- ☠ **Camino de los Vampiros:** Hidden away near the Mexico border lies a village that legends say was taken over by Vampiric outlaws. These monsters are now starting to hunt a little further from home.
- ☠ **Boomtown Terror:** In 1786, people from all parts of the continent fled to Boomtown, Texas once they caught wind of the Boomtown mines, but the locals were less than welcoming. On October 13th, 1787, many of the locals carried out a vicious plan to slaughter anyone who approached Boomtown. Still today, those who have dared to go near the old mines have never returned.
