**SAFETY &
ACCESSIBILITY
GUIDE**

FOR MORE INFORMATION PLEASE VISIT GUEST RELATIONS

INTRODUCTION:

We are thrilled that you have chosen to spend your day at Six Flags! Our goal is to make your visit fun and memorable. This Six Flags Guest Safety and Accessibility Guide includes important information to assist Guests with planning their visit to the park and enjoy its various attractions, rides, services and amenities. In this Guide, Guests will find specific information for individuals with disabilities along with general policies and guidelines.

We work closely with the manufacturer of each of our rides and our policies incorporate the manufacturers' guidelines as well as the requirements of the Americans With Disabilities Act. We hope that this Guide will help Guests make the best choices to ensure a safe, comfortable and convenient experience at the park. If, at any time, Guests need additional assistance or a further explanation of our policies and guidelines, they should feel free to ask any Six Flags Team Member.

Our goal is to safely and efficiently accommodate the needs of all Guests, including individuals with disabilities. This Guide, along with the availability of our Team Members to answer any questions and offer assistance, will allow Guests to have a thrilling and safe day at the park.

GENERAL WARNING:

We are committed to providing you a safe environment during your visit to Six Flags. While there are inherent risks to participating in any amusement park ride or attraction, our goal is to ensure your safety with the incorporation of some restrictions. For your safety, you should be in good health to ride. Only you know your physical conditions or limitations.

Many amusement park rides incorporate safety systems designed by the manufacturer to accommodate people of average physical stature and body proportion. These safety systems may place restrictions on the ability of a Guest to safely be contained within the ride restraint. Extremely large or small individuals, Guests who have heart, back or neck trouble or conditions, pregnant women, people who have had recent surgery or an illness, people with casts, braces, restrictive devices or certain disabilities may not be safely accommodated by certain ride systems. For example, height requirements are based on the size needed for safety restraints to

function properly and the level of maturity usually associated with a certain height.

If you suspect your health could be at risk for any reason, or you could aggravate a pre-existing condition of any kind, **DO NOT RIDE**. The specific features, rider requirements and health restrictions of each ride are described later in this Guide.

In order to ride, all Guests must be able to maintain the proper riding position, meet the ride requirements and appropriately utilize the restraint systems, including lap bars, shoulder harnesses and seatbelts as indicated. All Guests must also be able to demonstrate a willingness and ability to comply with verbal and written rider requirements.

Six Flags reserves the right to make the final determination regarding eligibility of a Guest to ride a particular ride based on the Guest's size, weight, height or other limitations. Information in this Guide is subject to change.

RIDER RESPONSIBILITY:

All Guests have a duty to exercise good judgment and act in a responsible manner while participating on a ride or attraction and to obey all verbal and written warnings and instructions. Guests also have a duty to properly use all ride and attraction safety equipment provided.

PARKING:

Accessible parking is available on a first-come, first-serve basis within the main parking lots of the park. When you arrive at the parking toll booths, ask a Team Member for instructions regarding where to proceed to the accessible parking lot. Both auto and van accessible spaces are provided. A valid disabled persons parking placard or license plate must be displayed at all times while parked in the designated accessible parking area. If the designated accessible parking area is full at the time of your arrival, members of your party may be dropped off at the main pick-up/drop-off area, near the main entrance to the park. Please ask a Team Member for directions to additional parking areas.

WHEELCHAIRS AND ELECTRIC CONVENIENCE VEHICLES (ECV'S):

Wheelchairs and electric convenience vehicles (ECV's) are available for rent at Stroller Rental, just inside the main entrance. A deposit is also required.

Guests may also use their own wheelchairs or ECV's. If you need to take the rented wheelchair or ECV outside of the park, a Team Member escort is necessary to do so. Please ask for assistance at Guest Relations. Battery recharging is also available at Guest Relations.

Guests using wheelchairs or ECV's may utilize any ticket window and designated turnstiles to enter the park. Many of the park's shopping and dining facilities are also wheelchair accessible. Many of the rides and attractions have queues that are accessible to Guests using manual wheelchairs. If an alternate entrance is required, these entrances are generally at the ride exit and are identified by a sign with the universal wheelchair symbol. Please keep in mind that there are specific boarding requirements and accommodations for those using wheelchairs at each ride or attraction.

SEGWAY:

Due to varying walkways, terrains and large crowds, we cannot permit the use of two-wheeled, self-balancing electric vehicles such as Segways. We are pleased to offer other forms of transportation, including ECV's and standard wheelchairs. Please contact Guest Relations for more information.

SERVICE ANIMALS:

Trained service animals are welcome at our Six Flags Theme Parks. Service animals are defined as dogs that are individually trained to do work or perform tasks for people with disabilities. Examples of such work or tasks include guiding people who are blind, alerting people who are deaf, pulling a wheelchair, alerting and protecting a person who is having a seizure, reminding a person with mental illness to take prescribed medications, calming a person with Post Traumatic Stress Disorder (PTSD) during an anxiety attack, or performing other duties. Service animals are working animals, not

pets. The work or task a dog has been trained to provide must be directly related to the person's disability. Dogs whose sole function is to provide comfort or emotional support do not qualify as service animals. Miniature horses that have been individually trained to do or perform tasks for people with disabilities will qualify as service animals.

Service animals must be house broken and remain on a leash or harness and under the control of their handler at all times. Guests whose service animal demonstrates aggressive and/or annoying actions toward a Guest, Team Member, animal or animal attraction will be directed to remove the animal from the park.

Service animals are welcome in most locations of the park. Most of our rides are not equipped or designed for accessibility to service animals. Therefore, a member of your party must be available to stay with the animal while you ride.

Guests may take advantage of our Kid Swap policy for staying with their service animal. However, park Team Members will not take responsibility for, or provide care to any service animal. Refer to the section on Kid Swap for more information.

Service Animal "Relief Areas" are located at Chabot Stadium (blue map location #25) and at the smoking area located near White Water Safari (purple map location #24). In order to access the animal relief area by Chabot Stadium (blue map location #25) please use the walkway between Walrus and Seaside Junction (blue #9 and purple #16). This walkway will lead to a grassy area which is designated for Animal Relief use. The Animal Relief area near the smoking area by White Water Safari (purple map location #24) is the large grassy area. Owners are responsible for disposing of their animal's waste.

RESTROOMS:

Most restrooms within the park are accessible for Guests using wheelchairs. Please check the park map for locations. The park's Team Members or Guest Relations can provide location directions should you need companion restrooms during your visit.

ALTERNATE ACCESS:

Most of the park's theaters, attractions, restaurants and shops are accessible to wheelchairs. Most, if not all rides require transfer from

the wheelchair to the ride seat. Special access entrances are available to accommodate Guests with mobility aides and service animals. These special entrances are generally at the ride exit and are identified by a sign with the universal wheelchair symbol.

If you require the use of alternate access to enter a ride, please visit Guest Relations to obtain an Equal Access Pass. Alternate access is available for the Guest requiring the alternate access and up to a maximum of 3 companions. Upon presentation of a valid Equal Access Pass, the Ride Attendant will document your reservation time for the ride. You may rest in a comfortable location or enjoy other attractions in the area until your reservation time has come or when the others from your party reach the boarding platform. If your party is larger than 4 Guests, the other members of your party will be required to enter the ride through the standard queue. We have a 15 minute grace period for late arrivals. Alternate access is intended to accommodate Guests with mobility aides and service animals and not to bypass others waiting in line.

The Guest with an Equal Access Pass must ride in order for his/her companions to utilize the alternate access. If the Guest with an Equal Access Pass chooses not to ride, his/her companions must wait in the standard queue.

Entry, Exit and Transfer must be accomplished independently by the Guest or with the assistance of a member from his/her party. Six Flags Team Members are not trained in lifting or carrying persons with disabilities and are therefore not permitted to assist Guests on or off the rides. Not all rides have alternate access. If in doubt, please contact the Ride Attendant or Guest Relations for more information.

SIX FLAGS SAFETY AND ACCESSIBILITY NOTICE

Our goal is to safely accommodate the needs of all Guests, including individuals with disabilities by providing equal access to rides and attractions.

Equal Access Passes are intended to accommodate Guests with mobility aides, service animals and legitimate disabilities which require alternative access to a ride. They are not designed to bypass or “skip” the lines and the wait will be equal to the posted

wait times. Individuals found to be fraudulently using the Equal Access Pass may be subject to civil penalties.

MEDICAL DEVICES AND MOBILITY AIDES:

For your safety and the safety of others, riders may be required to remove medical devices, half or full length orthotics, braces, crutches, canes, prosthetics and any other type of medical assistance device that is not permanently affixed to the rider's body to prevent hazards or loss due to ride forces. These devices prevent safety restraints from working as designed, keep the rider from maintaining the proper riding posture, and present a hazard to the rider or others. If in doubt about your ability to safely experience a ride or attraction, please refer to the Rider Requirement Sign at the ride entrance. You may also consult with a Ride Attendant or Guest Relations for more information.

Please also refer to the “Ride Information” section of this Guide for specific information regarding removal of medical devices and mobility aides on a ride by ride basis. If you have any questions, please ask a Ride Attendant or visit Guest Relations.

LARGER FRAMED GUESTS:

Many rides incorporate safety systems designed by the manufacturer to accommodate people of average physical stature and body proportion. These systems may place restrictions on the ability of an individual to safely experience the ride

In order to ride, all seatbelts, lap bars, and shoulder harnesses must be positioned and fastened properly. Due to rider restraint system requirements, Guests of a larger size may not be accommodated on some rides.

KID SWAP:

The Kid Swap program is designed to accommodate groups with younger children who may not be tall enough to ride some attractions. To participate: 1) The entire party should enter the ride queue; 2) When preparing to board, tell the Ride Attendant you are using the Kid Swap program; 3) Children who are not tall enough to ride may wait at the exit with an adult from your party; 4) After the first ride is completed, the adult who waited with the child will be allowed to ride.

RIDE RATINGS AND WARNINGS:

Ride warning signs can be found at the entrance of each ride to help determine the attractions that are best for Guests based upon their experience level, physical condition and abilities. Information on each ride can also be found on the Park Map and Guide.

Key to Symbols:

GENERAL INFORMATION

FRIGHT FEST:

Theatrical fog effects, areas of low lighting, loud music, sound effects, and theatrical and strobe lighting are used throughout the park during Fright Fest. This includes streets, midways, outdoor scare zones, mazes and haunted houses both indoor and outdoor, live entertainment venues and children's attractions.

Guests with respiratory sensitivities, history of seizures or epilepsy, or sensitivities to latex, loud music and sound effects are advised not

to participate in these attractions. Please adhere to all posted and verbal warnings and directions.

FAMILY SERVICES/NURSING MOTHERS:

A private room for nursing mothers is available at First Aid. Baby changing areas and a companion restroom can be found in most restrooms. Please feel free to ask a Team Member for directions to these locations or review a park map.

HEARING DISABILITIES: Assisted listening devices are available upon request. Please see Guest Relations for additional information. American Sign Language Interpreting will be available if requested at least 7 days in advance of your visit. To arrange for sign language interpreting services, please call the Operations Office at **(707) 556-5377 Monday through Friday 9:00am to 5:00pm.**

PREGNANCY:

Guests who know or believe they may be pregnant should follow all rules, guidelines and restrictions listed for each ride. Those who are pregnant should not ride a ride that specifically lists pregnancy as a rider restriction. Please closely review all rules and guidelines at the entrance of each ride.

RESTAURANTS:

The park's restaurants offer a variety of food options. Assistance is available upon request. Exceptions are made for Guests with special dietary needs including food allergies and baby food/formula.

Guests should contact Park Security or Guest Relations upon arrival at the park for approval to bring in special dietary foods. The special dietary food containers will be marked and dated to clearly show that they have been approved for entry into the park.

FIRST AID:

Emergency Medical Technicians or Paramedics are on duty during all park operating hours. If you require medical assistance, ask any Team Member and they will summon medical personnel to your location. Please refer to your Park Map and Guide for the location of First Aid.

OXYGEN TANKS/AIR CONCENTRATORS:

Due to the dynamics and certain characteristics of the rides, oxygen tanks or portable systems are not permitted on most of our rides and attractions. Oxygen tanks are permitted in enclosed facilities. For your convenience, the park's First Aid station(s) will be able to appropriately store your additional oxygen tanks during your visit.

SPECIAL EFFECTS AT THEATERS, RIDES AND ATTRACTIONS:

Theatrical fog and other effects, including but not limited to: haze and other atmospheric effects, scents, areas of low lighting, loud music, sound effects, theatrical lighting and strobe lighting may be used at various locations in the park such as theaters and during Fright Fest. Guests with respiratory sensitivities, history of seizure or epilepsy, or sensitivities to latex, loud music and sound effects are advised not to participate in these attractions. Please adhere to all posted and verbal warnings and directions.

RIDE INFORMATION

CAMERAS:

Picture taking and the use of cameras and video recording devices is not permitted on any ride, while it is in motion. It is encouraged that Guests leave their equipment with a non-rider or secure it in a locker or their vehicle. Lockers are available to store items for a nominal fee. Guests must have written permission to use photographs and/or recordings of any aspect of the park for commercial broadcasting, advertising, marketing, or publishing in any medium.

RIDE EVACUATIONS:

If a ride evacuation is necessary, Guests may need to negotiate stairs from the highest points of the ride down steeply inclined stairs or walking surfaces. Guests requiring assistance during the ride evacuation may be escorted last in order to expedite the ride evacuation process. Please ask a Ride Attendant about the specific procedures prior to boarding a particular ride.

Definitions: Every ride entrance lists height requirements and special instructions regarding the ride. Six Flags uses the following terms:

Responsible Person: A responsible person is someone who meets all the requirements to ride the ride themselves and is at least 54" tall or taller.

Accompanied By: Whenever a Guest needs accompaniment, the accompanying person must meet all the ride requirements and be able to assist the Guest including helping the Guest to board and exit the ride and assisting the Guest down stairs, catwalks, or ladders in case of an evacuation.

Lap Child: A lap child is a child who is unable to walk to the ride independently or maintain independent seated postural control.

Functioning Extremity: A functioning extremity is a limb over which a person has control. A prosthetic device is not considered a functioning extremity. Six Flags has additional requirements regarding prosthetic devices. Please see the section on Prosthetics in this Guide.

Ability to hold on or brace: Ability to use one's arms to maintain a grasp on an assist bar and support one's body during normal and emergency procedures on a ride and to use one's legs to brace to maintain a seated position during the ride.

Functioning Arm is a full arm with the ability to be flexed at the elbow and a minimum of three full fingers with the ability to hold on with a firm grip. Functioning leg is a leg with a foot.

Acme Fun Factory

A soft children's play area

Height Restriction: Must be 42" tall or accompanied by an adult over 54" tall.

Physical Requirements: No extremity requirements.

Ride Access: Guests using a manual or electric wheelchair or an ECV should enter through the main entrance.

Air Penguins

A gentle circular ride with some up and down motion

Height Restriction: Riders must be at least 38" tall to ride. Riders less than 38" must ride with an adult over 54".

Physical Requirements: Each rider must maintain an upright seated position with their back against the seatback during the duration of the ride and their arms, hands, legs, and feet inside the ride vehicle at all times. Riders must have one full arm and one full leg. Riders must step up and down into the ride vehicle and will need to transfer from a wheelchair to the ride vehicle.

Ride Access: Guests using a manual or electric wheelchair or an ECV should proceed to the exit and present a valid Equal Access Pass to a Team Member at the exit to receive a wait time.

Ark

A moderate ride with a rocking back and forth motion

Height Restriction: Riders must be at least 48" tall to ride alone. Riders must be at least 42" to ride with an adult over 54". No lap children.

Physical Requirements: Each rider must maintain an upright seated position with their head against the headrest during the duration of the ride and their arms, hands, legs, and feet inside the ride vehicle at all times. Riders must possess one full arm and two full legs. Riders must be accommodated by the restraint and must have the ability to maintain normal riding position. Riders must step

up and down into the ride vehicle and will need to transfer from a wheelchair to the ride vehicle.

Ride Access: Guests using a manual or electric wheelchair or an ECV should proceed to the exit and present a valid Equal Access Pass to a Team Member at the exit to receive a wait time.

Boardwalk Bumper Buggies

A driving ride with turns and bumps

Height Restriction: Riders must be at least 54" to drive. Passengers must be at least 48".

Physical Requirements: Each rider must maintain in an upright seated position with their back against the seatback during the duration of the ride and their arms, hands, legs, and feet inside the ride vehicle at all times. Riders must have at least one full arm and one full leg. Riders must be accommodated by the restraint and must have the ability to maintain normal riding position. Drivers must have the ability to hold and turn the steering wheel and depress the foot pedal. Passengers must have the ability to brace themselves. Riders must step up and down into the ride vehicle and will need to transfer from a wheelchair to the ride vehicle.

Ride Access: Guests using a manual or electric wheelchair or an ECV should proceed to the exit and present a valid Equal Access Pass to a Team Member at the exit to receive a wait time.

Boomerang

High speed roller coaster with front to back, top to bottom and side to side forces

Height Restriction: Riders must be at least 48" tall to ride.

Physical Requirements: Each rider must maintain an upright seated position with their head against the headrest during the duration of the ride and their arms, hands, legs, and feet inside the ride vehicle at all times. Riders must have at least one full arm and one full leg. Riders must step up and down into the ride vehicle and will need to transfer from a wheelchair to the ride vehicle.

Ride Access: Guests using a manual or electric wheelchair or an ECV should proceed to the exit and present a valid Equal Access Pass to a Team Member at the exit to receive a wait time.

Bugs Buccaneer

A mild ride with a rocking back and forth motion

Height Restriction: Riders must be at least 36" and no taller than 54" to ride alone. No lap children.

Physical Requirements: Each rider must maintain an upright seated position with their head against the headrest during the duration of the ride and their arms, hands, legs, and feet inside the ride vehicle at all times. Riders must possess one full arm and two full legs. Riders must be accommodated by the restraint and must have the ability to maintain normal riding position. Riders must step up and down into the ride vehicle and will need to transfer from a wheelchair to the ride vehicle.

Ride Access: Guests using a manual or electric wheelchair or an ECV should proceed to the exit and present a valid Equal Access Pass to a Team Member at the exit to receive a wait time.

Cobra

A family coaster with gentle drops and quick turns

Height Restriction: Riders must be at least 48" tall to ride alone. Riders at least 42" tall must be accompanied by an adult over 54".

Physical Requirements: Each rider must maintain an upright seated position with their back against the seatback during the duration of the ride and their arms, hands, legs, and feet inside the ride vehicle at all times. Riders must have at least one full arm and two full legs. No casts are allowed. Riders must be accommodated by the restraint and must have the ability to maintain normal riding position. Riders must step up and down into the ride vehicle and will need to transfer from a wheelchair to the ride vehicle.

Ride Access: Guests using a manual or electric wheelchair or an ECV should enter through the standby entrance located by the exit.

Congo Queen

An exciting children's ride with circulating and oscillating up and down motion

Height Restriction: Riders must be at least 42" tall to ride alone. Riders less than 42" must ride with an adult over 54". No lap children.

Physical Requirements: Each rider must maintain an upright seated position with their back against the seatback during the duration of the ride and their arms, hands, legs, and feet inside the ride vehicle at all times. Riders must possess one full arm and one full leg. Riders must step up and down into the ride vehicle and will need to transfer from a wheelchair to the ride vehicle.

Ride Access: Guests using a manual or electric wheelchair or an ECV should proceed to the exit and present a valid Equal Access Pass to a Team Member at the exit to receive a wait time.

Daffy's Deep Sea Diver

A slow moving circular ride that has some elevation

Height Restriction: Riders must be at least 42" tall to ride alone. Riders less than 42" must ride with an adult over 54". No lap children.

Physical Requirements: Each rider must maintain an upright seated position with their back against the seatback during the duration of the ride and their arms, hands, legs, and feet inside the ride vehicle at all times. Riders must have one full arm and one full leg. No leg casts. Riders must step up and down into the ride vehicle and will need to transfer from a wheelchair to the ride vehicle.

Ride Access: Guests using a manual or electric wheelchair or an ECV should proceed up the exit and present a valid Equal Access Pass to a Team Member at the exit to receive a wait time.

Elmer's Weather Balloons

A gentle circular ride with some elevation

Height Restriction: Riders must be at least 42" tall to ride alone. Riders less than 42" must ride with an adult over 54". No lap children. Weight limit of 440 lbs. per gondola.

Physical Requirements: Each rider must maintain an upright seated position with their back against the seatback during the duration of the ride and their arms, hands, legs, and feet inside the ride vehicle at all times. Riders must have one full arm and one full leg. Riders must step up and down into the ride vehicle and will need to transfer from a wheelchair to the ride vehicle.

Ride Access: Guests using a manual or electric wheelchair or an ECV should proceed to the exit and present a valid Equal Access Pass to a Team Member at the exit to receive a wait time.

Foghorn's Seaport Railway

A gentle children's ride around a track with gentle turns

Height Restriction: Riders must be at least 36" tall to ride alone. Riders less than 36" must ride with an adult over 54". No lap children.

Physical Requirements: Each rider must maintain an upright seated position with their back against the seatback during the duration of the ride and their arms, hands, legs, and feet inside the ride vehicle at all times. Riders must have one full arm and one full leg. Riders must step up and down into the ride vehicle and will need to transfer from a wheelchair to the ride vehicle.

Ride Access: Guests using a manual or electric wheelchair or an ECV should proceed to the exit and present a valid Equal Access Pass to a Team Member at the exit to receive a wait time.

Frog Hopper

A gentle circular ride with some up and down motion

Height Restriction: Riders must be at least 36" tall to ride. Riders less than 36" must ride with an adult over 54".

Physical Requirements: Each rider must maintain an upright seated position with their back against the seatback during the duration of the ride and their arms, hands, legs, and feet inside the ride vehicle at all times. Riders must have one full arm and one full leg. Riders must step up and down into the ride vehicle and will need to transfer from a wheelchair to the ride vehicle.

Ride Access: Guests using a manual or electric wheelchair or an ECV should proceed to the exit and present a valid Equal Access Pass to a Team Member at the exit to receive a wait time.

Hammerhead

An exciting elevated ride that circles up and down with quick speed

Height Restriction: Riders must be at least 48" tall to ride.

Physical Requirements: Each rider must maintain an upright seated position with their head against the headrest during the duration of the ride and their arms, hands, legs, and feet inside the ride vehicle at all times. Riders must have at least one full arm and two full legs. Riders must step up and down into the ride vehicle and will need to transfer from a wheelchair to the ride vehicle.

Ride Access: Guests using a manual or electric wheelchair or an ECV should proceed to the exit and present a valid Equal Access Pass to a Team Member at the exit to receive a wait time.

Kong

An exciting coaster with high speeds, steep drops, fast turns, inverted loops, and sudden stops

Height Restriction: Riders must be at least 52" tall to ride. Maximum height is 78".

Physical Requirements: Each rider must maintain an upright seated position with their head against the headrest during the duration of the ride and their arms, hands, legs, and feet inside the ride vehicle at all times. Riders must have two full arms and two legs to the knees, or one full arm and two full legs. Riders must be able to hold on to the grab bar at all times. For your safety and the safety of others, riders must remove medical devices including half or full length orthotics, braces, crutches, canes, prosthetics and any other type of medical assistance device that is not permanently affixed to the rider's body to prevent hazards or loss due to ride forces. No casts are allowed. Riders must be accommodated by the restraint and must have the ability to maintain normal riding position. Riders using a wheelchair must transfer from the wheelchair onto the ride.

Ride Access: Guests using a manual or electric wheelchair or an ECV should enter through the entrance, proceed to the elevator and present a valid Equal Access Pass to a Team Member to receive a wait time.

Medusa

An exciting coaster with high speed turns, steep drops, inversions, and sudden stops.

Height Restriction: Riders must be at least 54" tall to ride.

Physical Requirements: Each rider must maintain an upright seated position with their head against the headrest during the duration of the ride and their arms, hands, legs, and feet inside the ride vehicle at all times. In addition riders with one amputated foot or two amputated feet (amputation below the knee) may ride provided the rider has the ability to hold on with two functioning hands. Riders with one missing arm or hand may ride, provided rider has ability to hold on with one functioning hand and brace themselves with two functioning legs. For your safety and the safety of others, riders must remove medical devices including half or full length orthotics, braces, crutches, canes, prosthetics and any other type of medical assistance device that is not permanently affixed to the rider's body to prevent hazards or loss due to ride forces. Casts are not permitted and riders must have control of their leg(s). Riders using a wheelchair must transfer from the wheelchair onto the ride.

Ride Access: Guests using a manual or electric wheelchair or an ECV should proceed to the exit and present a valid Equal Access Pass to a Team Member at the exit to receive a wait time.

Merlin's Seaside Tours

A slow moving circular ride that has some elevation

Height Restriction: Riders must be at least 38" tall to ride alone. Riders less than 38" must ride with an adult over 54". No lap children.

Physical Requirements: Each rider must maintain an upright seated position with their back against the seatback during the duration of the ride and their arms, hands, legs, and feet inside the ride vehicle at all times. Riders must have one full arm and one full leg. No leg casts. Riders must step up and down into the ride vehicle and will need to transfer from a wheelchair to the ride vehicle.

Ride Access: Guests using a manual or electric wheelchair or an ECV should proceed up the exit ramp and present a valid Equal Access Pass to a Team Member at the exit to receive a wait time.

Monkey Around

A gentle circular ride with some elevation

Height Restriction: Riders must be between 36" and 54" tall to ride.

Physical Requirements: Each rider must maintain an upright seated position with their back against the seatback during the duration of the ride and their arms, hands, legs, and feet inside the ride vehicle at all times. Riders must have one full arm and one full leg. Riders must step up and down into the ride vehicle and will need to transfer from a wheelchair to the ride vehicle.

Ride Access: Guests using a manual or electric wheelchair or an ECV should proceed to the exit and present a valid Equal Access Pass to a Team Member at the exit to receive a wait time.

Monkey Business

A moderate ride with quick circulating motion

Height Restriction: Riders must be at least 42" to ride.

Physical Requirements: Each rider must maintain an upright seated position with their back against the seatback during the duration of the ride and their arms, hands, legs, and feet inside the ride vehicle at all times. Riders must have at least one full arm and one full leg. No leg restraints. Riders must be able to stabilize themselves and the safety restraint must be able to function as intended. Riders will need to transfer from a wheelchair to the ride vehicle.

Ride Access: Guests using a manual or electric wheelchair or an ECV should proceed to the exit and present a valid Equal Access Pass to a Team Member at the exit to receive a wait time.

Monsoon Falls

A family boat ride with drops, turns, and splashes

Height Restriction: Riders must be between 42" and 76" tall to ride.

Physical Requirements: Each rider must maintain an upright seated position during the duration of the ride and their arms, hands, legs, and feet inside the ride vehicle at all times. Riders must have at least one full arm and one full leg. Riders must step up and down into the ride vehicle and will need to transfer from a wheelchair to the ride vehicle.

Ride Access: Guests using a manual or electric wheelchair or an ECV should proceed to the disabled entrance near the main entrance and present a valid Equal Access Pass to a Team Member at the exit to receive a wait time.

Nairobi's Lookout Balloons

A gentle circular ride with some elevation

Height Restriction: Riders must be at least 42" tall to ride alone. Riders less than 42" must ride with an adult over 54". No lap children.

Physical Requirements: Each rider must maintain an upright seated position with their back against the seatback during the duration of the ride and their arms, hands, legs, and feet inside the ride vehicle at all times. Riders must have one full arm and one full leg. Riders must step up and down into the ride vehicle and will need to transfer from a wheelchair to the ride vehicle.

Ride Access: Guests using a manual or electric wheelchair or an ECV should proceed to the exit and present a valid Equal Access Pass to a Team Member at the exit to receive a wait time.

Pepe's Rafts of Romance

An exciting children's ride with spinning action

Height Restriction: Riders must be at least 36" tall to ride. Riders less than 36" must ride with an adult over 54". No lap children.

Physical Requirements: Each rider must maintain an upright seated position with their back against the seatback during the duration of the ride and their arms, hands, legs, and feet inside the ride vehicle at all times. Riders must have one full arm and one full leg. Riders must step up and down into the ride vehicle and will need to transfer from a wheelchair to the ride vehicle.

Ride Access: Guests using a manual or electric wheelchair or an ECV should proceed to the exit and present a valid Equal Access Pass to a Team Member at the exit to receive a wait time.

Roadrunner Express

A family coaster with gentle drops and quick turns

Height Restriction: Riders must be at least 42" tall to ride. Riders less than 42" must ride with an adult over 54".

Physical Requirements: Each rider must maintain an upright seated position with their back against the seatback during the duration of the ride and their arms, hands, legs, and feet inside the ride vehicle at all times. Riders must have at least three full appendages - one full arm and two full legs or one full leg and two full arms. No leg casts. Riders must step up and down into the ride vehicle and will need to transfer from a wheelchair to the ride vehicle.

Ride Access: Guests using a manual or electric wheelchair or an ECV should proceed to the exit and present a valid Equal Access Pass to a Team Member at the exit to receive a wait time.

Roar

An exciting coaster with high speed turns, steep drops and sudden stops

Height Restriction: Riders must be at least 48" tall to ride.

Physical Requirements: Each rider must maintain an upright seated position with their head against the headrest during the duration of the ride and their arms, hands, legs, and feet inside the ride vehicle at all times. Riders must have two full legs and one full arm. For your safety and the safety of others, riders must remove medical devices including half or full length orthotics, braces, crutches, canes, prosthetics and any other type of medical assistance device that is not permanently affixed to the rider's body to prevent hazards or loss due to ride forces. Riders must be accommodated by the restraint and must have the ability to maintain normal riding position. No Riders must step up and down into the ride vehicle and will need to transfer from a wheelchair to the ride vehicle.

Ride Access: Guests using a manual or electric wheelchair or an ECV should enter through the standby entrance, proceed to the elevator and present a valid Equal Access Pass to a Team Member to receive a wait time.

Rockwall

Participant propelled climbing, with moderate height and descending motion

Height Restriction: Must be at least 36" tall to climb. Weight limit must be between 40-250lbs.

Physical Requirements: Participants must have two fully functioning arms and two fully functioning legs and must remain properly secured in their restraints throughout the climb.

Ride Access: All participants should utilize the main entrance to access the attraction.
