

SAFETY & ACCESSIBILITY GUIDE

FOR MORE INFORMATION PLEASE VISIT GUEST RELATIONS

INTRODUCTION:

We are thrilled you have chosen to spend your day at Six Flags! Our goal is to make your visit fun and memorable. This Six Flags Guest Safety and Accessibility Guide includes important information to assist Guests with planning their visit to the park and enjoy its various attractions, rides, services and amenities. In this Guide, Guests will find specific information for individuals with disabilities along with general policies and guidelines.

We work closely with the manufacturer of each of our rides and our policies incorporate the manufacturers' guidelines as well as the requirements of the Americans With Disabilities Act. We hope that this Guide will help Guests make the best choices to ensure a safe, comfortable and convenient experience at the park. If, at any time, Guests need additional assistance or a further explanation of our policies and guidelines, they should feel free to ask any Six Flags Team Member.

Our goal is to safely and efficiently accommodate the needs of all Guests, including individuals with disabilities. This Guide, along with the availability of our Team Members to answer any questions and offer assistance, will allow Guests to have a thrilling and safe day at the park.

GENERAL WARNING:

We are committed to providing you a safe environment during your visit to Six Flags. While there are inherent risks to participating in any amusement park ride or attraction, our goal is to ensure your safety with the incorporation of some restrictions. For your safety, you should be in good health to ride. Only you know your physical conditions or limitations.

Many amusement park rides incorporate safety systems designed by the manufacturer to accommodate people of average physical stature and body proportion. These safety systems may place restrictions on the ability of a Guest to safely be contained within the ride restraint. Extremely large or small individuals, Guests who have heart, back or neck trouble or conditions, pregnant women, people who have had recent surgery or an illness, people with casts, braces, restrictive devices or certain disabilities may not be safely accommodated by certain ride systems. For example, height requirements are based on the size needed for safety restraints to function properly and the level of maturity usually associated with a certain height.

If you suspect your health could be at risk for any reason, or you could aggravate a pre-existing condition of any kind, **DO NOT RIDE**. The specific features, rider requirements and health restrictions of each ride are described later in this Guide.

In order to ride, all Guests must be able to maintain the proper riding position, meet the ride requirements and appropriately utilize the restraint systems, including lap bars, shoulder harnesses and seatbelts as indicated. All Guests must also be able to demonstrate a willingness and ability to comply with verbal and written rider requirements.

Six Flags reserves the right to make the final determination regarding eligibility of a Guest to ride a particular ride based on the Guest's size, weight, height or other limitations. Information in this Guide is subject to change.

RIDER RESPONSIBILITY:

All Guests have a duty to exercise good judgment and act in a responsible manner while participating on a ride or attraction and to obey all verbal and written warnings and instructions. Guests also have a duty to properly use all ride and attraction safety equipment provided.

PARKING:

Accessible parking is available on a first-come, first-serve basis within the main parking lots of the park. When you arrive at the parking toll booths, ask a Team Member for instructions regarding where to proceed to the accessible parking lot. Both auto and van accessible spaces are provided. A valid disabled persons parking placard or license plate must be displayed at all times while parked in the designated accessible parking area. If the designated accessible parking area is full at the time of your arrival, members of your party may be dropped off at the main pick-up/drop-off area, near the main entrance to the park. Please ask a Team Member for directions to additional parking areas.

WHEELCHAIRS AND ELECTRIC CONVENIENCE VEHICLES (ECV'S):

Wheelchairs and electric convenience vehicles (ECV's) are available for rent at the Rental Center, located next to the lockers. A deposit is also required.

Guests may also use their own wheelchairs or ECV's. If you need to take the rented wheelchair or ECV outside of the park, a Team Member escort is necessary to do so. Please ask for assistance at the park Exit. Battery recharging is also available at the Rental Center.

Guests using wheelchairs or ECV's may utilize any ticket window and designated turnstiles to enter the park. Many of the park's shopping and dining facilities are also wheelchair accessible. Many of the rides and attractions have queues that are accessible to Guests using manual wheelchairs. If an alternate entrance is required, these entrances are generally at the ride exit and are identified by a sign with the universal wheelchair symbol. Please keep in mind that there are specific boarding requirements and accommodations for those using wheelchairs at each ride or attraction.

SEGWAY:

Due to varying walkways, terrains and large crowds, we cannot permit the use of two-wheeled, self-balancing electric vehicles such as Segways. We are pleased to offer other forms of transportation, including ECV's and standard wheelchairs. Please contact Guest Relations for more information.

SERVICE ANIMALS:

Trained service animals are welcome at our Six Flags Theme Parks. Service animals are defined as dogs that are individually trained to do work or perform tasks for people with disabilities. Examples of such work or tasks include guiding people who are blind, alerting people who are deaf, pulling a wheelchair, alerting and protecting a person who is having a seizure, reminding a person with mental illness to take prescribed medications, calming a person with Post Traumatic Stress Disorder (PTSD) during an anxiety attack, or performing other duties. Service animals are working animals, not pets. The work or task a dog has been trained to provide must be directly related to the person's disability. Dogs whose sole function is to provide comfort or emotional support do not qualify as service animals. Miniature horses that have

been individually trained to do or perform tasks for people with disabilities will qualify as service animals.

Service animals must be house broken and remain on a leash or harness and under the control of their handler at all times. Guests whose service animal demonstrates aggressive and/or annoying actions toward a Guest or Team Member will be directed to remove the animal from the park.

Service animals are welcome in most locations of the park. Most of our rides are not equipped or designed for accessibility to service animals. Therefore, a member of your party must be available to stay with the animal while you ride.

Guests may take advantage of our Kid Swap policy for staying with their service animal. However, park Team Members will not take responsibility for, or provide care to any service animal. Refer to the section on Kid Swap for more information.

RESTROOMS:

Most restrooms within the park are accessible for Guests using wheelchairs. Please check the park map for locations.

ALTERNATE ACCESS:

Most of the park's theaters, attractions, restaurants and shops are accessible to wheelchairs. Most, if not all rides require transfer from the wheelchair to the ride seat. Special access entrances are available to accommodate Guests with mobility aides and service animals. These special entrances are generally at the ride exit and are identified by a sign with the universal wheelchair symbol.

If you require the use of alternate access to enter a ride, please visit Guest Relations to obtain a Rider Access Pass. Alternate access is available for the Guest requiring the alternate access and up to a maximum of 3 companions. Upon presentation of a valid Rider Access Pass, the Ride Attendant will document your reservation time for the ride. You may rest in a comfortable location or enjoy other attractions in the area until your reservation time has come or when the others from your party reach the boarding platform. If your party is larger than 4 Guests, the other members of your party will be required to enter the ride through the standard queue. We have a 15 minute grace period for late arrivals. Alternate access is intended to accommodate Guests with mobility aides and service animals and not to bypass others waiting in line.

The Guest with a Rider Access Pass must ride in order for his/her companions to utilize the alternate access. If the Guest with a Rider Access Pass chooses not to ride, his/her companions must wait in the standard queue.

Entry, Exit and Transfer must be accomplished independently by the Guest or with the assistance of a member from his/her party. Six Flags Team Members are not trained in lifting or carrying persons with disabilities and are therefore not permitted to assist Guests on or off the rides. Not all rides have alternate access. If in doubt, please contact the Ride Attendant or Guest Relations for more information.

MEDICAL DEVICES AND MOBILITY AIDES:

For your safety and the safety of others, riders may be required to remove medical devices, half or full length orthotics, braces, crutches, canes, prosthetics and any other type of medical assistance device that is not permanently affixed to the rider's body to prevent hazards or loss due to ride forces. These devices prevent safety restraints from working as designed, keep the rider from maintaining the proper riding posture, and present a hazard to the rider or others. If in doubt about your ability to safely experience a ride or attraction, please refer to the Rider Requirement Sign at the ride entrance. You may also consult with a Ride Attendant or Guest Relations for more information.

Please also refer to the "Ride Information" section of this Guide for specific information regarding removal of medical devices and mobility aides on a ride by ride basis. If you have any questions, please ask a Ride Attendant or visit Guest Relations.

LARGER FRAMED GUESTS:

Many rides incorporate safety systems designed by the manufacturer to accommodate people of average physical stature and body proportion. These systems may place restrictions on the ability of an individual to safely experience the ride

In order to ride, all seatbelts, lap bars, and shoulder harnesses must be positioned and fastened properly. Due to rider restraint system requirements, Guests of a larger size may not be accommodated on some rides.

KID SWAP:

The Kid Swap program is designed to accommodate groups with younger children who may not be tall enough to ride some attractions. To participate: 1) The entire party should enter the ride queue; 2) When preparing to board, tell the Ride Attendant you are using the Kid Swap program; 3) Children who are not tall enough to ride may wait at the exit with an adult from your party; 4) After the first ride is completed, the adult who waited with the child will be allowed to ride.

RIDE RATINGS AND WARNINGS:

Ride warning signs can be found at the entrance of each ride to help determine the attractions that are best for Guests based upon their experience level, physical condition and abilities. Information on each ride can also be found on the Park Map and Guide.

GENERAL INFORMATION

FRIGHT FEST:

Theatrical fog effects, areas of low lighting, loud music, sound effects, and theatrical and strobe lighting are used throughout the park during Fright Fest. This includes streets, midways, outdoor scare zones, mazes and haunted houses both indoor and outdoor, live entertainment venues and children's attractions.

Guests with respiratory sensitivities, history of seizures or epilepsy, or sensitivities to latex, loud music and sound effects are advised not to participate in these attractions. Please adhere to all posted and verbal warnings and directions.

FAMILY SERVICES/NURSING MOTHERS:

A private area for nursing mothers is available upon request at Lost Parents in Looney Tunes USA. Baby changing areas can be found in most restrooms. Please feel free to ask a Team Member for directions to these locations or review a park map.

HEARING DISABILITIES:

Assisted listening devices are available upon request. Please see Guest Relations for additional information.

PREGNANCY:

Guests who know or believe they may be pregnant should follow all rules, guidelines and restrictions listed for each ride. Those who are pregnant should not ride a ride that specifically lists pregnancy as a rider restriction. Please closely review all rules and guidelines at the entrance of each ride.

RESTAURANTS:

The park's restaurants offer a variety of food options. Assistance is available upon request. Exceptions are made for Guests with special dietary needs including food allergies and baby food/formula.

Guests should contact Park Security or Guest Relations upon arrival at the park for approval to bring in special dietary foods. The special

dietary food containers will be marked and dated to clearly show that they have been approved for entry into the park.

FIRST AID:

Emergency Medical Technicians or Paramedics are on duty during all park operating hours. If you require medical assistance, ask any Team Member and they will summon medical personnel to your location. Please refer to your Park Map and Guide for the location of First Aid.

OXYGEN TANKS/AIR CONCENTRATORS:

Due to the dynamics and certain characteristics of the rides, oxygen tanks or portable systems are not permitted on most of our rides and attractions. Oxygen tanks are permitted in enclosed facilities. For your convenience, the park's First Aid station(s) will be able to appropriately store your additional oxygen tanks during your visit.

SPECIAL EFFECTS AT THEATERS, RIDES AND ATTRACTIONS:

Theatrical fog and other effects, including but not limited to: haze and other atmospheric effects, scents, areas of low lighting, loud music, sound effects, theatrical lighting and strobe lighting may be used at various locations in the park such as theaters and during Fright Fest. Guests with respiratory sensitivities, history of seizure or epilepsy, or sensitivities to latex, loud music and sound effects are advised not to participate in these attractions. Please adhere to all posted and verbal warnings and directions.

RIDE INFORMATION

CAMERAS:

Picture taking and the use of cameras and video recording devices is not permitted on any ride, while it is in motion. It is encouraged that Guests leave their equipment with a non-rider or secure it in a locker or their vehicle. Lockers are available to store items for a nominal fee. Guests must have written permission to use photographs and/or recordings of any aspect of the park for commercial broadcasting, advertising, marketing, or publishing in any medium.

RIDE EVACUATIONS:

If a ride evacuation is necessary, Guests may need to negotiate stairs from the highest points of the ride down steeply inclined stairs or walking surfaces. Guests requiring assistance during the ride evacuation may be escorted last in order to expedite the ride evacuation process. Please ask a Ride Attendant about the specific procedures prior to boarding a particular ride.

Definitions: Every ride entrance lists height requirements and special instructions regarding the ride. Six Flags uses the following terms:

Responsible Person: A responsible person is someone who meets all the requirements to ride the ride themselves and is at least 54" tall or taller.

Accompanied By: Whenever a Guest needs accompaniment, the accompanying person must meet all the ride requirements and be able to assist the Guest including helping the Guest to board and exit the ride and assisting the Guest down stairs, catwalks, or ladders in case of an evacuation.

Lap Child: A lap child is a child who is unable to walk to the ride independently or maintain independent seated postural control.

Functioning Extremity: A functioning extremity is a limb over which a person has control. A prosthetic device is not considered a functioning extremity. Six Flags has additional requirements regarding prosthetic devices. Please see the section on Prosthetics in this Guide.

Ability to hold on or brace: Ability to use one's arms to maintain a grasp on an assist bar and support one's body during normal and emergency procedures on a ride and to use one's legs to brace to maintain a seated position during the ride.

Functioning Arm is a full arm with the ability to be flexed at the elbow and a minimum of three full fingers with the ability to hold on with a firm grip. Functioning leg is a leg with a foot.

ACME Rock-n-Rocket (Looping Rocket)

A moderate ride with heavy side to side and front to back motion.

Height Restriction: Riders must be at least 48 inches tall to ride.

Physical Requirements: Do not ride if you have any of the following conditions: recent surgery or illness, heart conditions, neck, back, or bone ailments, pregnancy, high blood pressure or aneurysms, or are under the influence of drugs or alcohol. All passenger restraints, including lap bars, shoulder harnesses and seatbelts, must be fastened properly to allow guest to ride. Due to the restraints some large guests may not be able to ride. Guests with arm casts must be seated with the cast toward the outside of the ride. All riders must be able to sit properly (facing forward, sitting upright, flat in the seat with their arms and legs inside the ride), use all restraining devices, and stabilize themselves throughout the entire ride cycle in order to ride.

Extremity Requirements: Riders must have at least one (1) natural functioning arm with a natural functioning hand capable of grasping and at least one (1) natural functioning leg with a natural foot in order to ride.

Ride Access: Guests using a wheelchair or ECV should enter through the exit.

Aquaman Splashdown (Boat Splash)

An exciting family boat ride with turns, drop and splashes.

Height Restriction: Riders must be at least 36 inches tall to ride. An adult must accompany Guests between 36 and 42 inches tall.

Physical Requirements: Do not ride if you have any of the following conditions: recent surgery or illness, heart conditions, neck, back, or bone ailments, pregnancy, high blood pressure or aneurysms, or are under the influence of drugs or alcohol. All passenger restraints, including lap bars, shoulder harnesses and seatbelts, must be fastened properly to allow guest to ride. Due to the restraints some large guests may not be able to ride. No lap children. Guests with arm casts must be seated with the cast toward the outside of the ride. You will get wet, possibly soaked, on this ride. Personal Floating Devices available upon request. All riders must be able to sit properly (facing forward, sitting upright, flat in the seat with their arms and legs inside the ride), use all restraining devices, and stabilize themselves throughout the entire ride cycle in order to ride.

Extremity Requirement: Riders must have at least one (1) natural functioning arm with a natural functioning hand capable of grasping and at least one (1) natural functioning leg with a natural foot in order to ride.

Ride Access: Guests using a wheelchair or ECV should enter through The Flash Pass entrance located between the ride exit and the main entrance of Pandemonium.

Batman – The Ride (Inverted Looping Coaster)

An exciting roller coaster with high speeds, drops, fast turns, and loops.

Height Restriction: Riders must be at least 54 inches tall to ride.

Physical Requirements: Do not ride if you have any of the following conditions: recent surgery or illness, heart conditions, neck, back, or bone ailments, pregnancy, high blood pressure or aneurysms, or are under the influence of drugs or alcohol. All passenger restraints, including shoulder harnesses and seatbelts, must be fastened properly to allow guest to ride. Due to the restraints some large guests may not be able to ride. Stay seated, face forward, keep head arms, and legs inside ride at all times. Riders with arm or leg cast shall not ride. All riders must be able to sit properly (facing forward, sitting upright, flat in the seat with their arms and legs inside the ride), use all restraining devices, and stabilize themselves throughout the entire ride cycle in order to ride. Riders who do not fit the restraint system are not allowed to ride. A rider fits the restraint if the third “click” of the restraint mechanism and the safety belt can be engaged.

Extremity Requirement: No arm or leg casts. No prosthetic devices. Riders must have two (2) natural functioning arms with two (2) natural functioning hands capable of grasping, and at least two (2) natural legs with lower extremities to the knee on both legs. A rider with one (1) missing arm or hand may ride, provided such rider has the ability to hold on with one (1) natural functioning hand capable of grasping and bracing himself/herself with two (2) natural functioning legs.

Ride Access: Guests using a wheelchair or ECV should enter through the main entrance. When you arrive in the building, an elevator will be on your right to take you to the Boarding Area.

Batwing (Family Circular Ride)

A gentle ride with a circulating, up and down motion.

Height Restriction: Riders under 48 inches tall must be accompanied by an adult.

Physical Requirements: Do not ride if you have any of the following conditions: recent surgery or illness, heart conditions, neck, back, or bone ailments, pregnancy, high blood pressure or aneurysms, or are under the influence of drugs or alcohol. All passenger restraints, including seatbelts, must be fastened properly to allow guest to ride. Due to the restraints some large guests may not be able to ride. No lap children. Guests with arm casts must be seated with the cast toward the outside of the ride. All riders must be able to sit properly (facing forward, sitting upright, flat in the seat with their arms and legs inside the ride), use all restraining devices, and stabilize themselves throughout the entire ride cycle in order to ride.

Extremity Requirement: Riders must have at least one (1) natural functioning arm with a natural functioning hand capable of grasping and at least one (1) natural functioning leg with a natural foot in order to ride.

Ride Access: Guests using a wheelchair or ECV should enter through the main entrance.

Boot Scootin' (Family Circular Ride)

A gentle ride with a circulating, up and down motion.

Height Restriction: Riders under 36 inches tall must be accompanied by an adult.

Physical Requirements: Do not ride if you have any of the following conditions: recent surgery or illness, heart conditions, neck, back, or bone ailments, pregnancy, high blood pressure or aneurysms, or are under the influence of drugs or alcohol. All passenger restraints, including seatbelts, must be fastened properly to allow guest to ride. Due to the restraints some large guests may not be able to ride. No lap children. Guests with arm casts must be seated with the cast toward the outside of the ride. All riders must be able to sit properly (facing forward, sitting upright, flat in the seat with their arms and legs inside the ride), use all restraining devices, and stabilize themselves throughout the entire ride cycle in order to ride.

Extremity Requirement: Riders must have at least one (1) natural functioning arm with a natural functioning hand capable of grasping and at least one (1) natural functioning leg with a natural foot in order to ride.

Ride Access: Guests using a wheelchair or ECV should enter through the main entrance.

Bugs Bunny's Spirit of St. Louie

(Children's Airplane Ride)

A gentle circular ride with some elevation.

Height Restriction: Guests must be under 54 inches tall.

Physical Requirements: Do not ride if you have any of the following conditions: recent surgery or illness, heart conditions, neck, back, or bone ailments, pregnancy, high blood pressure or aneurysms, or are under the influence of drugs or alcohol. All passenger restraints, including seatbelts, must be fastened properly to allow Guest to ride. Due to the restraints some large guests may not be able to ride. No lap children. All riders must be able to sit properly (facing forward, sitting upright, flat in the seat with their arms and legs inside the ride), use all restraining devices, and stabilize themselves throughout the entire ride cycle in order to ride.

Extremity Requirement: Riders must have at least one (1) natural functioning arm with a natural functioning hand capable of grasping and at least one (1) natural functioning leg with a natural foot in order to ride.

Ride Access: Guests using a wheelchair or ECV should enter through the main entrance.

Caddo Lake Barge (Family Spinning Ride)

A mild family ride with circulating and spinning motions.

Height Restriction: Riders under 42 inches tall must be accompanied by an adult.

Physical Requirements: Do not ride if you have any of the following conditions: recent surgery or illness, heart conditions, neck, back, or bone ailments, pregnancy, high blood pressure or aneurysms, or are under the influence of drugs or alcohol. All passenger restraints, including seatbelts, must be fastened properly to allow guest to ride. Due to the restraints some large guests may not be able to ride. No lap children. Guests with arm casts must be seated with the cast toward the outside of the ride. All riders must be able to sit properly (facing forward, sitting upright, flat in the seat with their arms and legs inside the ride), use all restraining devices, and stabilize themselves throughout the entire ride cycle in order to ride.

Extremity Requirement: Riders must have at least one (1) natural functioning arm with a natural functioning hand capable of grasping and at least one (1) natural functioning leg with a natural foot in order to ride.

Ride Access: Guests using a wheelchair or ECV should enter through the main entrance.

Chaparral Antique Cars (Family Car Ride)

Low speed, forward motion, antique car simulation. Minor bumping may occur.

Height Restriction: Riders under 42 inches tall must be accompanied by an adult.

Physical Requirements: Do not ride if you have any of the following conditions: recent surgery or illness, heart conditions, neck, back, or bone ailments, pregnancy, high blood pressure or aneurysms, or are under the influence of drugs or alcohol. No lap children. Guests with arm casts must be seated with the cast toward the outside of the ride. All riders must be able to sit properly (facing forward, sitting upright, flat in the seat with their arms and legs inside the ride), and stabilize themselves throughout the entire ride cycle in order to ride.

Extremity Requirement: Drivers must have at least one (1) natural functioning arm with a natural functioning hand capable of grasping and at least one (1) natural functioning leg with a natural foot in order to drive.

Ride Access: Guests using a wheelchair or ECV should enter through the main entrance.

Cloud Bouncer (Family Spinning Ride)

A gentle ride with a circulating, up and down motion.

Height Restriction: Riders under 42 inches tall must be accompanied by an adult.

Physical Requirements: Do not ride if you have any of the following conditions: recent surgery or illness, heart conditions, neck, back, or bone ailments, pregnancy, high blood pressure or aneurysms, or are under the influence of drugs or alcohol. All passenger restraints, including seatbelts, must be fastened properly to allow guest to ride. Due to the restraints some large guests may not be able to ride. No lap children. Guests with arm casts must be seated with the cast toward the outside of the ride. All riders must be able to sit properly (facing forward, sitting upright, flat in the seat with their arms and legs inside the ride), use all restraining devices, and stabilize themselves throughout the entire ride cycle in order to ride.

Extremity Requirement: Riders must have at least one (1) natural functioning arm with a natural functioning hand capable of grasping and at least one (1) natural functioning leg with a natural foot in order to ride.

Ride Access: Guests using a wheelchair or ECV should enter through the main entrance.

Conquistador (Swinging Ship)

A family ride with an oscillating back and forth motion.

Height Restriction: All guests under 42 inches must be accompanied by an adult and sit towards the center of the boat, with the adult sitting towards the outside of the boat.

Physical Requirements: Do not ride if you have any of the following conditions: recent surgery or illness, heart conditions, neck, back, or bone ailments, pregnancy, high blood pressure or aneurysms, or are under the influence of drugs or alcohol. All passenger restraints, including lap bars, must be fastened properly to allow guest to ride. Due to the restraints some large guests may not be able to ride. No lap children. Guests with arm casts must be seated with the cast toward the outside of the ride. All riders must be able to sit properly (facing forward, sitting upright, flat in the seat with their arms and legs inside the ride), use all restraining devices, and stabilize themselves throughout the entire ride cycle in order to ride.

Extremity Requirement: Riders must have at least one (1) natural functioning arm with a natural functioning hand capable of grasping and two (2) natural functioning legs with two (2) natural feet in order to ride.

Ride Access: Guests using a wheelchair or ECV should enter through the ride exit.

Crazy Legs (Spinning Ride)

A moderate ride with a circulating, up and down motion.

Height Restriction: Riders must be at least 42 inches tall to ride. Riders between 42 and 50 inches tall must be accompanied by an adult.

Physical Requirements: Do not ride if you have any of the following conditions: recent surgery or illness, heart conditions, neck, back, or bone ailments, pregnancy, high blood pressure or aneurysms, or are under the influence of drugs or alcohol. All passenger restraints, including lap bars, must be fastened properly to allow Guest to ride. Due to the restraints some large guests may not be able to ride. No lap children. Guests with arm casts must be seated with the cast toward the outside of the ride. All riders must be able to sit properly (facing forward, sitting upright, flat in the seat with their arms and legs inside the ride), use all restraining devices, and stabilize themselves throughout the entire ride cycle in order to ride.

Extremity Requirement: Riders must have at least one (1) natural functioning arm with a natural functioning hand capable of grasping and at least one (1) natural functioning leg with a natural foot in order to ride.

Ride Access: Guests using a wheelchair or ECV should enter through the main entrance.

Daffy Duck's Capitol Tours

(Family Circular Bus Ride)

A circular ride with some elevation.

Height Restriction: Guests must be at least 36 inches tall. Guest between 36 inches and 42 inches tall must be accompanied by an adult. Guests over 54 inches may only ride when accompanying a guest under 54 inches.

Physical Requirements: Do not ride if you have any of the following conditions: recent surgery or illness, heart conditions, neck, back, or bone ailments, pregnancy, high blood pressure or aneurysms, or are under the influence of drugs or alcohol. All passenger restraints, including lap bars, must be fastened properly to allow Guest to ride. Due to the restraints some large guests may not be able to ride. No lap children. Guests with arm casts must be seated with the cast toward the outside of the ride. No leg cast. All riders must be able to sit properly (facing forward, sitting upright, flat in the seat with their arms and legs inside the ride), use all restraining devices, and stabilize themselves throughout the entire ride cycle in order to ride.

Extremity Requirement: Riders must have at least one (1) natural functioning arm with a natural functioning hand capable of grasping and at least one (1) natural functioning leg with a natural foot in order to ride.

Ride Access: Guests using a wheelchair or ECV should enter through the main entrance.

Dive Bomber Alley (Sky Coaster)

A thrilling free fall attraction with exciting swinging action.

This attraction requires an additional charge.

Height Restriction: Riders must be at least 42 inches under 48 inches tall must be accompanied by an adult.

Physical Requirements: Do not ride if you have any of the following conditions: recent surgery or illness, heart conditions, neck, back, or bone ailments, pregnancy, high blood pressure or aneurysms, or are under the influence of drugs or alcohol. All passenger restraints must be fastened properly to allow guest to ride. Due to the restraints some large guests may not be able to ride. Do not ride if you are not willing or do not have the ability to grasp and hold onto the landing loop with both hands during the landing process. Maximum combined weight of flyers is 850 pounds. Guests with arm casts must ride with the cast toward the outside of the ride. Boarding requires going up stairs into the loading platform.

Extremity Requirements: By reason of the restraint system inherent in flight suits, it is necessary that flyers must have two (2) arms and at least one (1) leg to be restrained by flight suit.

Ride Access: Guests should inquire about access accommodations with the ticket seller at the attraction.

El Asseradero (Log Flume Ride)

Float through water at mild speeds and medium hills.

Height Restriction: Guests under 42 inches tall must be accompanied by an adult.

Physical Requirements: Do not ride if you have any of the following conditions: recent surgery or illness, heart conditions, neck, back, or bone ailments, pregnancy, high blood pressure or aneurysms, or are under the influence of drugs or alcohol. No lap children. Leg casts must be able to bend at the knee. All riders must be able to sit properly (facing forward, sitting upright, flat in the seat with their arms and legs inside the ride), and stabilize themselves throughout the entire ride cycle in order to ride. You will get wet.

Extremity Requirement: Riders must have at least one (1) natural functioning arm with a natural functioning hand capable of grasping and at least one (1) natural functioning leg with a natural foot in order to ride.

Ride Access: Guests using a wheelchair or ECV should enter through The Flash Pass entrance, located in the Mexico area of the park behind Totally Kickin' Chicken.

El Sombrero (Spinning Hat Ride)

A family ride with spinning and up and down motions.

Height Restriction: All guests under 42 inches must be accompanied by an adult.

Physical Requirements: Do not ride if you have any of the following conditions: recent surgery or illness, heart conditions, neck, back, or bone ailments, pregnancy, high blood pressure or aneurysms, or are under the influence of drugs or alcohol. All passenger restraints, including lap bars must be fastened properly to allow guest to ride. Due to the restraints some large guests may not be able to ride. Rider positions may be adjusted to ensure proper weight distribution. No lap children. Guests with arm casts must be seated with the cast toward the outside of the ride. All riders must be able to sit properly (facing forward, sitting upright, flat in the seat with their arms and legs inside the ride), use all restraining devices, and stabilize themselves throughout the entire ride cycle in order to ride.

Extremity Requirement: Riders must have at least one (1) natural functioning arm with a natural functioning hand capable of grasping and two (2) natural functioning legs with two (2) natural feet in order to ride.

Ride Access: Guests using a wheelchair or ECV should enter through the main entrance.

Gunslinger (Swing Ride)

Circular swinging motion while elevated above the ground.

Height Restriction: Riders must be 42 inches tall.

Physical Requirements: Do not ride if you have any of the following conditions: recent surgery or illness, heart conditions, neck, back, or bone ailments, pregnancy, high blood pressure or aneurysms, or are under the influence of drugs or alcohol. All passenger restraints, including lap bars and seatbelts, must be fastened properly to allow guest to ride. Due to the restraints some large guests may not be able to ride. All riders must be able to sit properly (facing forward, sitting upright, flat in the seat with their arms and legs inside the ride), use all restraining devices, and stabilize themselves throughout the entire ride cycle in order to ride.

Extremity Requirement: Riders must have at least one (1) natural functioning arm with a natural functioning hand capable of grasping and at least one (1) natural functioning leg with a natural foot in order to ride.

Ride Access: Guests using a wheelchair or ECV should enter through the ride exit.

Judge Roy Scream (Wooden Roller Coaster)

Mild coaster with medium drops.

Height Restriction: Riders must be 42 inches tall.

Physical Requirements: Do not ride if you have any of the following conditions: recent surgery or illness, heart conditions, neck, back, or bone ailments, pregnancy, high blood pressure or aneurysms, or are under the influence of drugs or alcohol. All passenger restraints, including lap bars and seatbelts, must be fastened properly to allow guest to ride. Due to the restraints some large guests may not be able to ride. Guests with arm casts must be seated with the cast toward the outside of the ride. All riders must be able to sit properly (facing forward, sitting upright, flat in the seat with their arms and legs inside the ride), use all restraining devices, and stabilize themselves throughout the entire ride cycle in order to ride.

Extremity Requirement: Riders must have at least one (1) natural functioning arm with a natural functioning hand capable of grasping and two (2) natural functioning legs with two (2) natural feet in order to ride.
No prosthetic devices

Ride Access: Guests using a wheelchair or ECV should enter through the ride exit.

La Fiesta de las Tazas (Tea Cups Ride)

A circular ride with spinning motion, fast turns and side-to-side forces.

Height Restriction: Riders under 42 inches must be accompanied by an adult and must sit toward the inside of the Fiesta Cup.

Physical Requirements: Do not ride if you have any of the following conditions: recent surgery or illness, heart conditions, neck, back, or bone ailments, pregnancy, high blood pressure or aneurysms, or are under the influence of drugs or alcohol. All passenger restraints must be fastened properly to allow guest to ride. No lap children. Guests with arm casts must be seated with the cast toward the outside of the ride. All riders must be able to sit properly (facing forward, sitting upright, flat in the seat with their arms and legs inside the ride), and stabilize themselves throughout the entire ride cycle in order to ride.

Extremity Requirement: Riders must have at least one (1) natural functioning arm with a natural functioning hand capable of grasping and at least one (1) natural functioning leg with a natural foot in order to ride.

Ride Access: Guests using a wheelchair or ECV should enter through the main entrance.

La Vibora (Bobsled Roller Coaster)

Olympic bobsled simulation with medium side to side motion and mild up & down hills.

Height Restriction: Riders must be 42 inches tall.

Physical Requirements: Do not ride if you have any of the following conditions: recent surgery or illness, heart conditions, neck, back, or bone ailments, pregnancy, high blood pressure or aneurysms, or are under the influence of drugs or alcohol. All passenger restraints, including lap bars and seatbelts, must be fastened properly to allow guest to ride. Due to the restraints some large guests may not be able to ride. All riders must be able to sit properly (facing forward, sitting upright, flat in the seat with their arms and legs inside the ride), use all restraining devices, and stabilize themselves throughout the entire ride cycle in order to ride.

Extremity Requirement: Riders must have at least three (3) natural functioning full extremities (including natural functioning hand(s) and foot/feet) capable of grasping and stabilizing in order to ride.

Ride Access: Guests using a wheelchair or ECV should enter through the ride exit.

Michigan J. Frog's Tinseltown Revue

(Children's Swing Ride)

A gentle circular ride with some elevation.

Height Restriction: Guests must be less than 54 inches tall.

Physical Requirements: Do not ride if you have any of the following conditions: recent surgery or illness, heart conditions, neck, back, or bone ailments, pregnancy, high blood pressure or aneurysms, or are under the influence of drugs or alcohol. All passenger restraints, including seatbelts, must be fastened properly to allow guest to ride. Due to the restraints some large guests may not be able to ride. Guests with arm casts must be seated with the cast toward the outside of the ride. All riders must be able to sit properly (facing forward, sitting upright, flat in the seat with their arms and legs inside the ride), use all restraining devices, and stabilize themselves throughout the entire ride cycle in order to ride.

Extremity Requirement: Riders must have at least one (1) natural functioning arm with a natural functioning hand capable of grasping and at least one (1) natural functioning leg with a natural foot in order to ride.

Ride Access: Guests using a wheelchair or ECV should enter through the main entrance.

Mini Mine Train (Mine Train Roller Coaster)

A roller coaster for our smaller guests with mild drops and turns.

Height Restriction: All riders must be at least 36 inches tall to ride, riders between 36 and 42 inches must be accompanied by an adult.

Physical Requirements: Do not ride if you have any of the following conditions: recent surgery or illness, heart conditions, neck, back, or bone ailments, pregnancy, high blood pressure or aneurysms, or are under the influence of drugs or alcohol. All passenger restraints, including seat belts and lap bars, must be fastened properly to allow guest to ride. Due to the restraints some large guests may not be able to ride. Guests with arm casts must be seated with the cast toward the outside of the ride. All riders must be able to sit properly (facing forward, sitting upright, flat in the seat with their arms and legs inside the ride), use all restraining devices, and stabilize themselves throughout the entire ride cycle in order to ride.

Extremity Requirement: Riders must have at least three (3) natural functioning full extremities (including natural functioning hand(s) and foot/feet) capable of grasping and stabilizing in order to ride.

Ride Access: Guests using a wheelchair or ECV should enter through the ride exit.

Mr. Freeze Reverse Blast (Launched Roller Coaster)

Quick acceleration, high speeds, steep drops, fast turns, and inverted turns.

Height Restriction: All riders must be at least 54 inches tall to ride.

Physical Requirements: Do not ride if you have any of the following conditions: recent surgery or illness, heart conditions, neck, back, or bone ailments, pregnancy, high blood pressure or aneurysms, or are under the influence of drugs or alcohol. All passenger restraints, including lap bars and seat belts, must be fastened properly to allow guest to ride. Due to the restraints some large guests may not be able to ride. Guests with arm casts must be seated with the cast toward the outside of the ride. All riders must be able to sit properly (facing forward, sitting upright, flat in the seat with their arms and legs inside the ride), use all restraining devices, and stabilize themselves throughout the entire ride cycle in order to ride.

Extremity Requirement: Riders must have two (2) natural functioning arms with two (2) natural functioning hands capable of grasping, and two (2) natural functioning legs with two (2) natural functioning feet in order to ride. No prosthetic devices.

Ride Access: Guests using a wheelchair or ECV should enter through the main entrance. An elevator is available to assist in exiting only.

New Texas Giant (Hybrid Roller Coaster)

Exciting coaster with high speeds, steep drops, and fast turns.

Height Restriction: All riders must be at least 48 inches tall to ride.

Physical Requirements: Do not ride if you have any of the following conditions: recent surgery or illness, heart conditions, neck, back, or bone ailments, pregnancy, high blood pressure or aneurysms, or are under the influence of drugs or alcohol. Due to the restraint devices on this ride, certain guests of size and physical dimension may not be able to ride. Guests with arm or leg casts that restrict the guest's appendage movement and/or impede the passenger restraints are not permitted to ride. All passenger restraints, including lap bars must be positioned and fastened properly to allow guest to ride. Lap bar must firmly contact top of the leg on thigh, with guest seated with their back against the backrest. No space is allowed between the lap bar and the top of leg. If the restraint does not press firmly against the top of the leg of the passenger may not ride, even if the passenger meets the minimum height requirement. Anyone attempting to create space under their lap bar will be ejected from the park. Guests with arm casts must be seated with the cast toward the outside of the ride. All riders must be able to sit properly (facing forward, sitting upright, flat in the seat with their arms and legs inside the ride), use all restraining devices, and stabilize themselves throughout the entire ride cycle in order to ride.

Extremity Requirement: Riders must have at least one (1) natural functioning arm with a natural functioning hand capable of grasping and two (2) natural functioning legs with two (2) natural feet in order to ride. No prosthetic devices.

Ride Access: Guests using a wheelchair or ECV should enter through the ride exit.

Oil Derrick (Elevator to an Observation Deck)

An elevator ride to the viewing area at the top of the ride.

Height Restriction: None

Physical Requirements: Do not ride if you have any of the following conditions: recent surgery or illness, heart conditions, neck, back, or bone ailments, pregnancy, high blood pressure or aneurysms, or are under the influence of drugs or alcohol.

Ride Access: All Guests should enter through the main entrance.

Pandemonium (Spinning Roller Coaster)

Exciting roller coaster with moderate to heavy side to side motion, moderate to heavy spinning and mild up and down hills.

Height Restriction: All guests must be 42 inches tall to ride. Guests between 42 inches and 47 inches tall must be accompanied by an adult to ride.

Physical Requirements: Do not ride if you have any of the following conditions: recent surgery or illness, heart conditions, neck, back, or bone ailments, pregnancy, high blood pressure or aneurysms, or are under the influence of drugs or alcohol. All passenger restraints, including lap bars, must be fastened properly to allow guest to ride. Due to the restraints some large guests may not be able to ride. Guests with arm casts must be seated with the cast toward the outside of the ride. All riders must be able to sit properly (facing forward, sitting upright, flat in the seat with their arms and legs inside the ride), use all restraining devices, and stabilize themselves throughout the entire ride cycle in order to ride.

Extremity Requirement: Riders must have at least one (1) natural functioning arm with a natural functioning hand capable of grasping and two (2) natural functioning legs with two (2) natural feet in order to ride.

Ride Access: Guests using a wheelchair or ECV should enter using the elevator adjacent to The Flash Pass entrance.

Roaring Rapids (White Water Rapids Ride)

Slight side to side motion, occasional side jolts and dipping, rafting simulation.

Height Restriction: Riders must be at least 36 inches tall to ride. An adult must accompany guests between 36 and 42 inches tall.

Physical Requirements: Do not ride if you have any of the following conditions: recent surgery or illness, heart conditions, neck, back, or bone ailments, pregnancy, high blood pressure or aneurysms, or are under the influence of drugs or alcohol. All passenger restraints, including seat belts, must be fastened properly to allow guest to ride. Due to the restraints some large guests may not be able to ride. Guests with arm casts must be seated with the cast toward the outside of the ride. All riders must be able to sit properly (facing forward, sitting upright, flat in the seat with their arms and legs inside the ride), use all restraining devices, and stabilize themselves throughout the entire ride cycle in order to ride. You will get wet, possibly soaked on this ride.

Extremity Requirement: Riders must have at least one (1) natural functioning arm with a natural functioning hand capable of grasping and at least one (1) natural functioning leg with a natural foot in order to ride.

Ride Access: Guests using a wheelchair or ECV should enter through the ride exit.

Rodeo (Spinning Ride)

A moderate ride with heavy side to side and front to back motion.

Height Restriction: All guests must be 48 inches tall to ride. Guests between 48 inches and 54 inches tall must be accompanied by an adult to ride.

Physical Requirements: Do not ride if you have any of the following conditions: recent surgery or illness, heart conditions, neck, back, or bone ailments, pregnancy, high blood pressure or aneurysms, or are under the influence of drugs or alcohol. All passenger restraints, including lap bars and seat belts, must be fastened properly to allow guest to ride. Due to the restraints some large guests may not be able to ride. Guests with arm casts must be seated with the cast toward the outside of the ride. All riders must be able to sit properly (facing forward, sitting upright, flat in the seat with their arms and legs inside the ride), use all restraining devices, and stabilize themselves throughout the entire ride cycle in order to ride. Rider positions may be adjusted to ensure proper weight distribution.

Extremity Requirement: Riders must have at least one (1) natural functioning arm with a natural functioning hand capable of grasping and two (2) natural functioning legs with two (2) natural feet in order to ride.

Ride Access: Guests using a wheelchair or ECV should enter through the main entrance.

Runaway Mountain (Indoor Roller Coaster)

An exciting roller coaster with high speeds, steep drops, and fast turns all in the dark.

Height Restriction: All guests must be 48 inches tall to ride.

Physical Requirements: Do not ride if you have any of the following conditions: recent surgery or illness, heart conditions, neck, back, or bone ailments, pregnancy, high blood pressure or aneurysms, or are under the influence of drugs or alcohol. All passenger restraints, including lap bars, must be fastened properly to allow guest to ride. Due to the restraints some large guests may not be able to ride. Guests with arm casts must be seated with the cast toward the outside of the ride. All riders must be able to sit properly (facing forward, sitting upright, flat in the seat with their arms and legs inside the ride), use all restraining devices, and stabilize themselves throughout the entire ride cycle in order to ride.

Extremity Requirement: Riders must have at least three (3) natural functioning full extremities (including natural functioning hand(s) and foot/feet) capable of grasping and stabilizing in order to ride. No prosthetic devices.

Ride Access: Guests using a wheelchair or ECV should enter through the main entrance.

Runaway Mine Train (Mine Train Roller Coaster)

An exciting roller coaster with high speeds, steep drops, and fast turns.

Height Restriction: All riders must be at least 42 inches tall to ride.

Physical Requirements: Do not ride if you have any of the following conditions: recent surgery or illness, heart conditions, neck, back, or bone ailments, pregnancy, high blood pressure or aneurysms, or are under the influence of drugs or alcohol. All passenger restraints, including lap bars, must be fastened properly to allow guest to ride. Due to the restraints some large guests may not be able to ride. Guests with arm casts must be seated with the cast toward the outside of the ride. All riders must be able to sit properly (facing forward, sitting upright, flat in the seat with their arms and legs inside the ride), use all restraining devices, and stabilize themselves throughout the entire ride cycle in order to ride.

Extremity Requirement: Riders must have at least three (3) natural functioning full extremities (including natural functioning hand(s) and foot/feet) capable of grasping and stabilizing in order to ride.

Ride Access: Guests using a wheelchair or ECV should enter through the ride exit.

Shock Wave (Looping Roller Coaster)

An exciting roller coaster with high speeds, steep drops, fast turns, and loops.

Height Restriction: All riders must be at least 42 inches tall to ride.

Physical Requirements: Do not ride if you have any of the following conditions: recent surgery or illness, heart conditions, neck, back, or bone ailments, pregnancy, high blood pressure or aneurysms, or are under the influence of drugs or alcohol. All passenger restraints, including lap bars and seat belts, must be fastened properly to allow guest to ride. Due to the restraints some large guests may not be able to ride. Guests with arm casts must be seated with the cast toward the outside of the ride. All riders must be able to sit properly (facing forward, sitting upright, flat in the seat with their arms and legs inside the ride), use all restraining devices, and stabilize themselves throughout the entire ride cycle in order to ride.

Extremity Requirement: Riders must have at least one (1) natural functioning arm with a natural functioning hand capable of grasping and two (2) natural functioning legs with two (2) natural feet in order to ride.

Ride Access: Guests must navigate the exit stairs in order to access the ride. Shock Wave was constructed before the American with Disabilities Act and is only accessible via stairs on the ride exit.

Sidewinder (Scrambler Ride)

A circular ride with spinning motion, fast turns and side-to-side forces.

Height Restriction: Riders must be 36 inches tall to ride. All riders between 36 and 48 inches must be accompanied by an adult.

Physical Requirements: Do not ride if you have any of the following conditions: recent surgery or illness, heart conditions, neck, back, or bone ailments, pregnancy, high blood pressure or aneurysms, or are under the influence of drugs or alcohol. All passenger restraints, including seatbelts and lap bars, must be fastened properly to allow Guest to ride. Due to the restraints some large guests may not be able to ride. No lap children.
