Some elements are above ground level and other elements are accessible at ground level.

Wile E. Coyote Canyon Blaster

An exciting children's ride with turns and drops.

HEIGHT REQUIREMENT

Riders must be at least 36" or 91 cm tall to ride. Riders between 36"-42" must ride with an adult. Riders over 42" may ride alone.

PHYSICAL REQUIREMENTS

Each rider must maintain an upright seated position with their back against the seatback during the duration of the ride and their arms, hands, legs, and feet inside the ride vehicle at all times. Riders must possess three (3) full extremities. This includes one (1) fully functioning arm and two (2) fully functioning legs or two (2) fully functioning arms and one (1) fully functioning leg. No leg casts.

SIZE LIMITATIONS

Due to the design of the seating & safety device on this ride, exceptionally large or tall people may not be able to ride.

RIDE ACCESS

Ride access for guests confined to a wheelchair or Guests with disabilities that cannot wait in the normal queue line is via the ride exit. Guests with disabilities that do not impair their ability to wait in the queue line should enter via the ride entrance. Guests should utilize the Attraction Access Pass to receive a boarding time.

Arm casts may not restrict the restraints in any way. Riders using a wheelchair must transfer from the wheelchair onto the ride.

Hurricane Harbor Attractions:

Bonzai Pipeline

A serpentine flume with high thrills of acceleration and deceleration forces from front and rear and all sides. Riders will experience high speeds, steep drops and tight turns. Physical and cognitive ability is required to maintain riding position.

SIZE LIMITATIONS

Guests must be at least 48" to ride. May not exceed 250 lbs. Maximum 1 rider per slide.

PHYSICAL REQUIREMENTS

Guests must possess the physical and cognitive abilities to hold themselves in an upright-seated position while holding onto two handles of the raft throughout the course of the ride. Guests with casts are not allowed to ride.

RIDE ACCESS

There is one entrance to this attraction through a queue line and up multiple flights of stairs.

Calypso Bay

An ocean-like swimming pool with simulated waves and currents that can be strong. Pool depth ranges from a zero depth entry to 6 feet.

SIZE LIMITATIONS

Small and non-swimming children must swim with an adult.

RIDE ACCESS

Zero depth sloped entry/exit.

Paradise Island

Water play area with water slides. Guests become considerably wet; therefore prosthetic devices should be protected. Many water play elements are located on ground level. Very difficult to evacuate due to high, narrow catwalks.

HEIGHT REQUIREMENT

Guests must be at least 36" or 91 cm. tall to ride the orange, yellow, and aqua water slides and 42" or 107 cm to ride the green and purple water slides and have body control to properly traverse the water slides.

RIDE ACCESS

Ride access for guests confined to a wheelchair or Guests with disabilities is via the ride entrance and a changing area is located in Paradise Island. Guests with disabilities that do not impair their ability to wait in the queue line should enter via the ride entrance.

Tsunami Surge

A large serpentine flume where multiple persons ride in a raft down a river rapids like slide. Guests will experience high speeds, turns, and side-to-side motions. Physical and cognitive ability is required to maintain riding position.

SIZE LIMITATIONS

Guests must be at least 48" to ride. Maximum of 4 riders per raft. Combined weight of riders may not exceed 700 lbs.

PHYSICAL REQUIREMENTS

Guests must possess the physical and cognitive abilities to hold themselves in an upright-seated position while holding onto two handles of the raft throughout the course of the ride. Guests with casts are not allowed to ride.

RIDE ACCESS

There is one entrance to this attraction through a queue line and up multiple flights of stairs.
