

SAFETY & ACCESSIBILITY GUIDE

FOR MORE INFORMATION PLEASE VISIT GUEST RELATIONS

INTRODUCTION:

We are thrilled you have chosen to spend your day at Six Flags! Our goal is to make your visit fun and memorable. This Six Flags Guest Safety and Accessibility Guide includes important information to assist Guests with planning their visit to the park and enjoy its various attractions, rides, services and amenities. In this Guide, Guests will find specific information for individuals with disabilities along with general policies and guidelines.

We work closely with the manufacturer of each of our rides and our policies incorporate the manufacturers' guidelines as well as the requirements of the Americans with Disabilities Act. We hope that this Guide will help Guests make the best choices to ensure a safe, comfortable and convenient experience at the park. If, at any time, Guests need additional assistance or a further explanation of our policies and guidelines, they should feel free to ask any Six Flags Team Member.

Our goal is to safely and efficiently accommodate the needs of all Guests, including individuals with disabilities. This Guide, along with the availability of our Team Members to answer any questions and offer assistance, will allow Guests to have a thrilling and safe day at the park.

GENERAL WARNING:

We are committed to providing you a safe environment during your visit to Six Flags. While there are inherent risks to participating in any amusement park ride or attraction, our goal is to ensure your safety with the incorporation of some restrictions. For your safety, you should be in good health to ride. Only you know your physical conditions or limitations.

Many amusement park rides incorporate safety systems designed by the manufacturer to accommodate people of average physical stature and body proportion. These safety systems may place restrictions on the ability of a Guest to safely be contained within the ride restraint. Extremely large or small individuals, Guests who have heart, back or neck trouble or conditions, pregnant women, people who have had recent surgery or an illness, people with casts, braces, restrictive devices or certain disabilities may not be safely accommodated by certain ride systems. For example, height requirements are based on the size needed for safety restraints to

function properly and the level of maturity usually associated with a certain height.

If you suspect your health could be at risk for any reason, or you could aggravate a pre-existing condition of any kind, **DO NOT RIDE**. The specific features, rider requirements and health restrictions of each ride are described later in this Guide.

In order to ride, all Guests must be able to maintain the proper riding position, meet the ride requirements and appropriately utilize the restraint systems, including lap bars, shoulder harnesses and seatbelts as indicated. All Guests must also be able to demonstrate a willingness and ability to comply with verbal and written rider requirements.

Six Flags reserves the right to make the final determination regarding eligibility of a Guest to ride a particular ride based on the Guest's size, weight, height or other limitations. Information in this Guide is subject to change.

RIDER RESPONSIBILITY:

All Guests have a duty to exercise good judgment and act in a responsible manner while participating on a ride or attraction and to obey all verbal and written warnings and instructions. Guests also have a duty to properly use all ride and attraction safety equipment provided.

PARKING:

Accessible parking is available on a first-come, first-serve basis within the main parking lots of the park. When you arrive at the parking toll booths, ask a Team Member for instructions regarding where to proceed to the accessible parking lot. Both auto and van accessible spaces are provided. A valid disabled persons parking placard or license plate must be displayed at all times while parked in the designated accessible parking area. If the designated accessible parking area is full at the time of your arrival, members of your party may be dropped off at the main pick-up/drop-off area, near the main entrance to the park. Please ask a Team Member for directions to additional parking areas.

WHEELCHAIRS AND ELECTRIC CONVENIENCE VEHICLES (ECV'S):

Wheelchairs and electric convenience vehicles (ECV's) are available for rent at behind Guest Relations. A deposit is also required.

Guests may also use their own wheelchairs or ECV's. Battery recharging is also available at Guest Relations. Guests using wheelchairs or ECV's may utilize any ticket window and designated turnstiles to enter the park. Many of the park's shopping and dining facilities are also wheelchair accessible. Many of the rides and attractions have queues that are accessible to Guests using manual wheelchairs. If an alternate entrance is required, these entrances are generally at the ride exit and are identified by a sign with the universal wheelchair symbol. Please keep in mind that there are specific boarding requirements and accommodations for those using wheelchairs at each ride or attraction.

SEGWAY:

Due to varying walkways, terrains and large crowds, we cannot permit the use of two-wheeled, self-balancing electric vehicles such as Segways. We are pleased to offer other forms of transportation, including ECV's and standard wheelchairs. Please contact Guest Relations for more information.

SERVICE ANIMALS:

Trained service animals are welcome at our Six Flags Theme Parks. Service animals are defined as dogs that are individually trained to do work or perform tasks for people with disabilities. Examples of such work or tasks include guiding people who are blind, alerting people who are deaf, pulling a wheelchair, alerting and protecting a person who is having a seizure, reminding a person with mental illness to take prescribed medications, calming a person with Post Traumatic Stress Disorder (PTSD) during an anxiety attack, or performing other duties. Service animals are working animals, not pets. The work or task a dog has been trained to provide must be directly related to the person's disability. Dogs whose sole function is to provide comfort or emotional support do not qualify as service animals. Miniature horses that have been individually trained to do or perform tasks for people with disabilities will qualify as service animals.

Service animals must be house broken and remain on a leash or harness and under the control of their handler at all times. Owners are responsible for disposing of their animal's waste. Guests whose service animal demonstrates aggressive and/or annoying actions toward a Guest or Team Member will be directed to remove the animal from the park.

Service animals are welcome in most locations of the park. Most of our rides are not equipped or designed for accessibility to service animals. Therefore, a member of your party must be available to stay with the animal while you ride.

Guests may take advantage of our Kid Swap policy for staying with their service animal. However, park Team Members will not take responsibility for, or provide care to any service animal. Refer to the section on Kid Swap for more information.

There are two Service Animal "Relief Areas" inside the park and they are both located at the back section of the park. One is located in the grassy area between Center Ring Games and Sandblaster, and the second one is directly across from Gold Rusher at the large park map sign. In addition, there is a "Relief Area" outside the park in the grassy area between passenger drop off/pick up and valet parking. Service Animal owners are responsible for disposing of their animal's waste.

Please look for this designated sign:

RESTROOMS:

Most restrooms within the park are accessible for Guests using wheelchairs. Please check the park map for locations. The park's Team Members or Guest Relations can provide location directions should you need companion restrooms during your visit.

ALTERNATE ACCESS:

Most of the park's theaters, attractions, restaurants and shops are accessible to wheelchairs. Most, if not all rides require transfer from the wheelchair to the ride seat. Special access entrances are available to accommodate Guests with mobility aides and service animals. These special entrances are generally at the ride exit and are identified by a sign with the universal wheelchair symbol.

Entry, Exit and Transfer must be accomplished independently by the Guest or with the assistance of a member from his/her party. Six Flags Team Members are not trained in lifting or carrying persons with disabilities and are therefore not permitted to assist Guests on or off the rides. Not all rides have alternate access. If in doubt, please contact the Ride Attendant or Guest Relations for more information.

EQUAL ACCESS PASS PROGRAM:

Our goal is to safely accommodate the needs of all Guests including individuals with disabilities by providing equal access to rides and attractions.

A disability, as defined by the Americans with Disability Act, is a:

Physical or mental impairment that substantially limits one or major life activities such as but not limited to: caring for oneself, performing manual tasks, seeing, hearing, eating, sleeping, walking, standing, lifting, bending, speaking, breathing, learning, reading, concentrating, thinking, communicating, and working.

A major life activity also includes the operation of a major bodily function, including but not limited to, functions of the immune system, normal cell growth, digestive, bowel, bladder, neurological, brain, respiratory, circulatory, endocrine, and reproductive functions.

An impairment substantially interferes with the accomplishment of a major life activity when the individual's important life activities are restricted as to the conditions, manner or duration under which they can be performed in comparison to most people.

Temporary impairments that are significant enough to substantially limit a major life activity that may qualify for coverage under the Equal Access Pass Program. Please visit The Rides Information Center to obtain an Equal Access Pass.

The Equal Access Pass Program is designed to provide an avenue for those individuals with disabilities whose disability prevents them from waiting in the queue lines to fully enjoy their experience at the Park. Specifically, the Equal Access Pass provides qualified individuals with the ability to schedule a time to return to the ride/attraction (i.e., a reservation time) that is comparable to the current queue line wait time for a given ride/attraction.

An Equal Access Pass is provided for the Guest requiring the accommodation and up to a maximum of 3 companions. Upon presentation of a valid Equal Access Pass, the Ride Attendant will document your reservation time for the ride. You may rest in a comfortable location or enjoy other attractions in the area until your reservation time has come or when the others from your party reach the boarding platform. If your party is larger than 4 Guests, the other members of your party will be required to enter the ride through the standard queue. There is only a 15 minute grace period for late arrivals.

The Guest with an Equal Access Pass must ride in order for his/her companions to utilize the Equal Access Pass Program. If the Guest with an Equal Access Pass chooses not to ride, his/her companions must wait in the standard queue.

Equal Access Passes are not designed to bypass or "skip" the standard queue and the wait will be equal to the posted wait times. Individuals found to be fraudulently using the Equal Access Pass may be subject to civil penalties.

If your disability does not restrict your ability to wait in the queue lines, an Equal Access Pass may not be appropriate. If you require an alternative accommodation, please let us know.

MEDICAL DEVICES AND MOBILITY AIDES:

For your safety and the safety of others, riders may be required to remove medical devices, half or full length orthotics, braces, crutches, canes, prosthetics and any other type of medical

assistance device that is not permanently affixed to the rider's body to prevent hazards or loss due to ride forces. These devices prevent safety restraints from working as designed, keep the rider from maintaining the proper riding posture, and present a hazard to the rider or others. If in doubt about your ability to safely experience a ride or attraction, please refer to the Rider Requirement Sign at the ride entrance. You may also consult with a Ride Attendant or Guest Relations for more information.

Please also refer to the "Ride Information" section of this Guide for specific information regarding removal of medical devices and mobility aides on a ride by ride basis. If you have any questions, please ask a Ride Attendant or visit Guest Relations.

LARGER FRAMED GUESTS:

Many rides incorporate safety systems designed by the manufacturer to accommodate people of average physical stature and body proportion. These systems may place restrictions on the ability of an individual to safely experience the ride

In order to ride, all seatbelts, lap bars, and shoulder harnesses must be positioned and fastened properly. Due to rider restraint system requirements, Guests of a larger size may not be accommodated on some rides.

KID SWAP:

The Kid Swap program is designed to accommodate groups with younger children who may not be tall enough to ride some attractions. To participate: 1) The entire party should enter the ride queue; 2) When preparing to board, tell the Ride Attendant you are using the Kid Swap program; 3) Children who are not tall enough to ride may wait at the exit with an adult from your party; 4) After the first ride is completed, the adult who waited with the child will be allowed to ride.

RIDE RATINGS AND WARNINGS:

RIDE RATINGS AND WARNINGS:
Ride warning signs can be found at the entrance of each ride to help determine the attractions that are best for Guests based upon their experience level, physical condition and abilities. Information on each ride can also be found on the Park Map and Guide.

Key to Symbols:

GENERAL INFORMATION

FRIGHT FEST:

Theatrical fog effects, areas of low lighting, loud music, sound effects, and theatrical and strobe lighting are used throughout the park during Fright Fest. This includes streets, midways, outdoor scare zones, mazes and haunted houses both indoor and outdoor, live entertainment venues and children's attractions.

Guests with respiratory sensitivities, history of seizures or epilepsy, or sensitivities to latex, loud music and sound effects are advised not to participate in these attractions. Please adhere to all posted and verbal warnings and directions.

FAMILY SERVICES/NURSING MOTHERS:

A private room for nursing mothers is available upon request. Baby changing areas and a companion restroom can be found in most restrooms. Please feel free to ask a Team Member for directions to these locations or review a park map.

HEARING DISABILITIES:

Assisted listening devices are available upon request. Please see Guest Relations for additional information.

PREGNANCY:

Guests who know or believe they may be pregnant should follow all rules, guidelines and restrictions listed for each ride. Those who are pregnant should not ride a ride that specifically lists pregnancy as a rider restriction. Please closely review all rules and guidelines at the entrance of each ride.

RESTAURANTS:

The park's restaurants offer a variety of food options. Assistance is available upon request. Exceptions are made for Guests with special dietary needs including food allergies and baby food/formula.

Guests should contact Park Security or Guest Relations upon arrival at the park for approval to bring in special dietary foods. The special dietary food containers will be marked and dated to clearly show that they have been approved for entry into the park.

FIRST AID:

Emergency Medical Technicians or Paramedics are on duty during all park operating hours. If you require medical assistance, ask any Team Member and they will summon medical personnel to your location. Please refer to your Park Map and Guide for the location of First Aid.

OXYGEN TANKS/AIR CONCENTRATORS:

Due to the dynamics and certain characteristics of the rides, oxygen tanks or portable systems are not permitted on most of our rides and attractions. Oxygen tanks are permitted in enclosed facilities. For your convenience, the park's First Aid station(s) will be able to appropriately store your additional oxygen tanks during your visit.

SPECIAL EFFECTS AT THEATERS, RIDES AND ATTRACTIONS:

Theatrical fog and other effects, including but not limited to: haze and other atmospheric effects, scents, areas of low lighting, loud music, sound effects, theatrical lighting and strobe lighting may be used at various locations in the park such as theaters and during Fright Fest. Guests with respiratory sensitivities, history of seizure or epilepsy, or sensitivities to latex, loud music and sound effects are advised not to participate in these attractions. Please adhere to all posted and verbal warnings and directions.

RIDE INFORMATION

CAMERAS:

Picture taking and the use of cameras and video recording devices is not permitted on any ride, while it is in motion. It is encouraged that Guests leave their equipment with a non-rider or secure it in a locker or their vehicle. Lockers are available to store items for a nominal fee. Guests must have written permission to use photographs and/or recordings of any aspect of the park for commercial broadcasting, advertising, marketing, or publishing in any medium.

RIDE EVACUATIONS:

If a ride evacuation is necessary, Guests may need to negotiate stairs from the highest points of the ride down steeply inclined stairs or walking surfaces. Guests requiring assistance during the ride evacuation process may be escorted last in order to expedite the ride evacuation process. Please ask a Ride Attendant about the specific procedures prior to boarding a particular ride.

Definitions: Every ride entrance lists height requirements and special instructions regarding the ride. Six Flags uses the following terms:

Responsible Person: A responsible person is someone who meets all the requirements to ride the ride themselves and is at least 54" tall or taller.

Accompanied By:

Whenever a Guest needs accompaniment, the accompanying person must meet all the ride requirements and be able to assist the Guest including helping the Guest to board and exit the ride and assisting the Guest down stairs, catwalks, or ladders in case of an evacuation.

Lap Child: A lap child is a child who is unable to walk to the ride independently or maintain independent seated postural control.

Functioning Extremity: A functioning extremity is a limb over which a person has control. A prosthetic device is not considered a functioning extremity. Six Flags has additional requirements regarding prosthetic devices. Please see the information for each specific ride in the Ride Information section of this Guide.

Ability to hold on or brace: Ability to use one's arms to maintain a grasp on an assist bar and support one's body during normal and emergency procedures on a ride and to use one's legs to brace to maintain a seated position during the ride.

Functioning Arm: is a full arm with the ability to be flexed at the elbow and a minimum of three full fingers with the ability to hold on with a firm grip.

Functioning Leg: is a leg with a foot.

Apocalypse

High speed wooden roller coaster with front to back, top to bottom and side to side forces.

Height Restriction: Riders must be at least 48" tall to ride.

Physical Requirements: Each rider must maintain in an upright seated position with their head against the headrest during the duration of the ride and their arms, hands, legs, and feet inside the ride vehicle at all times. In addition, riders must have at least one functioning arm and two functioning legs. For your safety and the safety of others, riders must remove medical devices including half or full length orthotics, braces, crutches, canes, prosthetics and any other type of medical assistance device that is not permanently affixed to the rider's body to prevent hazards or loss due to ride forces. Riders must step up and down into the ride vehicle and will need to transfer from a wheelchair to the ride vehicle.

Ride Access: Guests using a manual or electric wheelchair or an ECV should enter through the standby entrance. Prior to arriving at the boarding station, Guests needing an elevator should follow the signs to the wheelchair accessible entrance.

Batman: The Ride

High speed roller coaster with front to back, top to bottom and side to side forces.

Height Restriction: Riders must be at least 54" tall to ride.

Physical Requirements: Each rider must maintain in an upright seated position with their head against the headrest during the duration of the ride and their arms, hands, legs, and feet inside the ride vehicle at all times. In addition, riders with one amputated foot or two amputated feet (amputation below the knee) may ride provided the rider has ability to hold on with two functioning hands. Riders with one missing arm or hand may ride, provided rider has ability to hold on with one functioning hand and brace themselves with two functioning legs. Riders must have control of their leg(s). Riders with arm or leg casts shall not ride. For your safety and the safety of others, riders must remove medical devices including half or full length orthotics, braces, crutches, canes, prosthetics and any other type of medical assistance device that is not permanently affixed to the rider's body to prevent hazards or loss due to ride forces. Riders using a wheelchair must transfer from the wheelchair onto the ride.

Ride Access: Guests using a manual or electric wheelchair or an ECV should enter through the standby entrance and follow the signs to the elevator.

Buccaneer

A moderate ride with an oscillating up and down motion.

Height Restriction: Riders must be at least 42" tall to ride alone. Riders under 42" must ride with an adult. No lap children.

Physical Requirements: Each rider must maintain in an upright seated position with their head against the headrest during the duration of the ride and their arms, hands, legs, and feet inside the ride vehicle at all times. Riders must possess one functioning arm and two functioning legs. Riders must be accommodated by the restraint and must have the ability to maintain normal riding position. Riders must step up and down into the ride vehicle and will need to transfer from a wheelchair to the ride vehicle.

Ride Access: Guests using a manual or electric wheelchair or an ECV should enter to the left of the standby entrance. A ramp is available to the right of the stairs.

Canyon Blaster

An exciting children's ride with turns and drops.

Height Restriction: Riders must be at least 33" tall to ride. Riders between 33"-36" must ride with an adult. Riders over 36" may ride alone. No lap children.

Physical Requirements: Each rider must maintain in an upright seated position with their head against the headrest during the duration of the ride and their arms, hands, legs, and feet inside the ride vehicle at all times. Riders must have at least three functioning appendages - one functioning arm and two functioning legs or one functioning leg and two functioning arms. Riders must step up and down into the ride vehicle and will need to transfer from a wheelchair to the ride vehicle.

Ride Access: Guests using a manual or electric wheelchair or an ECV should enter through the exit.

Colossus

An exciting coaster with high speed turns and steep drops and sudden stops.

Height Restriction: Riders must be at least 48" tall to ride.

Physical Requirements: Each rider must maintain in an upright seated position with their head against the headrest during the duration of the ride and their arms, hands, legs, and feet inside the ride vehicle at all times. Riders must have at least one functioning arm and two functioning legs. For your safety and the safety of others, riders must remove medical devices including half or full length orthotics, braces, crutches, canes, prosthetics and any other type of medical assistance device that is not permanently affixed to the rider's body to prevent hazards or loss due to ride forces. Riders must step up and down into the ride vehicle and will need to transfer from a wheelchair to the ride vehicle.

Ride Access: Guests using a manual or electric wheelchair or an ECV should enter through the standby entrance and follow the signs to the boarding area.

Cyclone 500

A driving ride with high speeds and fast turns.

Height Restriction: Must be at least 58" tall to drive alone. Passengers must be at least 40" to ride and be driven by a driver 18 years or older.

Physical Requirements: Each rider must maintain in an upright seated position with their head against the headrest during the duration of the ride and their arms, hands, legs, and feet inside the ride vehicle at all times. Riders must have two functioning arms and two functioning legs. Drivers must have the ability to hold and turn the steering wheel and depress the foot pedal. Passengers must have the ability to brace themselves. Riders must step up and down into the ride vehicle and will need to transfer from a wheelchair to the ride vehicle.

Ride Access: Guests using a manual or electric wheelchair or an ECV should proceed to the exit and wait for a Team Member to open the exit gate prior to entering the attraction.

(A fee is required for Cyclone 500. Please visit the ticket booth at Dive Devil for pricing options.)

Daffy's Adventure Tour

A slow moving circular ride that has some elevation.

Height Restriction: Riders must be at least 36" tall to ride alone. Riders under 36" must ride with an adult. No lap children.

Physical Requirements: Each rider must maintain in an upright seated position with their back against the seatback during the duration of the ride and their arms, hands, legs, and feet inside the ride vehicle at all times. Riders must have one functioning arm and one functioning leg. No leg casts. Riders must step up and down into the ride vehicle and will need to transfer from a wheelchair to the ride vehicle.

Ride Access: Guests using a manual or electric wheelchair or an ECV should enter through the exit.

Dive Devil

An exciting attraction with a sudden drop and swinging back and forth motion.

Height Restriction: Riders must be at least 48” tall to fly.

Physical Requirements: Riders must have two functioning arms and one functioning leg. Riders must be willing and have the ability to grasp and hold onto the landing loop with both hands during the landing process. Those using a wheelchair must transfer from the wheelchair onto the ride.

Ride Access: Guests using a manual or electric wheelchair or an ECV should enter through the standby entrance.

(A fee is required for Dive Devil. Tickets are available for purchase at the Dive Devil entrance.)

Elmer Fudd’s Weather Balloons

A gentle circular ride with some elevation.

Height Restriction: Riders must be at least 42” tall to ride alone. Riders under 42” must ride with an adult. No lap children. Weight limit of 400 lbs. per gondola.

Physical Requirements: Each rider must maintain in an upright seated position with their back against the seatback during the duration of the ride and their arms, hands, legs, and feet inside the ride vehicle at all times. Riders must have one functioning arm and one functioning leg. Riders must step up and down into the ride vehicle and will need to transfer from a wheelchair to the ride vehicle.

Ride Access: Guests using a manual or electric wheelchair or an ECV should enter through the exit.

The Flash: Speed Force

A moderate circular ride that has elevation and lift.

Height Restriction: Riders must be at least 42” tall to ride.

Physical Requirements: Each rider must maintain in an upright seated position with their back against the seatback during the duration of the ride and their arms, hands, legs, and feet inside the ride vehicle at all times. Riders must have one functioning arm and one functioning leg. No leg casts. Riders must step up and down into the ride vehicle and will need to transfer from a wheelchair to the ride vehicle.

Ride Access: Guests using a manual or electric wheelchair or an ECV should enter through the standby entrance. (A ramp is available for access through the entrance.)

Foghorn Railway

A gentle children’s ride around a track with gentle turns.

Height Restriction: Riders must be at least 36” tall to ride alone. Riders under 36” must ride with an adult. No lap children.

Physical Requirements: Each rider must maintain in an upright seated position with their back against the seatback during the duration of the ride and their arms, hands, legs, and feet inside the ride vehicle at all times. Riders must have one functioning arm and one functioning leg. Riders must step up and down into the ride vehicle and will need to transfer from a wheelchair to the ride vehicle.

Ride Access: Guests using a manual or electric wheelchair or an ECV should enter through the exit.

Full Throttle

An intense roller coaster with quick acceleration, high speed, steep drops, fast turns and inversions. This attraction features intense audio, fog, lighting and strobe effects.

Height Restriction: Riders must be at least 54” tall to ride.

Physical Requirements: Each rider must maintain in an upright seated position with their head against the headrest during the duration of the ride and their arms, hands, legs, and feet inside the ride vehicle at all times. Riders must have two functioning legs and two functioning arms. Riders must have full upper and full lower

body control. For your safety and the safety of others, riders must remove medical devices including half or full length orthotics, braces, crutches, canes, prosthetics and any other type of medical assistance device that is not permanently affixed to the rider's body to prevent hazards or loss due to ride forces. Guests with Diabetes should not ride. Riders must step up and down into the ride vehicle and will need to transfer from a wheelchair to the ride vehicle.

Ride Access: Guests using a manual or electric wheelchair or an ECV should enter through the standby entrance.

Goliath

An exciting coaster with high speed turns and steep drops and sudden stops.

Height Restriction: Riders must be at least 48" tall to ride.

Physical Requirements: Each rider must maintain in an upright seated position with their head against the headrest during the duration of the ride and their arms, hands, legs, and feet inside the ride vehicle at all times. Riders must have two functioning legs and one functioning arm. For your safety and the safety of others, riders must remove medical devices including half or full length orthotics, braces, crutches, canes, prosthetics and any other type of medical assistance device that is not permanently affixed to the rider's body to prevent hazards or loss due to ride forces. Riders must step up and down into the ride vehicle and will need to transfer from a wheelchair to the ride vehicle.

Ride Access: Guests using a manual or electric wheelchair or an ECV should enter through the standby entrance and follow the signs to the elevator.

Gold Rusher

An exciting coaster with high speed turns and steep drops and sudden stops.

Height Restriction: Riders must be at least 48" tall to ride.

Physical Requirements: Each rider must maintain in an upright seated position with their back against the seatback during the duration of the ride and their arms, hands, legs, and feet inside the

ride vehicle at all times. Riders must have at least three functioning appendages - one functioning arm and two functioning legs or one functioning leg and two functioning arms. Riders must step up and down into the ride vehicle and will need to transfer from a wheelchair to the ride vehicle.

Ride Access: Guests using a manual or electric wheelchair or an ECV should enter through the standby entrance. (A ramp is available for access through the entrance.)

Grand Carousel

A gentle circular ride with both stationary and up/down moving horses.

Height Restriction: Riders must be at least 42" to ride alone. Riders under 42" must ride with an adult.

Physical Requirements: Each rider must be able to remain sitting up straight, keeping their head upright. Riders must have at least one functioning arm, one functioning leg, and one leg to the knee to utilize a horse. Riders using a wheelchair must transfer from the wheelchair onto the ride.

Ride Access: Guests using a manual or electric wheelchair or an ECV should enter through the exit.

Green Lantern: First Flight

An exciting coaster with high speed, steep drops, fast turns, spinning action and sudden stops.

Height Restriction: Riders must be at least 52" tall to ride. Maximum height is 77".

Physical Requirements: Each rider must maintain in an upright seated position with their head against the headrest during the duration of the ride and their arms, hands, legs, and feet inside the ride vehicle at all times. Riders must have two functioning arms and two legs to the knees. Riders must be able to hold on to the grab bar at all times. Riders must have full control of their legs. For your safety and the safety of others, riders must remove medical devices including half or full length orthotics, braces, crutches, canes, prosthetics and any other type of medical assistance device that is

not permanently affixed to the rider's body to prevent hazards or loss due to ride forces. Riders using a wheelchair must transfer from the wheelchair onto the ride.

Ride Access: Guests using a manual or electric wheelchair or an ECV should enter through the standby entrance and proceed to the elevator.

Jet Stream

A family raft ride with turns, drops and splashes.

Height Restriction: Riders must be at least 42" to ride alone. Riders under 42" must ride with an adult. Personal flotation devices may be requested prior to boarding the ride. Please see the ride attendant for more information.

Physical Requirements: Each rider must maintain in an upright seated position during the duration of the ride and their arms, hands, legs, and feet inside the ride vehicle at all times. Riders must have at least one functioning arm and one functioning leg. Riders must step up and down into the ride vehicle and will need to transfer from a wheelchair to the ride vehicle.

Ride Access: Guests using a manual or electric wheelchair or an ECV should enter through the exit.

Lex Luthor: Drop of Doom

An exciting ride with a sudden drop.

Height Restriction: Riders must be 48" tall to ride.

Physical Requirements: Each rider must maintain in an upright seated position with their head against the headrest during the duration of the ride and their arms, hands, legs, and feet inside the ride vehicle at all times. Riders must have one functioning arm and one functioning leg. Riders must have control of their leg(s). For your safety and the safety of others, riders must remove medical devices including half or full length orthotics, braces, crutches, canes, prosthetics and any other type of medical assistance device that is not permanently affixed to the rider's body to prevent hazards or loss due to ride forces. Riders using a wheelchair must transfer from the wheelchair onto the ride.

Ride Access: Guests using a manual or electric wheelchair or an ECV should enter through the standby entrance.

Looney Tunes Lodge

A soft children's play area.

Height Restriction: Must be under 54" tall or accompanied by a child under 54" tall.

Physical Requirements: None

Ride Access: Guests using a manual or electric wheelchair or an ECV should enter through the standby entrance.

Magic Flyer

An exciting children's ride with turns and drops.

Height Restriction: Riders must be under 54" tall to ride. No lap children.

Physical Requirements: Each rider must maintain in an upright seated position with their back against the seatback during the duration of the ride and their arms, hands, legs, and feet inside the ride vehicle at all times. Riders must have at least three functioning appendages - one functioning arm and two functioning legs or one functioning leg and two functioning arms. Riders must step up and down into the ride vehicle and will need to transfer from a wheelchair to the ride vehicle.

Ride Access: Guests using a manual or electric wheelchair or an ECV should enter through the exit.

Merrie Melodies Carousel

A gentle circular ride with both up/down moving horses and stationary chariots.

Height Restriction: Riders must be at least 36" tall to ride. Riders under 36" must ride with an adult.

Physical Requirements: Each rider must be able to remain sitting up straight, keeping their head upright. Riders must have at least one

functioning arm, one functioning leg, and one leg to the knee to utilize a horse. Riders using a wheelchair must transfer from the wheelchair onto the ride.

Ride Access: Guests using a manual or electric wheelchair or an ECV should enter through the exit.

Ninja

An exciting ride with high speeds, steep drops, fast turns and sudden stops.

Height Restriction: Riders must be at least 42” tall to ride.

Physical Requirements: Each rider must maintain in an upright seated position with their head against the headrest during the duration of the ride and their arms, hands, legs, and feet inside the ride vehicle at all times. Riders must have at least one functioning arm and one functioning leg. Riders must step up and down into the ride vehicle and will need to transfer from a wheelchair to the ride vehicle.

Ride Access: Guests using a manual or electric wheelchair or an ECV should enter through the exit.

Orient Express

A slow moving cable car ride on rails up or down a steep hillside.

Height Restriction: None.

Physical Requirements: None.

Ride Access: Guests using a manual or electric wheelchair or an ECV should follow the signs to the ramp access.

Pepe Le Pew Tea Party

An exciting children’s ride with spinning action.

Height Restriction: Riders must be at least 42” tall to ride. Maximum height is 59”. No lap children.

Physical Requirements: Each rider must maintain in an upright seated position with their back against the seatback during the duration of the ride and their arms, hands, legs, and feet inside the ride vehicle at all times. Riders must have one functioning arm and one functioning leg. Riders must step up and down into the ride vehicle and will need to transfer from a wheelchair to the ride vehicle.

Ride Access: Guests using a manual or electric wheelchair or an ECV should enter through the exit.

Revolution

An exciting coaster with high speed turns and steep drops and sudden turns.

Height Restriction: Riders must be at least 48” tall to ride.
