**SAFETY &  
ACCESSIBILITY  
GUIDE**

**FOR MORE INFORMATION PLEASE VISIT GUEST RELATIONS**

## INTRODUCTION:

We are thrilled you have chosen to spend your day at Six Flags! Our goal is to make your visit fun and memorable. This Six Flags Guest Safety and Accessibility Guide includes important information to assist Guests with planning their visit to the park and enjoy its various attractions, rides, services and amenities. In this Guide, Guests will find specific information for individuals with disabilities along with general policies and guidelines.

We work closely with the manufacturer of each of our rides and our policies incorporate the manufacturers' guidelines as well as the requirements of the Americans With Disabilities Act. We hope that this Guide will help Guests make the best choices to ensure a safe, comfortable and convenient experience at the park. If, at any time, Guests need additional assistance or a further explanation of our policies and guidelines, they should feel free to ask any Six Flags Team Member.

Our goal is to safely and efficiently accommodate the needs of all Guests, including individuals with disabilities. This Guide, along with the availability of our Team Members to answer any questions and offer assistance, will allow Guests to have a thrilling and safe day at the park.

## GENERAL WARNING:

We are committed to providing you a safe environment during your visit to Six Flags. While there are inherent risks to participating in any amusement park ride or attraction, our goal is to ensure your safety with the incorporation of some restrictions. For your safety, you should be in good health to ride. Only you know your physical conditions or limitations.

Many amusement park rides incorporate safety systems designed by the manufacturer to accommodate people of average physical stature and body proportion. These safety systems may place restrictions on the ability of a Guest to safely be contained within the ride restraint. Extremely large or small individuals, Guests who have heart, back or neck trouble or conditions, pregnant women, people who have had recent surgery or an illness, people with casts, braces, restrictive devices or certain disabilities may not be safely accommodated by certain ride systems. For example, height requirements are based on the size needed for safety restraints to

function properly and the level of maturity usually associated with a certain height.

If you suspect your health could be at risk for any reason, or you could aggravate a pre-existing condition of any kind, **DO NOT RIDE**. The specific features, rider requirements and health restrictions of each ride are described later in this Guide.

In order to ride, all Guests must be able to maintain the proper riding position, meet the ride requirements and appropriately utilize the restraint systems, including lap bars, shoulder harnesses and seatbelts as indicated. Riders who do not meet extremity requirements, may be able to ride (name of the ride) utilizing a full body harness, if the requirements set forth by the manufacturer are met. All Guests must also be able to demonstrate a willingness and ability to comply with verbal and written rider requirements.

Six Flags reserves the right to make the final determination regarding eligibility of a Guest to ride a particular ride based on the Guest's size, weight, height or other limitations. Information in this Guide is subject to change.

## RIDER RESPONSIBILITY:

All Guests have a duty to exercise good judgment and act in a responsible manner while participating on a ride or attraction and to obey all verbal and written warnings and instructions. Guests also have a duty to properly use all ride and attraction safety equipment provided.

## PARKING:

Accessible parking is available on a first-come, first-serve basis within the main parking lots of the park. When you arrive at the parking toll booths, ask a Team Member for instructions regarding where to proceed to the accessible parking lot. Both auto and van accessible spaces are provided. A valid disabled persons parking placard or license plate must be displayed at all times while parked in the designated accessible parking area. If the designated accessible parking area is full at the time of your arrival, members of your party may be dropped off at the main pick-up/drop-off area, near the main entrance to the park. Please ask a Team Member for directions to additional parking areas.

## **WHEELCHAIRS AND ELECTRIC CONVENIENCE VEHICLES (ECV'S):**

Wheelchairs and electric convenience vehicles (ECV's) are available for rent next to Guest Relations. A deposit is also required.

Guests may also use their own wheelchairs or ECV's. If you need to take the rented wheelchair or ECV outside of the park, a Team Member escort is necessary to do so. Please ask for assistance at Guest Relations. Battery recharging is also available at Guest Relations.

Guests using wheelchairs or ECV's may utilize any ticket window and designated turnstiles to enter the park. Many of the park's shopping and dining facilities are also wheelchair accessible. Many of the rides and attractions have queues that are accessible to Guests using manual wheelchairs. If an alternate entrance is required, these entrances are generally at the ride exit and are identified by a sign with the universal wheelchair symbol. Please keep in mind that there are specific boarding requirements and accommodations for those using wheelchairs at each ride or attraction.

## **SEGWAY:**

Due to varying walkways, terrains and large crowds, we cannot permit the use of two-wheeled, self-balancing electric vehicles such as Segways. We are pleased to offer other forms of transportation, including ECV's and standard wheelchairs. Please contact Guest Relations for more information.

## **SERVICE ANIMALS:**

Trained service animals are welcome at our Six Flags Theme Parks. Service animals are defined as dogs that are individually trained to do work or perform tasks for people with disabilities. Examples of such work or tasks include guiding people who are blind, alerting people who are deaf, pulling a wheelchair, alerting and protecting a person who is having a seizure, reminding a person with mental illness to take prescribed medications, calming a person with Post Traumatic Stress Disorder (PTSD) during an anxiety attack, or performing other duties. Service animals are working animals, not pets. The work or task a dog has been trained to provide must be

directly related to the person's disability. Dogs whose sole function is to provide comfort or emotional support do not qualify as service animals. Miniature horses that have been individually trained to do or perform tasks for people with disabilities will qualify as service animals.

Service animals must be house broken and remain on a leash or harness and under the control of their handler at all times. Guests whose service animal demonstrates aggressive and/or annoying actions toward a Guest or Team Member will be directed to remove the animal from the park.

Service animals are welcome in most locations of the park. Most of our rides are not equipped or designed for accessibility to service animals. Therefore, a member of your party must be available to stay with the animal while you ride.

Guests may take advantage of our Kid Swap policy for staying with their service animal. However, park Team Members will not take responsibility for, or provide care to any service animal. Refer to the section on Kid Swap for more information.

A Service Animal "Relief Area" is located in the grassy area next to Triple Play in Hometown Square and near the restrooms outside the Front Gate. Owners are responsible for clean-up and disposal of their animal's waste.

## **RESTROOMS:**

Most restrooms within the park are accessible for Guests using wheelchairs. Please check the park map for locations. The park's Team Members or Guest Relations can provide location directions should you need companion restrooms during your visit.

## **ALTERNATE ACCESS:**

Most of the park's theaters, attractions, restaurants and shops are accessible to wheelchairs. Most, if not all rides require transfer from the wheelchair to the ride seat. Special access entrances are available to accommodate Guests with mobility aides and service animals. These special entrances are generally at the ride exit and are identified by a sign with the universal wheelchair symbol.

Entry, Exit and Transfer must be accomplished independently by the Guest or with the assistance of a member from his/her party. Six Flags Team Members are not trained in lifting or carrying persons with disabilities and are therefore not permitted to assist Guests on or off the rides. Not all rides have alternate access. If in doubt, please contact the Ride Attendant, The Rides Information Center, or Guest Relations for more information.

## **EQUAL ACCESS PASS PROGRAM:**

Our goal is to safely accommodate the needs of all Guests including individuals with disabilities by providing equal access to rides and attractions.

A disability, as defined by the Americans With Disability Act, is a:

Physical or mental impairment that substantially limits one or major life activities such as but not limited to: caring for oneself, performing manual tasks, seeing, hearing, eating, sleeping, walking, standing, lifting, bending, speaking, breathing, learning, reading, concentrating, thinking, communicating, and working.

A major life activity also includes the operation of a major bodily function, including but not limited to, functions of the immune system, normal cell growth, digestive, bowel, bladder, neurological, brain, respiratory, circulatory, endocrine, and reproductive functions.

An impairment substantially interferes with the accomplishment of a major life activity when the individual's important life activities are restricted as to the conditions, manner or duration under which they can be performed in comparison to most people.

SMRH:408120228.1

Temporary impairments that are significant enough to substantially limit a major life activity that may qualify for coverage under the Equal Access Pass Program. Please visit The Rides Information Center to obtain an Equal Access Pass.

The Equal Access Pass Program is designed to provide an avenue for those individuals with disabilities whose disability prevents them from waiting in the queue lines to fully enjoy their experience at the Park. Specifically, the Equal Access Pass provides qualified individuals with the ability to schedule a time to return to the ride/attraction (i.e., a waiting period) that is comparable to the current queue line wait time for a given ride/attraction.

An Equal Access Pass is provided for the Guest requiring the accommodation and up to a maximum of 3 companions. The Guest will be issued a waiting period between uses of the pass. The waiting period will be equal to the wait time for all rides the pass is valid for. Upon arrival at the ride, the Guest will wait in the designated area until called upon by the Ride Attendant. Upon presentation of a valid Equal Access Pass, the Ride Attendant will confirm that the waiting period has elapsed for the ride. You may rest in a comfortable location or enjoy other attractions in the area during your waiting period or when the others from your party reach the boarding platform. If your party is larger than 4 Guests, the other members of your party will be required to enter the ride through the standard queue. There is only a 15 minute grace period for late arrivals.

The Guest with an Equal Access Pass must ride in order for his/her companions to utilize the Equal Access Pass Program. If the Guest with an Equal Access Pass chooses not to ride, his/her companions must wait in the standard queue.

Equal Access Passes are not designed to bypass or "skip" the standard queue and the wait will be equal to the posted wait times. Individuals found to be fraudulently using the Equal Access Pass may be subject to civil penalties.

If your disability does not restrict your ability to wait in the queue lines, an Equal Access Pass may not be appropriate. If you require an alternative accommodation, please let us know.

## MEDICAL DEVICES AND MOBILITY AIDES:

For your safety and the safety of others, riders may be required to remove medical devices, half or full length orthotics, braces, crutches, canes, prosthetics and any other type of medical assistance device that is not permanently affixed to the rider's body to prevent hazards or loss due to ride forces. These devices prevent safety restraints from working as designed, keep the rider from maintaining the proper riding posture, and present a hazard to the rider or others. If in doubt about your ability to safely experience a ride or attraction, please refer to the Rider Requirement Sign at the ride entrance. You may also consult with a Ride Attendant or Guest Relations for more information.

Please also refer to the "Ride Information" section of this Guide for specific information regarding removal of medical devices and mobility aides on a ride by ride basis. If you have any questions, please ask a Ride Attendant or visit Guest Relations.

## LARGER FRAMED GUESTS:

Many rides incorporate safety systems designed by the manufacturer to accommodate people of average physical stature and body proportion. These systems may place restrictions on the ability of an individual to safely experience the ride

In order to ride, all seatbelts, lap bars, and shoulder harnesses must be positioned and fastened properly. Due to rider restraint system requirements, Guests of a larger size may not be accommodated on some rides.

## KID SWAP:

The Kid Swap program is designed to accommodate groups with younger children who may not be tall enough to ride some attractions. To participate: 1) The entire party should enter the ride queue; 2) When preparing to board, tell the Ride Attendant you are using the Kid Swap program; 3) Children who are not tall enough to ride may wait at the exit with an adult from your party; 4) After the first ride is completed, the adult who waited with the child will be allowed to ride.

## RIDE RATINGS AND WARNINGS:

### RIDE RATINGS AND WARNINGS:

Ride warning signs can be found at the entrance of each ride to help determine the attractions that are best for Guests based upon their experience level, physical condition and abilities. Information on each ride can also be found on the Park Map and Guide.

Key to Symbols:

## GENERAL INFORMATION

### FRIGHT FEST:

Theatrical fog effects, areas of low lighting, loud music, sound effects, and theatrical and strobe lighting are used throughout the park during Fright Fest. This includes streets, midways, outdoor scare zones, mazes and haunted houses both indoor and outdoor, live entertainment venues and children's attractions.

Guests with respiratory sensitivities, history of seizures or epilepsy, or sensitivities to latex, loud music and sound effects are advised not to participate in these attractions. Please adhere to all posted and verbal warnings and directions.

## **FAMILY SERVICES/NURSING MOTHERS:**

A private room for nursing mothers is available upon request. Baby changing areas and a companion restroom can be found in most restrooms. Please feel free to ask a Team Member for directions to these locations or review a park map.

## **HEARING DISABILITIES:**

Assisted listening devices are available upon request. Please see Guest Relations for additional information.

American Sign Language Interpreting will be available if requested at least 7 days in advance of your visit. To arrange for sign language interpreting services, please call the Operations Office at 732-928-2000 ext. 2255 Monday through Friday 9:00am to 5:00pm.

## **PREGNANCY:**

Guests who know or believe they may be pregnant should follow all rules, guidelines and restrictions listed for each ride. Those who are pregnant should not ride a ride that specifically lists pregnancy as a rider restriction. Please closely review all rules and guidelines at the entrance of each ride.

## **RESTAURANTS:**

The park's restaurants offer a variety of food options. Assistance is available upon request. Exceptions are made for Guests with special dietary needs including food allergies and baby food/formula.

Guests should contact Park Security or Guest Relations upon arrival at the park for approval to bring in special dietary foods. The special dietary food containers will be marked and dated to clearly show that they have been approved for entry into the park.

## **FIRST AID:**

Emergency Medical Technicians or Paramedics are on duty during all park operating hours. If you require medical assistance, ask any Team Member and they will summon medical personnel to your location. Please refer to your Park Map and Guide for the location of First Aid.

## **OXYGEN TANKS/AIR CONCENTRATORS:**

Due to the dynamics and certain characteristics of the rides, oxygen tanks or portable systems are not permitted on most of our rides and attractions. Oxygen tanks are permitted in enclosed facilities. For your convenience, the park's First Aid station(s) will be able to appropriately store your additional oxygen tanks during your visit.

## **SPECIAL EFFECTS AT THEATERS, RIDES AND ATTRACTIONS:**

Theatrical fog and other effects, including but not limited to: haze and other atmospheric effects, scents, areas of low lighting, loud music, sound effects, theatrical lighting and strobe lighting may be used at various locations in the park such as theaters and during Fright Fest. Guests with respiratory sensitivities, history of seizure or epilepsy, or sensitivities to latex, loud music and sound effects are advised not to participate in these attractions. Please adhere to all posted and verbal warnings and directions.

# RIDE INFORMATION

## CAMERAS:

Picture taking and the use of cameras and video recording devices is not permitted on any ride, while it is in motion. It is encouraged that Guests leave their equipment with a non-rider or secure it in a locker or their vehicle. Lockers are available to store items for a nominal fee. Guests must have written permission to use photographs and/or recordings of any aspect of the park for commercial broadcasting, advertising, marketing, or publishing in any medium.

## RIDE EVACUATIONS:

If a ride evacuation is necessary, Guests may need to negotiate stairs from the highest points of the ride down steeply inclined stairs or walking surfaces. Guests requiring assistance during the ride evacuation may be escorted last in order to expedite the ride evacuation process. Please ask a Ride Attendant about the specific procedures prior to boarding a particular ride.

**Definitions:** Every ride entrance lists height requirements and special instructions regarding the ride. Six Flags uses the following terms:

**Responsible Person (Adult):** A responsible person is someone who meets all the requirements to ride the ride themselves and is at least 54" tall or taller.

**Accompanied By:** Whenever a Guest needs accompaniment, the accompanying person must meet all the ride requirements and be able to assist the Guest including helping the Guest to board and exit the ride and assisting the Guest down stairs, catwalks, or ladders in case of an evacuation

**Lap Child:** A lap child is a child who is unable to walk to the ride independently or maintain independent seated postural control.

**Functioning Extremity:** A functioning extremity is a limb over which a person has control. A prosthetic device is not considered a functioning extremity. Six Flags has additional requirements regarding prosthetic devices. Please see the information for each specific ride in the Ride Information section for this Guide.

**Ability to hold on or brace:** Ability to use one's arms to maintain a grasp on an assist bar and support one's body during normal and emergency procedures on a ride and to use one's legs to brace to maintain a seated position during the ride.

**Functioning Arm:** is a full arm with the ability to be flexed at the elbow and a minimum of three full fingers with the ability to hold on with a firm grip.

**Functioning leg:** is a leg with a foot.

## **American Eagle**

An exciting roller coaster with high speed turns and steep drops and sudden stops.

Height Restriction: Riders must be at least 48” tall to ride.

Physical Requirements: Each rider must maintain an upright seated position, unsupported, with their head against the headrest for the duration of the ride, with their arms, hands, legs, and feet inside the ride vehicle at all times. Riders must possess one complete arm extremity (a naturally fully formed and functioning arm with the ability to be flexed at the elbow and a minimum of three full fingers with the ability to hold on with a firm grip) and two complete leg extremities (naturally fully formed legs with feet) to ride. For your safety and the safety of others, riders must remove medical devices including crutches, canes, prosthetics and any other type of medical assistance device that is not permanently affixed to the rider’s body to prevent hazards or loss due to ride forces. Riders must step up and down into the ride vehicle and will need to transfer from a wheelchair to the ride vehicle. Due to the restraints, some larger bodied riders may not be able to ride.

Ride Access: Guests using a manual or electric wheelchair or an ECV (or a member of their party) should proceed up the exit ramp and present a valid Equal Access Pass to a Team Member at the exit to receive a wait time.

## **Batman – The Ride**

An exciting roller coaster with high speeds, steep drops, fast turns, inverted loops, and sudden stops.

Height Restriction: Riders must be at least 54” tall to ride.

Physical Requirements: Each rider must maintain an upright seated position, unsupported, with their head against the headrest for the duration of the ride, with their arms, hands, legs, and feet inside the ride vehicle at all times. Riders with one amputated foot or two amputated feet (amputation below the knee), with or without prosthesis, may ride provided the rider has the ability to hold on with two functioning hands. Riders with one missing arm or hand may ride, provided the rider has the ability to hold on with one functioning hand and brace themselves with two functioning legs. For your

safety and the safety of others, riders must remove medical devices including crutches, canes, prosthetics and any other type of medical assistance device that is not permanently affixed to the rider’s body to prevent hazards or loss due to ride forces. Arm/leg casts are not permitted on the ride. Riders using a wheelchair must transfer from the wheelchair onto the ride. Due to the restraints, some larger bodied riders may not be able to ride.

Ride Access: Guests using a manual or electric wheelchair or an ECV (or a member of their party) should proceed up the exit ramp and present a valid Equal Access Pass to a Team Member at the exit to receive a wait time.

## **Bedrock Boulder Roller (Camp Cartoon)**

A slow moving ride that circles around with frequent stops.

Height Restriction: Riders must be 54” tall or below to ride. Riders are not permitted to sit on the lap of another rider.

Physical Requirements: Each rider must be able to sit properly, use all restraining devices, and stabilize themselves. Riders must step up and down into an elevated ride vehicle and will need to transfer from a wheelchair to the ride vehicle. Due to the restraints, some larger bodied riders may not be able to ride.

Ride Access: Guests using a manual or electric wheelchair or an ECV should enter through the ride exit.

## **Big Easy Balloons**

A family ride with circulating motion with frequent stops.

Height Restriction: Riders must be at least 48” tall to ride alone. Riders under 48” tall must ride with a rider over 54” tall. Riders are not permitted to sit on the lap of another rider.

Physical Requirements: Each rider must maintain an upright seated position, unsupported, for the duration of the ride, with their arms, hands, legs, and feet inside the ride vehicle at all times. Riders must possess one complete arm extremity (a naturally fully formed and functioning arm with the ability to be flexed at the elbow and a minimum of three full fingers with the ability to hold on with a firm

grip) and one complete leg extremity (a naturally fully formed leg with a foot) to ride. Riders must step up and down into an elevated ride vehicle and will need to transfer from a wheelchair to the ride vehicle. Due to the restraints, some larger bodied riders may not be able to ride.

Ride Access: Guests using a manual or electric wheelchair or an ECV should enter through the ride exit.

## **Bouncer (Kidzopolis)**

A ride with a mild up and down motion.

Height Restriction: Riders under 36" tall must ride with a rider over 54" tall. Riders are not permitted to sit on the lap of another rider.

Physical Requirements: Each rider must maintain an upright seated position, unsupported, for the duration of the ride, with their arms, hands, legs, and feet inside the ride vehicle at all times. Riders must possess one complete arm extremity (a naturally fully formed and functioning arm with the ability to be flexed at the elbow and a minimum of three full fingers with the ability to hold on with a firm grip) and one complete leg extremity (a naturally fully formed leg with a foot) to ride. Leg casts are not permitted on this ride. Riders must step up and down into an elevated ride vehicle and will need to transfer from a wheelchair to the ride vehicle. Due to the restraints, some larger bodied riders may not be able to ride.

Ride Access: Guests using a manual or electric wheelchair or an ECV should enter through the ride exit.

## **Buccaneer Battle**

A family boat ride through white water with splashes and turns.

Height Restriction: Riders must be at least 36" tall to ride. Riders between 36" tall and 48" tall must be accompanied by a rider over 54" tall. A Guest over 54" may accompany up to three Guests between 36" and 48", provided that they are all seated on the same row, with the adult on the open end of the bench. Riders are not permitted to sit on the lap of another rider. Personal flotation devices may be requested prior to boarding the ride. Please see the ride attendant for more information.

Physical Requirements: Each rider must maintain an upright seated position, unsupported, for the duration of the ride, with their arms, hands, legs, and feet inside the ride vehicle at all times. Riders must possess three complete extremities to ride. A complete extremity is a complete arm (a naturally fully formed and functioning arm with the ability to be flexed at the elbow and a minimum of three full fingers with the ability to hold on with a firm grip) or a complete leg (a naturally fully formed leg with a foot). Riders must step up and down into the ride vehicle and will need to transfer from a wheelchair to the ride vehicle.

Ride Access: Guests using a manual or electric wheelchair or an ECV (or a member of their party) should proceed up next to the entrance and present a valid Equal Access Pass to a Team Member to receive a wait time.

## **Chubasco**

A moderate ride with a quick circulating motion.

Height Restriction: Riders must be at least 42" tall to ride alone. Riders under 42" tall must ride with a rider over 54" tall. Riders are not permitted to sit on the lap of another rider.

Physical Requirements: Each rider must maintain an upright seated position, unsupported, for the duration of the ride, with their arms, hands, legs, and feet inside the ride vehicle at all times. Riders must possess one complete arm extremity (a naturally fully formed and functioning arm with the ability to be flexed at the elbow and a minimum of three full fingers with the ability to hold on with a firm grip) and one complete leg extremity (a naturally fully formed leg with a foot) to ride. Riders must step up and down into the ride vehicle and will need to transfer from a wheelchair to the ride vehicle. Due to the restraints, some larger bodied riders may not be able to ride.

Ride Access: Guests using a manual or electric wheelchair or an ECV should enter through the ride entrance.

## **Columbia Carousel**

A ride that slowly moves in a circular manner with a mild up and down motion.

**Height Restriction:** Riders must be at least 42” tall to ride alone. Riders under 42” tall must ride with a rider over 54” tall. Lap children are permitted to ride with a rider over 54” tall in a chariot. Riders over 54” tall standing next to children must stand to the inside of the carousel figure.

**Physical Requirements:** Each rider must maintain an upright seated position, unsupported, for the duration of the ride. Riders who cannot maintain an upright seated position, unsupported, must ride with a rider over 54” tall. Riders must possess one complete arm extremity (a naturally fully formed and functioning arm with the ability to be flexed at the elbow and a minimum of three full fingers with the ability to hold on with a firm grip) and one complete leg extremity (a naturally fully formed leg with a foot), and one leg extremity to the knee in order to ride on an animal. Riders must step up and down onto the ride and will need to transfer from a wheelchair to the ride. Some larger bodied riders may not be able to ride on an animal.

**Ride Access:** Guests using a manual or electric wheelchair or an ECV should enter through the ride exit.

## Condor

A moderate ride that spins and tilts to the top of an elevated tower.

**Height Restriction:** Riders must be at least 42” tall to ride. Riders between 42” tall and 48” tall must ride with a rider over 54” tall.

**Physical Requirements:** Each rider must maintain an upright seated position, unsupported, for the duration of the ride, with their arms, hands, legs, and feet inside the ride vehicle at all times. Riders must possess one complete arm extremity (a naturally fully formed and functioning arm with the ability to be flexed at the elbow and a minimum of three full fingers with the ability to hold on with a firm grip) and one complete leg extremity (a naturally fully formed leg with a foot) to ride. Riders must step up and down into an elevated ride vehicle and will need to transfer from a wheelchair to the ride vehicle. Due to the restraints, some larger bodied riders may not be able to ride.

**Ride Access:** Guests using a manual or electric wheelchair or an ECV should enter through the ride exit.

## Daredevil Dive

An exciting attraction with a sudden drop and swinging back and forth motion.

**Height Restriction:** Riders must be at least 42” tall to ride. Riders between 42” tall and 48” tall must ride with a rider over 54” tall. There is a maximum weight of 850 lbs. per group.

**Physical Requirements:** Riders must possess two complete arm extremities (naturally fully formed and functioning arms with the ability to be flexed at the elbow and a minimum of three full fingers with the ability to hold on with a firm grip) and one complete leg extremity (a naturally fully formed leg with a foot) to ride. Riders must be willing and have the ability to grasp and hold onto the landing loop with both hands during the landing process. Those using a wheelchair must transfer from the wheelchair onto the ride. Due to harness restraints, some larger bodied riders may not be able to ride.

**Ride Access:** Guests using a manual or electric wheelchair or an ECV should enter through the entrance. This ride was constructed before the Americans with Disabilities Act and is only accessible via stairs.

(A fee is required for Daredevil Dive. Tickets are available for purchase at the Daredevil Dive entrance.)

## The Dark Knight Coaster

An exciting roller coaster with sudden turns and drops.

**Height Restriction:** Riders must be at least 42” tall to ride. Riders between 42” tall and 48” tall must ride with a rider over 54” tall. A rider over 54” tall may accompany one rider between 42” tall and 48” tall and must sit in the same row.

**Physical Requirements:** Each rider must maintain an upright seated position, unsupported, with their head against the headrest for the duration of the ride, with their arms, hands, legs, and feet inside the ride vehicle at all times. Riders must possess one complete arm extremity (a naturally fully formed and functioning arm with the ability to be flexed at the elbow and a minimum of three full fingers with the ability to hold on with a firm grip) and two complete leg extremities (naturally fully formed legs with feet) to ride. Riders must step up

and down into the ride vehicle and will need to transfer from a wheelchair to the ride vehicle. Due to the restraints, some larger bodied riders may not be able to ride.

Ride Access: Guests using a manual or electric wheelchair or an ECV (or a member of their party) should proceed to the exit and present a valid Equal Access Pass to a Team Member to receive a wait time. In order to ride, proceed to the marked entrance with the universal wheelchair symbol.

## **Demon**

A high speed roller coaster with high speed and multiple inversions.

Height Restriction: Riders must be at least 42" tall to ride.

Physical Requirements: Each rider must maintain an upright seated position, unsupported, with their head against the headrest for the duration of the ride, with their arms, hands, legs, and feet inside the ride vehicle at all times. Riders must possess one complete arm extremity (a naturally fully formed and functioning arm with the ability to be flexed at the elbow and a minimum of three full fingers with the ability to hold on with a firm grip) and one complete leg extremity (a naturally fully formed leg with a foot) to ride. Riders must step up and down into the ride vehicle and will need to transfer from a wheelchair to the ride vehicle. Due to the restraints, some larger bodied riders may not be able to ride.

Ride Access: Guests using a manual or electric wheelchair or an ECV (or a member of their party) should proceed up the exit ramp and present a valid Equal Access Pass to a Team Member at the exit to receive a wait time.

## **East River Crawler**

A quick moving circular ride that spins.

Height Restriction: Riders must be at least 36" tall to ride. Riders between 36" tall and 42" tall must ride with a rider over 54" tall. Riders are not permitted to sit on the lap of another rider.

Physical Requirements: Each rider must maintain an upright seated position, unsupported, for the duration of the ride, with their arms,

hands, legs, and feet inside the ride vehicle at all times. Riders must possess one complete arm extremity (a naturally fully formed and functioning arm with the ability to be flexed at the elbow and a minimum of three full fingers with the ability to hold on with a firm grip) and one complete leg extremity (a naturally fully formed leg with a foot) to ride. Riders must step up and down into an elevated ride vehicle and will need to transfer from a wheelchair to the ride vehicle. Due to the restraints, some larger bodied riders may not be able to ride.

Ride Access: Guests using a manual or electric wheelchair or an ECV should enter through the ride exit.

## **Fiddler's Fling**

A ride with circulating and spinning motions.

Height Restriction: Riders must be at least 36" tall to ride. Riders between 36" tall and 42" tall must ride with a rider over 54" tall. Riders are not permitted to sit on the lap of another rider.

Physical Requirements: Each rider must maintain an upright seated position, unsupported, for the duration of the ride, with their arms, hands, legs, and feet inside the ride vehicle at all times. Riders must possess one complete arm extremity (a naturally fully formed and functioning arm with the ability to be flexed at the elbow and a minimum of three full fingers with the ability to hold on with a firm grip) and one complete leg extremity (a naturally fully formed leg with a foot) to ride. Riders must step up and down into the ride vehicle and will need to transfer from a wheelchair to the ride vehicle. Due to the restraints, some larger bodied riders may not be able to ride.

Ride Access: Guests using a manual or electric wheelchair or an ECV should enter through the ride entrance.

## **Flintstone's Rocky Road Rescue Service (Camp Cartoon)**

A gentle slow moving circular ride.

Height Restriction: Riders must be 54" tall or below to ride. Riders are not permitted to sit on the lap of another rider.

Physical Requirements: Each rider must maintain an upright seated position, unsupported, for the duration of the ride, with their arms, hands, legs, and feet inside the ride vehicle at all times. Riders must possess one complete arm extremity (a naturally fully formed and functioning arm with the ability to be flexed at the elbow and a minimum of three full fingers with the ability to hold on with a firm grip) and one complete leg extremity (a naturally fully formed leg with a foot) to ride. Riders must step up and down into an elevated ride vehicle and will need to transfer from a wheelchair to the ride vehicle. Due to the restraints, some larger bodied riders may not be able to ride.

Ride Access: Guests using a manual or electric wheelchair or an ECV should enter through the ride exit.

## **Giant Drop**

An exciting elevated ride with a sudden drop.

Height Restriction: Riders must be at least 48” tall to ride.

Physical Requirements: Each rider must maintain an upright seated position, unsupported, with their head against the headrest for the duration of the ride, with their arms, hands, legs, and feet inside the ride vehicle at all times. Riders must possess one complete arm extremity (a naturally fully formed and functioning arm with the ability to be flexed at the elbow and a minimum of three full fingers with the ability to hold on with a firm grip) and one complete leg extremity (a naturally fully formed leg with a foot) to ride. For your safety and the safety of others, riders must remove medical devices including crutches, canes, prosthetics and any other type of medical assistance device that is not permanently affixed to the rider’s body to prevent hazards or loss due to ride forces. Riders must step up and down into the ride vehicle and will need to transfer from a wheelchair to the ride vehicle. Due to the restraints, some larger bodied riders may not be able to ride.

Ride Access: Guests using a manual or electric wheelchair or an ECV (or a member of their party) should proceed to the gate next to the operator booth and present a valid Equal Access Pass to the Team Member in the booth to receive a wait time.

## **Goliath**

An exciting roller coaster with high speed turns, steep drops, inversions, and sudden stops.

Height Restriction: Riders must be at least 48” tall to ride.

Physical Requirements: Each rider must maintain an upright seated position, unsupported, with their head against the headrest for the duration of the ride, with their arms, hands, legs, and feet inside the ride vehicle at all times. Riders must possess one complete arm extremity (a naturally fully formed and functioning arm with the ability to be flexed at the elbow and a minimum of three full fingers with the ability to hold on with a firm grip) and two complete leg extremities (naturally fully formed legs with feet) to ride. For your safety and the safety of others, riders must remove medical devices including crutches, canes, prosthetics and any other type of medical assistance device that is not permanently affixed to the rider’s body to prevent hazards or loss due to ride forces. Arm/leg casts are not permitted on the ride. Riders must step up and down into the ride vehicle and will need to transfer from a wheelchair to the ride vehicle. Due to the restraints, some larger bodied riders may not be able to ride.

Ride Access: Guests using a manual or electric wheelchair or an ECV (or a member of their party) should proceed up the exit ramp and present a valid Equal Access Pass to a Team Member at the exit to receive a wait time.

## **Great America Scenic Railroad**

A family ride that moves around a track with gentle turns.

Height Restriction: None. Lap children are permitted to ride with a rider over 54” tall.

Physical Requirements: Each rider must maintain an upright seated position, unsupported, for the duration of the ride, with their arms, hands, legs, and feet inside the ride vehicle at all times. Riders who cannot maintain an upright seated position, unsupported, must ride with a rider over 54” tall. Riders must step up and down into the ride vehicle and will need to transfer from a wheelchair to the ride vehicle.

Ride Access: Guests using a manual or electric wheelchair or an ECV should enter through the ride exit.

## **Hometown Fun Machine**

A moderate ride with a quick circulating motion.

Height Restriction: Riders must be at least 36" tall to ride. Riders between 36" tall and 48" tall must ride with a rider over 54" tall. Riders are not permitted to sit on the lap of another rider.

Physical Requirements: Each rider must maintain an upright seated position, unsupported, for the duration of the ride, with their arms, hands, legs, and feet inside the ride vehicle at all times. Riders must possess one complete arm extremity (a naturally fully formed and functioning arm with the ability to be flexed at the elbow and a minimum of three full fingers with the ability to hold on with a firm grip) and one complete leg extremity (a naturally fully formed leg with a foot) to ride. Riders must step up and down into an elevated ride vehicle and will need to transfer from a wheelchair to the ride vehicle. Due to the restraints, some larger bodied riders may not be able to ride.

Ride Access: Guests using a manual or electric wheelchair or an ECV should enter through the ride entrance.

## **Jester's Wild Ride**

A slow moving circular ride that has some elevation.

Height Restriction: Riders must be at least 42" tall to ride alone. Riders under 42" tall must ride with a rider over 54" tall. Riders are not permitted to sit on the lap of another rider.

Physical Requirements: Each rider must maintain an upright seated position, unsupported, for the duration of the ride, with their arms, hands, legs, and feet inside the ride vehicle at all times. Riders must possess one complete arm extremity (a naturally fully formed and functioning arm with the ability to be flexed at the elbow and a minimum of three full fingers with the ability to hold on with a firm grip) and one complete leg extremity (a naturally fully formed leg with a foot) to ride. Riders must step up and down into an elevated ride vehicle and will need to transfer from a wheelchair to the ride vehicle.

Due to the restraints, some larger bodied riders may not be able to ride.

Ride Access: Guests using a manual or electric wheelchair or an ECV should enter through the ride exit.

## **King Chaos**

An exciting elevated ride with inverted turn.

Height Restriction: Riders must be at least 54" tall and under 76" tall to ride.

Physical Requirements: Each rider must maintain an upright seated position, unsupported, with their head against the headrest for the duration of the ride, with their arms, hands, legs, and feet inside the ride vehicle at all times. Riders must possess one complete arm extremity (a naturally fully formed and functioning arm with the ability to be flexed at the elbow and a minimum of three full fingers with the ability to hold on with a firm grip) and two complete leg extremities (naturally fully formed legs with a feet) to ride. Riders must step up and down into the ride vehicle and will need to transfer from a wheelchair to the ride vehicle. Due to the restraints, some larger bodied riders may not be able to ride.

Ride Access: Guests using a manual or electric wheelchair or an ECV should enter through the ride exit.

## **Krazy Kars (Kidzopolis)**

A ride around a track with gentle turns.

Height Restriction: Riders under 36" tall must ride with a rider over 54" tall. Riders over 54" tall must ride with a rider under 54" tall. Riders are not permitted to sit on the lap of another rider.

Physical Requirements: Each rider must maintain an upright seated position, unsupported, for the duration of the ride, with their arms, hands, legs, and feet inside the ride vehicle at all times. Riders must possess one complete arm extremity (a naturally fully formed and functioning arm with the ability to be flexed at the elbow and a minimum of three full fingers with the ability to hold on with a firm grip) and one complete leg extremity (a naturally fully formed leg with

a foot) to ride. Riders must step up and down into the ride vehicle and will need to transfer from a wheelchair to the ride vehicle. Due to the restraints, some larger bodied riders may not be able to ride.

Ride Access: Guests using a manual or electric wheelchair or an ECV should enter through the ride exit.

## **Krazy Kups (Kidzopolis)**

A gentle circular ride.

Height Restriction: Riders under 36" tall must ride with a rider over 54" tall. Riders are not permitted to sit on the lap of another rider.

Physical Requirements: Each rider must maintain an upright seated position, unsupported, for the duration of the ride, with their arms, hands, legs, and feet inside the ride vehicle at all times. Riders must possess one complete arm extremity (a naturally fully formed and functioning arm with the ability to be flexed at the elbow and a minimum of three full fingers with the ability to hold on with a firm grip) and one complete leg extremity (a naturally fully formed leg with a foot) to ride. Riders must step up and down into the ride vehicle and will need to transfer from a wheelchair to the ride vehicle. Due to the restraints, some larger bodied riders may not be able to ride.

Ride Access: Guests using a manual or electric wheelchair or an ECV should enter through the ride exit.

## **Lady Bugs (Hometown Park)**

A gentle slow moving circular ride.

Height Restriction: Riders must be 54" tall or below to ride. Riders are not permitted to sit on the lap of another rider.

Physical Requirements: Riders must possess upper body control, the ability to sit in an upright position and maintain an upright posture. Riders must step up and down into the ride vehicle and will need to transfer from a wheelchair to the ride vehicle. Due to the restraints, some larger bodied riders may not be able to ride.

Ride Access: Guests using a manual or electric wheelchair or an ECV should enter through the ride exit.

## **Little Dipper**

A family coaster with gentle drops and quick turns.

Height Restriction: Riders must be at least 36" tall to ride. Riders between 36" tall and 42" tall must ride with a rider over 54" tall. Riders are not permitted to sit on the lap of another rider.

Physical Requirements: Each rider must maintain an upright seated position, unsupported, for the duration of the ride, with their arms, hands, legs, and feet inside the ride vehicle at all times. Riders must have three complete extremities to ride. A complete extremity is a complete arm (a naturally fully formed and functioning arm with the ability to be flexed at the elbow and a minimum of three full fingers with the ability to hold on with a firm grip) or a complete leg (a naturally fully formed leg with a foot). Riders must step up and down into the ride vehicle and will need to transfer from a wheelchair to the ride vehicle. Leg casts are not permitted on the ride. Due to the restraints, some larger bodied riders may not be able to ride.

Ride Access: Guests using a manual or electric wheelchair or an ECV (or a member of their party) should proceed up the exit ramp and present a valid Equal Access Pass to a Team Member at the exit to receive a wait time.

## **Logger's Run**

A family boat ride with turns, drops, and splashes.

Height Restriction: Riders under 42" tall must ride with a rider over 54" tall. Personal flotation devices may be requested prior to boarding the ride. Please see the ride attendant for more information.

Physical Requirements: Each rider must maintain an upright seated position, unsupported, for the duration of the ride, with their arms, hands, legs, and feet inside the ride vehicle at all times. Riders must possess one complete arm extremity (a naturally fully formed and functioning arm with the ability to be flexed at the elbow and a minimum of three full fingers with the ability to hold on with a firm grip) and one complete leg extremity (a naturally fully formed leg with a foot) to ride. Riders must step up and down into the ride vehicle

and will need to transfer from a wheelchair to the ride vehicle. Some larger bodied riders may not be able to ride.

Ride Access: Guests using a manual or electric wheelchair or an ECV (or a member of their party) should proceed up the exit and present a valid Equal Access Pass to a Team Member at the exit to receive a wait time. This ride was constructed before the Americans with Disabilities Act and is only accessible via stairs.

## **Orbit**

A circular ride that has elevation and a tilt.

Height Restriction: Riders must be at least 42" tall to ride.

Physical Requirements: Each rider must maintain an upright seated position, unsupported, for the duration of the ride, with their arms, hands, legs, and feet inside the ride vehicle at all times. Riders must possess one complete arm extremity (a naturally fully formed and functioning arm with the ability to be flexed at the elbow and a minimum of three full fingers with the ability to hold on with a firm grip) and one complete leg extremity (a naturally fully formed leg with a foot) to ride. Riders must step up and down into the ride vehicle and will need to transfer from a wheelchair to the ride vehicle. Due to the restraints, some larger bodied riders may not be able to ride.

Ride Access: Guests using a manual or electric wheelchair or an ECV should enter through the ride exit.

## **Raging Bull**

A high speed roller coaster with high speeds, steep drops, and high banked turns.

Height Restriction: Riders must be at least 54" tall to ride.

Physical Requirements: Each rider must maintain an upright seated position, unsupported, with their head against the headrest for the duration of the ride, with their arms, hands, legs, and feet inside the ride vehicle at all times. Riders with one amputated leg or two amputated legs (amputation above the ankle), with or without prosthesis, shall not be allowed on the ride. Riders with one amputated foot or two amputated feet (amputation below the ankle)

may ride, provided the rider has the ability to hold on with two functioning hands. Riders with one missing arm or hand may ride, provided the rider has the ability to hold on with one functioning hand and brace themselves with two functioning legs. For your safety and the safety of others, riders must remove medical devices including crutches, canes, prosthetics and any other type of medical assistance device that is not permanently affixed to the rider's body to prevent hazards or loss due to ride forces. Arm/leg casts are not permitted on the ride. Riders using a wheelchair must transfer from the wheelchair onto the ride. Due to the restraints, some larger bodied riders may not be able to ride.

Ride Access: Guests using a manual or electric wheelchair or an ECV (or a member of their party) should proceed up the exit ramp and present a valid Equal Access Pass to a Team Member at the exit to receive a wait time.

## **Red Baron (Hometown Park)**

A gentle slow moving circular ride.

Height Restriction: Riders must be 54" tall or below to ride. Riders are not permitted to sit on the lap of another rider.

Physical Requirements: Riders must possess upper body control, the ability to sit in an upright position and maintain an upright posture. Riders must step up and down into the ride vehicle and will need to transfer from a wheelchair to the ride vehicle. Due to the restraints, some larger bodied riders may not be able to ride.

Ride Access: Guests using a manual or electric wheelchair or an ECV should enter through the ride exit.

## **Revolution**

A ride with circulating and oscillating up and down motion.

Height Restriction: Riders must be at least 54" tall and under 76" tall to ride.

Physical Requirements: Each rider must maintain an upright seated position, unsupported, for the duration of the ride, with their arms, hands, legs, and feet inside the ride vehicle at all times. Riders must

possess one complete arm extremity (a naturally fully formed and functioning arm with the ability to be flexed at the elbow and a minimum of three full fingers with the ability to hold on with a firm grip) and one complete leg extremity (a naturally fully formed leg with a foot) to ride. Riders must step up and down into an elevated ride vehicle and will need to transfer from a wheelchair to the ride vehicle. Due to the restraints, some larger bodied riders may not be able to ride.

Ride Access: Guests using a manual or electric wheelchair or an ECV should enter through the ride exit.

## **Ricochet**

A moderate ride with a circulating up and down motion.

Height Restriction: Riders must be at least 42" tall to ride. Riders between 42" tall and 54" tall must ride with a rider over 54" tall. Riders are not permitted to sit on the lap of another rider.

Physical Requirements: Each rider must maintain an upright seated position, unsupported, for the duration of the ride, with their arms, hands, legs, and feet inside the ride vehicle at all times. Riders must possess one complete arm extremity (a naturally fully formed and functioning arm with the ability to be flexed at the elbow and a minimum of three full fingers with the ability to hold on with a firm grip) and one complete leg extremity (a naturally fully formed leg with a foot) to ride. Riders must step up and down into an elevated ride vehicle and will need to transfer from a wheelchair to the ride vehicle. Due to the restraints, some larger bodied riders may not be able to ride.

Ride Access: Guests using a manual or electric wheelchair or an ECV should enter through the ride entrance.

## **River Rocker**

A moderate ride with a rocking back and forth motion.

Height Restriction: Riders must be at least 36" tall to ride. Riders between 36" tall and 48" tall must ride with a rider over 54" tall. Riders are not permitted to sit on the lap of another rider.

Physical Requirements: Each rider must maintain an upright seated position, unsupported, with their head against the headrest for the duration of the ride, with their arms, hands, legs, and feet inside the ride vehicle at all times. Riders must possess one complete arm extremity (a naturally fully formed and functioning arm with the ability to be flexed at the elbow and a minimum of three full fingers with the ability to hold on with a firm grip) and two complete leg extremities (naturally fully formed legs with a feet) to ride. Riders must step up and down into the ride vehicle and will need to transfer from a wheelchair to the ride vehicle. Due to the restraints, some larger bodied riders may not be able to ride.

Ride Access: Guests using a manual or electric wheelchair or an ECV should enter through the ride entrance.

## **Roaring Rapids**

A family raft ride through white water with splashes and turns.

Height Restriction: Riders must be at least 36" tall to ride. Riders between 36" tall and 48" tall must ride with a rider over 54" tall. Riders are not permitted to sit on the lap of another rider. Personal flotation devices may be requested prior to boarding the ride. Please see the ride attendant for more information.

Physical Requirements: Each rider must maintain an upright seated position, unsupported, for the duration of the ride, with their arms, hands, legs, and feet inside the ride vehicle at all times. Riders must possess one complete arm extremity (a naturally fully formed and functioning arm with the ability to be flexed at the elbow and a minimum of three full fingers with the ability to hold on with a firm grip) and one complete leg extremity (a naturally fully formed leg with a foot) to ride. Riders must step up and down into the ride vehicle and will need to transfer from a wheelchair to the ride vehicle.

Ride Access: Guests using a manual or electric wheelchair or an ECV (or a member of their party) should proceed up the exit and present a valid Equal Access Pass to a Team Member at the exit to receive a wait time. This ride was constructed before the Americans with Disabilities Act and is only accessible via stairs.

## **Rue Le Dodge**

A moderate ride with a circulating up and down motion.

Height Restriction: Riders must be at least 42" tall to ride. Riders between 42" tall and 54" tall must ride with a rider over 54" tall. Riders must be 54" tall to drive. Riders are not permitted to sit on the lap of another rider.

Physical Requirements: Each rider must maintain an upright seated position, unsupported, for the duration of the ride, with their arms, hands, legs, and feet inside the ride vehicle at all times. Riders must possess one complete arm extremity (a naturally fully formed and functioning arm with the ability to be flexed at the elbow and a minimum of three full fingers with the ability to hold on with a firm grip) and one complete leg extremity (a naturally fully formed leg with a foot) to ride. Riders must step up and down into an elevated ride vehicle and will need to transfer from a wheelchair to the ride vehicle. Due to the restraints, some larger bodied riders may not be able to ride.

Ride Access: Guests using a manual or electric wheelchair or an ECV should enter next to the ride entrance.

## **Scooby Doo's Mystery Machine (Camp Cartoon)**

A gentle ride with circular up and down motion.

Height Restriction: Riders must be 42" tall to ride alone. Riders under 42" tall must ride with a rider over 54" tall. Riders over 54" tall must ride with a rider under 54" tall. Riders are not permitted to sit on the lap of another rider.

Physical Requirements: Each rider must maintain an upright seated position, unsupported, for the duration of the ride, with their arms, hands, legs, and feet inside the ride vehicle at all times. Riders must possess one complete arm extremity (a naturally fully formed and functioning arm with the ability to be flexed at the elbow and a minimum of three full fingers with the ability to hold on with a firm grip) and one complete leg extremity (a naturally fully formed leg with a foot) to ride. Leg casts are not permitted on this ride. Riders must step up and down into the ride vehicle and will need to transfer from a wheelchair to the ride vehicle. Due to the restraints, some larger bodied riders may not be able to ride.

Ride Access: Guests using a manual or electric wheelchair or an ECV should enter through the ride exit.

## **Sky Trek Tower**

An elevator ride to the viewing area at the top of the ride.

Height Restriction: None. Lap children are permitted to ride with a rider over 54" tall.

Physical Requirements: Each rider must maintain an upright seated position for the duration of the ride, with their arms, hands, legs, and feet inside the ride vehicle at all times. Riders who cannot maintain an upright seated position, unsupported, must ride with a rider over 54" tall. Riders will need to transfer from a wheelchair to the ride vehicle.

Ride Access: Guests using a manual or electric wheelchair or an ECV should enter through the ride exit.

## **Spacely's Sprocket Rockets (Camp Cartoon)**

A family roller coaster with gentle drops and quick turns.

Height Restriction: Riders must be at least 36" tall to ride. Riders are not permitted to sit on the lap of another rider.

Physical Requirements: Each rider must maintain an upright seated position, unsupported, for the duration of the ride, with their arms, hands, legs, and feet inside the ride vehicle at all times. Riders must have three complete extremities to ride. A complete extremity is a complete arm (a naturally fully formed and functioning arm with the ability to be flexed at the elbow and a minimum of three full fingers with the ability to hold on with a firm grip) or a complete leg (a naturally fully formed leg with a foot). Riders must step up and down into the ride vehicle and will need to transfer from a wheelchair to the ride vehicle. Leg casts are not permitted on the ride. Due to the restraints, some larger bodied riders may not be able to ride.

Ride Access: Guests using a manual or electric wheelchair or an ECV should enter through the ride exit.

## **Splish Splash Zone (Kidzopolis)**

Children's water play area.

Height Restriction: None

Physical Requirements: No Restrictions

## **Splish Splash Zone Ship (Kidzopolis)**

Children's soft play area.

Height Restriction: None

Physical Requirements: No restrictions

Ride Access: Due to the nature of this attraction, it is only accessible via stairs.

## **Superman – Ultimate Flight**

An exciting roller coaster with high speeds, steep drops, fast turns, inverted loops, and sudden stops.

Height Restriction: Riders must be at least 54" tall to ride.

Physical Requirements: Each rider must maintain an upright seated position, unsupported, with their head against the headrest for the duration of the ride, with their arms, hands, legs, and feet inside the ride vehicle at all times. Riders must possess one complete arm extremity (a naturally fully formed and functioning arm with the ability to be flexed at the elbow and a minimum of three full fingers with the ability to hold on with a firm grip) and two complete leg extremities (naturally fully formed legs with a feet) to ride. For your safety and the safety of others, riders must remove medical devices including crutches, canes, prosthetics and any other type of medical assistance device that is not permanently affixed to the rider's body to prevent hazards or loss due to ride forces. Arm/leg casts are not permitted on the ride. Riders using a wheelchair must transfer from the wheelchair onto the ride. Due to the restraints, some larger bodied riders may not be able to ride.

Ride Access: Guests using a manual or electric wheelchair or an ECV (or a member of their party) should proceed up the exit ramp

SMRH:408120228.1

and present a valid Equal Access Pass to a Team Member at the exit to receive a wait time.

## **Tot's Livery (Hometown Park)**

A gentle slow moving circular ride.

Height Restriction: Riders must be 54" tall or below to ride. Riders are not permitted to sit on the lap of another rider.

Physical Requirements: Riders must possess upper body control, the ability to sit in an upright position and maintain an upright posture. Riders must step up and down into the ride vehicle and will need to transfer from a wheelchair to the ride vehicle. Due to the restraints, some larger bodied riders may not be able to ride.

Ride Access: Guests using a manual or electric wheelchair or an ECV should enter through the ride exit.

## **Triple Play**

A moderate ride with quick circular motion.

Height Restriction: Riders must be at least 36" tall to ride. Riders between 36" tall and 42" tall must ride with a rider over 54" tall. Riders are not permitted to sit on the lap of another rider.

Physical Requirements: Each rider must maintain an upright seated position, unsupported, for the duration of the ride, with their arms, hands, legs, and feet inside the ride vehicle at all times. Riders must possess one complete arm extremity (a naturally fully formed and functioning arm with the ability to be flexed at the elbow and a minimum of three full fingers with the ability to hold on with a firm grip) and one complete leg extremity (a naturally fully formed leg with a foot) to ride. Riders must step up and down into an elevated ride vehicle and will need to transfer from a wheelchair to the ride vehicle. Due to the restraints, some larger bodied riders may not be able to ride.

Ride Access: Guests using a manual or electric wheelchair or an ECV should enter through the ride exit.

## **Up Up and Away (Kidzopolis)**

A gentle circular ride with some elevation.

Height Restriction: Riders under 42" tall must ride with a rider over 54" tall. Riders are not permitted to sit on the lap of another rider.

Physical Requirements: Each rider must maintain an upright seated position, unsupported, for the duration of the ride, with their arms, hands, legs, and feet inside the ride vehicle at all times. Riders must possess one complete arm extremity (a naturally fully formed and functioning arm with the ability to be flexed at the elbow and a minimum of three full fingers with the ability to hold on with a firm grip) and one complete leg extremity (a naturally fully formed leg with a foot) to ride. Riders must step up and down into an elevated ride vehicle and will need to transfer from a wheelchair to the ride vehicle. Due to the restraints, some larger bodied riders may not be able to ride.

Ride Access: Guests using a manual or electric wheelchair or an ECV should enter through the ride exit.

## **V<sup>2</sup> – Vertical Velocity**

An intense roller coaster with quick acceleration, high speeds, steep drops, fast turns, and inverted turns.

Height Restriction: Riders must be at least 54" tall and under 80" tall to ride.

Physical Requirements: Each rider must maintain an upright seated position, unsupported, with their head against the headrest for the duration of the ride, with their arms, hands, legs, and feet inside the ride vehicle at all times. Riders must possess three complete extremities to ride. A complete extremity is a complete arm (a naturally fully formed and functioning arm with the ability to be flexed at the elbow and a minimum of three full fingers with the ability to hold on with a firm grip) or a complete leg (a naturally fully formed leg with a foot). For your safety and the safety of others, riders must remove medical devices including crutches, canes, prosthetics and any other type of medical assistance device that is not permanently affixed to the rider's body to prevent hazards or loss due to ride forces. Riders using a wheelchair must transfer from the wheelchair onto the ride. Due to the restraints, some larger bodied riders may not be able to ride.

SMRH:408120228.1

Ride Access: Guests using a manual or electric wheelchair or an ECV (or a member of their party) should proceed up the exit ramp and present a valid Equal Access Pass to a Team Member at the exit to receive a wait time.

## **Viper**

An exciting roller coaster with high speed turns and steep drops and sudden stops.

Height Restriction: Riders must be at least 48" tall to ride.

Physical Requirements: Each rider must maintain an upright seated position, unsupported, with their head against the headrest for the duration of the ride, with their arms, hands, legs, and feet inside the ride vehicle at all times. Riders must possess one complete arm extremity (a naturally fully formed and functioning arm with the ability to be flexed at the elbow and a minimum of three full fingers with the ability to hold on with a firm grip) and two complete leg extremities (naturally fully formed legs with a feet) to ride. For your safety and the safety of others, riders must remove medical devices including crutches, canes, prosthetics and any other type of medical assistance device that is not permanently affixed to the rider's body to prevent hazards or loss due to ride forces. Riders must step up and down into the ride vehicle and will need to transfer from a wheelchair to the ride vehicle. Due to the restraints, some larger bodied riders may not be able to ride.

Ride Access: Guests using a manual or electric wheelchair or an ECV (or a member of their party) should proceed up the exit ramp and present a valid Equal Access Pass to a Team Member at the exit to receive a wait time.

## **Whirligig**

A moderate ride with quick circular motion.

Height Restriction: Riders must be at least 48" tall to ride.

Physical Requirements: Each rider must maintain an upright seated position, unsupported, for the duration of the ride, with their arms, hands, legs, and feet inside the ride vehicle at all times. Riders must possess one complete arm extremity (a naturally fully formed and

functioning arm with the ability to be flexed at the elbow and a minimum of three full fingers with the ability to hold on with a firm grip) and one complete leg extremity (a naturally fully formed leg with a foot) to ride. Riders must step up and down into an elevated ride vehicle and will need to transfer from a wheelchair to the ride vehicle. Due to the restraints, some larger bodied riders may not be able to ride.

Ride Access: Guests using a manual or electric wheelchair or an ECV should enter through the ride exit.

## **Whizzer**

A high speed roller coaster with sudden turns and drops.

Height Restriction: Riders must be at least 36" tall to ride. Riders between 36" tall and 42" tall must ride with a rider over 54" tall.

Physical Requirements: Each rider must maintain an upright seated position, unsupported, with their head against the headrest for the duration of the ride, with their arms, hands, legs, and feet inside the ride vehicle at all times. Riders must possess one complete arm extremity (a naturally fully formed and functioning arm with the ability to be flexed at the elbow and a minimum of three full fingers with the ability to hold on with a firm grip) and two complete leg extremities (naturally fully formed legs with a feet) to ride. Riders must step up and down into the ride vehicle and will need to transfer from a wheelchair to the ride vehicle. Due to the restraints, some larger bodied riders may not be able to ride.

Ride Access: Guests using a manual or electric wheelchair or an ECV (or a member of their party) should proceed up the exit and present a valid Equal Access Pass to a Team Member at the exit to receive a wait time. This ride was constructed before the Americans with Disabilities Act and is only accessible via stairs.

## **Winner's Circle Go Karts**

A driving attraction with sharp turns, sudden stops, and possible bumps.

Height Restriction: Riders must be at least 58" tall to drive. Passengers must be at least 42" to ride. Drivers carrying a

passenger must be 18 years old or the parent or legal guardian of the passenger. This does not apply if the passenger is an eligible driver.

Physical Requirements: Each rider must maintain an upright seated position, unsupported, with their head against the headrest during the duration of the ride and their arms, hands, legs, and feet inside the ride vehicle at all times. Drivers must possess two complete arm extremities (a naturally fully formed and functioning arm with the ability to be flexed at the elbow and a minimum of three full fingers with the ability to hold on with a firm grip) and two complete leg extremities (a naturally fully formed leg with a foot) to ride. Drivers must have the ability to hold and turn the steering wheel and press the foot pedal. Passengers must have at least three complete extremities to ride. Passengers must have the ability to brace themselves. Riders must step up and down into the ride vehicle and will need to transfer from a wheelchair to the ride vehicle.

Ride Access: Guests using a manual or electric wheelchair or an ECV should enter next to the exit.

(A fee is required for Winner's Circle Go Karts. Tickets are available for purchase at the Winner's Circle Go Karts entrance.)

## **X Flight**

An exciting roller coaster with high speeds, steep drops, fast turns, inverted loops, and sudden stops.

Height Restriction: Riders must be at least 54" tall and under 78" tall to ride.

Physical Requirements: Each rider must maintain an upright seated position, unsupported, with their head against the headrest for the duration of the ride, with their arms, hands, legs, and feet inside the ride vehicle at all times. Riders with one amputated leg or two amputated legs (amputation above the knee), with or without prosthesis, shall not be allowed on the ride. Riders with one amputated leg or two amputated legs (amputation below the knee) may ride provided such rider has the ability to hold on with two functioning hands. A rider with one missing arm or hand may ride, provided such rider has the ability to hold on with one functioning hand and to brace self with two functioning legs. For your safety and the safety of others, riders must remove medical devices including

crutches, canes, prosthetics and any other type of medical assistance device that is not permanently affixed to the rider's body to prevent hazards or loss due to ride forces. Arm/leg casts are not permitted on the ride. Riders using a wheelchair must transfer from the wheelchair onto the ride. Due to the restraints, some larger bodied riders may not be able to ride.

Ride Access: Guests using a manual or electric wheelchair or an ECV (or a member of their party) should proceed up the exit ramp and present a valid Equal Access Pass to a Team Member at the exit to receive a wait time.

## **Yankee Clipper**

A family boat ride with turns, drops, and splashes.

Height Restriction: Riders under 42" tall must ride with a rider over 54" tall. Personal flotation devices may be requested prior to boarding the ride. Please see the ride attendant for more information.

Physical Requirements: Each rider must maintain an upright seated position, unsupported, for the duration of the ride, with their arms, hands, legs, and feet inside the ride vehicle at all times. Riders must possess one complete arm extremity (a naturally fully formed and functioning arm with the ability to be flexed at the elbow and a minimum of three full fingers with the ability to hold on with a firm grip) and one complete leg extremity (a naturally fully formed leg with a foot) to ride. Riders must step up and down into the ride vehicle and will need to transfer from a wheelchair to the ride vehicle. Some larger bodied riders may not be able to ride.

Ride Access: Guests using a manual or electric wheelchair or an ECV should proceed up the exit and present a valid Equal Access Pass to a Team Member at the exit to receive a wait time. This ride was constructed before the Americans with Disabilities Act and is only accessible via stairs.

## **Yogi Bear's Yahoo River (Camp Cartoon)**

A gentle slow moving circular ride.

Height Restriction: Riders must be 54" tall or below to ride. Riders are not permitted to sit on the lap of another rider.

Physical Requirements: Riders must possess upper body control, the ability to sit in an upright position and maintain an upright posture. Riders must step up and down into the ride vehicle and will need to transfer from a wheelchair to the ride vehicle. Due to the restraints, some larger bodied riders may not be able to ride.

Ride Access: Guests using a manual or electric wheelchair or an ECV should enter through the ride exit.

## **Zoomjets (Kidzopolis)**

A slow moving circular ride with mild up and down motion.

Height Restriction: Riders under 48" tall must ride with a rider over 54" tall. Riders are not permitted to sit on the lap of another rider.

Physical Requirements: Each rider must maintain an upright seated position, unsupported, for the duration of the ride, with their arms, hands, legs, and feet inside the ride vehicle at all times. Riders must possess one complete arm extremity (a naturally fully formed and functioning arm with the ability to be flexed at the elbow and a minimum of three full fingers with the ability to hold on with a firm grip) and one complete leg extremity (a naturally fully formed leg with a foot) to ride. Riders must step up and down into an elevated ride vehicle and will need to transfer from a wheelchair to the ride vehicle. Due to the restraints, some larger bodied riders may not be able to ride.

Ride Access: Guests using a manual or electric wheelchair or an ECV should enter through the ride exit.
