ST. LOUIS

**SAFETY &
ACCESSIBILITY
GUIDE**

FOR MORE INFORMATION PLEASE VISIT GUEST RELATIONS

INTRODUCTION:

We are thrilled you have chosen to spend your day at Six Flags! Our goal is to make your visit fun and memorable. This Six Flags Guest Safety and Accessibility Guide includes important information to assist Guests with planning their visit to the park and enjoy its various attractions, rides, services and amenities. In this Guide, Guests will find specific information for individuals with disabilities along with general policies and guidelines.

We work closely with the manufacturer of each of our rides and our policies incorporate the manufacturers' guidelines as well as the requirements of the Americans With Disabilities Act. We hope that this Guide will help Guests make the best choices to ensure a safe, comfortable and convenient experience at the park. If, at any time, Guests need additional assistance or a further explanation of our policies and guidelines, they should feel free to ask any Six Flags Team Member.

Our goal is to safely and efficiently accommodate the needs of all Guests, including individuals with disabilities. This Guide, along with the availability of our Team Members to answer any questions and offer assistance, will allow Guests to have a thrilling and safe day at the park.

GENERAL WARNING:

We are committed to providing you a safe environment during your visit to Six Flags. While there are inherent risks to participating in any amusement park ride or attraction, our goal is to ensure your safety with the incorporation of some restrictions. For your safety, you should be in good health to ride. Only you know your physical conditions or limitations.

Many amusement park rides incorporate safety systems designed by the manufacturer to accommodate people of average physical stature and body proportion. These safety systems may place restrictions on the ability of a Guest to safely be contained within the ride restraint. Extremely large or small individuals, Guests who have heart, back or neck trouble or conditions, pregnant women, people who have had recent surgery or an illness, people with casts, braces, restrictive devices or certain disabilities may not be safely accommodated by certain ride systems. For example, height requirements are based on the size needed for safety restraints to

function properly and the level of maturity usually associated with a certain height.

If you suspect your health could be at risk for any reason, or you could aggravate a pre-existing condition of any kind, **DO NOT RIDE**. The specific features, rider requirements and health restrictions of each ride are described later in this Guide.

In order to ride, all Guests must be able to maintain the proper riding position, meet the ride requirements and appropriately utilize the restraint systems, including lap bars, shoulder harnesses and seatbelts as indicated. All Guests must also be able to demonstrate a willingness and ability to comply with verbal and written rider requirements.

Six Flags reserves the right to make the final determination regarding eligibility of a Guest to ride a particular ride based on the Guest's size, weight, height or other limitations. Information in this Guide is subject to change.

RIDER RESPONSIBILITY:

All Guests have a duty to exercise good judgment and act in a responsible manner while participating on a ride or attraction and to obey all verbal and written warnings and instructions. Guests also have a duty to properly use all ride and attraction safety equipment provided.

PARKING:

Accessible parking is available on a first-come, first-serve basis within the main parking lots of the park. When you arrive at the parking toll booths, ask a Team Member for instructions regarding where to proceed to the accessible parking lot. Both auto and van accessible spaces are provided. A valid disabled persons parking placard or license plate must be displayed at all times while parked in the designated accessible parking area. If the designated accessible parking area is full at the time of your arrival, members of your party may be dropped off at the main pick-up/drop-off area, near the main entrance to the park. Please ask a Team Member for directions to additional parking areas.

WHEELCHAIRS AND ELECTRIC CONVENIENCE VEHICLES (ECV'S):

Wheelchairs and electric convenience vehicles (ECV's) are available for rent at Guest Relations. A deposit is also required. Guests may also use their own wheelchairs or ECV's. Battery recharging is also available at Guest Relations.

Guests using wheelchairs or ECV's may utilize any ticket window and designated turnstiles to enter the park. Many of the park's shopping and dining facilities are also wheelchair accessible. Many of the rides and attractions have queues that are accessible to Guests using manual wheelchairs. If an alternate entrance is required, these entrances are generally at the ride exit and are identified by a sign with the universal wheelchair symbol. Please keep in mind that there are specific boarding requirements and accommodations for those using wheelchairs at each ride or attraction.

SEGWAY:

Due to varying walkways, terrains and large crowds, we cannot permit the use of two-wheeled, self-balancing electric vehicles such as Segways. We are pleased to offer other forms of transportation, including ECV's and standard wheelchairs. Please contact Guest Relations for more information.

SERVICE ANIMALS:

Trained service animals are welcome at our Six Flags Theme Parks. Service animals are defined as dogs that are individually trained to do work or perform tasks for people with disabilities. Examples of such work or tasks include guiding people who are blind, alerting people who are deaf, pulling a wheelchair, alerting and protecting a person who is having a seizure, reminding a person with mental illness to take prescribed medications, calming a person with Post Traumatic Stress Disorder (PTSD) during an anxiety attack, or performing other duties. Service animals are working animals, not pets. The work or task a dog has been trained to provide must be directly related to the person's disability. Dogs whose sole function is to provide comfort or emotional support do not qualify as service animals. Miniature horses that have been individually trained to do or

perform tasks for people with disabilities will qualify as service animals.

Service animals must be house broken and remain on a leash or harness and under the control of their handler at all times. Owners are responsible for disposing of their animal's waste. Guests whose service animal demonstrates aggressive and/or annoying actions toward a Guest or Team Member will be directed to remove the animal from the park.

Service animals are welcome in most locations of the park. Most of our rides are not equipped or designed for accessibility to service animals. Therefore, a member of your party must be available to stay with the animal while you ride. Service animals are allowed on the following rides: Tommy G Robertson Railroad, Colossus and the Grand Ole Carousel.

Guests may take advantage of our Kid Swap policy for staying with their service animal. However, park Team Members will not take responsibility for, or provide care to any service animal. Refer to the section on Kid Swap for more information.

Service Animal "Relief Areas" are located in the grassy areas outside of the Metal Detection location at the Front Gate, to the left of the Palace Arcade and next to the smoking area inside Hurricane Harbor (this location only available during waterpark operating hours). Owners are responsible for disposing of their animal's waste. Please look for this designated sign:

RESTROOMS:

Most restrooms within the park are accessible for Guests using wheelchairs. Please check the park map for locations. The park's Team Members or Guest Relations can provide location directions should you need companion restrooms during your visit.

ALTERNATE ACCESS:

Most of the park's theaters, attractions, restaurants and shops are accessible to wheelchairs. Most, if not all rides require transfer from the wheelchair to the ride seat. Special access entrances are available to accommodate Guests with mobility aides and service animals. These special entrances are generally at the ride exit and are identified by a sign with the universal wheelchair symbol.

Entry, Exit and Transfer must be accomplished independently by the Guest or with the assistance of a member from his/her party. Six Flags Team Members are not trained in lifting or carrying persons with disabilities and are therefore not permitted to assist Guests on or off the rides. Not all rides have alternate access. If in doubt, please contact the Ride Attendant or Guest Relations for more information.

ATTRACTION ACCESSIBILITY PROGRAM:

Our goal is to safely accommodate the needs of all Guests. Our policies comply with the Americans with Disabilities Act (ADA) and applicable state laws.

Six Flags' Attraction Accessibility Program is designed to accommodate guests with disabilities or certain other qualifying impairments so they may participate in the enjoyment of our Parks. Each attraction at Six Flags has been evaluated for the criteria necessary for an individual to ride safely. Our ridership criteria (set forth on page 7 of this Guide) is based on the requirements of the attraction manufacturer and the ability of guests to utilize all safety restraints and devices as designed, while maintaining the proper riding position throughout the duration of the ride. It is our policy to allow anyone to ride who meets all of these requirements and does not cause or create a legitimate safety concern to herself/himself or others. Our Attraction Accessibility Program matches the individual abilities of our guests to the ridership criteria for each attraction.

The Attraction Accessibility Program is an accommodation designed to provide equal access to Park attractions and not to bypass other guests waiting in the standard queue.

The following procedures apply to guests who wish to participate in our Attraction Accessibility Program:

1. Guests can visit our Ride Information Center (Guest Services) to obtain Six Flags' Safety & Accessibility Guide to review the rider requirements of each ride or attraction. This Guide is also available on our website at www.sixflags.com.
2. To obtain an Attraction Access Pass guests with disabilities, mobility impairments or certain other qualifying impairments should visit the Ride Information Center (Guest Services) inside the Park. Such guest will be required to present a valid doctor's note in order to receive an Attraction Access Pass. The doctor's note must include the name of the individual requesting the AAP, doctor's name, address, phone number and their signature on their letter head that includes their medical ID number, along with a statement indicating the guest has a disability or other qualifying impairment under the Americans with Disabilities Act (ADA) and/or applicable state law that prevents the guest from waiting in a standard queue. Please note that the nature of the disability should not be provided in the doctor's note. If the disability is of a temporary nature, the doctor's note should state the time period of the temporary disability. A photo identification must be presented at the time of issuances, (for children 12 and under, photo ID of the parent or guardian would be accepted).
3. In an effort to provide equal treatment to all of our guests, only those guests with a disability or other qualifying impairment and up to three (3) riding companions will be allowed to access attractions through the alternate entrance. If the guest's party is larger than four (4) guests, the other members of the party will be required to enter the ride or attraction through the standard queue.
4. To use the Attraction Access Pass, the guest should proceed to the attraction's alternate entrance and show the attraction attendant the Attraction Access Pass. The attraction attendant will document a reservation time that is comparable to the current wait time for the same ride/attraction. The guest, and up to three (3) riding companions, can then return to the attraction, using the alternate entrance, at the time of the reservation in order to ride.

A guest using an Attraction Access Pass may rest in a comfortable location or enjoy other attractions in the area until the assigned reservation time has come or when the others from the guest's party waiting in the standard queue reach the boarding platform. There is a 15 minute grace period for late arrivals.

A guest with an Attraction Access Pass must ride in order for the guest's companions to utilize the Attraction Access Pass to enter the attraction through the alternate entrance. If the guest with an Attraction Access Pass chooses not to ride, the guest's companions must wait in the standard queue.

Attraction Access Passes are not designed to bypass or "skip" the standard queue and the wait will be equal to the posted wait times. Individuals found to be fraudulently using the Attraction Access Pass will be in violation of our Guest Code of Conduct and may be subject to civil penalties. Violators may also be asked to leave the Park without any refund.

MEDICAL DEVICES AND MOBILITY AIDES:

For your safety and the safety of others, riders may be required to remove medical devices, half or full length orthotics, braces, crutches, canes, prosthetics and any other type of medical assistance device that is not permanently affixed to the rider's body to prevent hazards or loss due to ride forces. These devices prevent safety restraints from working as designed, keep the rider from maintaining the proper riding posture, and present a hazard to the rider or others. If in doubt about your ability to safely experience a ride or attraction, please refer to the Rider Requirement Sign at the ride entrance. You may also consult with a Ride Attendant or Guest Relations for more information.

Please also refer to the "Ride Information" section of this Guide for specific information regarding removal of medical devices and mobility aides on a ride by ride basis. If you have any questions, please ask a Ride Attendant or visit Guest Relations.

LARGER FRAMED GUESTS:

Many rides incorporate safety systems designed by the manufacturer to accommodate people of average physical stature and body

proportion. These systems may place restrictions on the ability of an individual to safely experience the ride.

In order to ride, all seatbelts, lap bars, and shoulder harnesses must be positioned and fastened properly. Due to rider restraint system requirements, Guests of a larger size may not be accommodated on some rides.

KID SWAP:

The Kid Swap program is designed to accommodate groups with younger children who may not be tall enough to ride some attractions. To participate: 1) The entire party should enter the ride queue; 2) When preparing to board, tell the Ride Attendant you are using the Kid Swap program; 3) Children who are not tall enough to ride may wait at the exit with an adult from your party; 4) After the first ride is completed, the adult who waited with the child will be allowed to ride.

RIDE RATINGS AND WARNINGS:

Ride warning signs can be found at the entrance of each ride to help determine the attractions that are best for Guests based upon their experience level, physical condition and abilities. Information on each ride can also be found on the Park Map and Guide.

Key to Symbols:

GENERAL INFORMATION

FRIGHT FEST:

Theatrical fog effects, areas of low lighting, loud music, sound effects, and theatrical and strobe lighting are used throughout the park during Fright Fest. This includes streets, midways, outdoor scare zones, mazes and haunted houses both indoor and outdoor, live entertainment venues and children's attractions.

Guests with respiratory sensitivities, history of seizures or epilepsy, or sensitivities to latex, loud music and sound effects are advised not to participate in these attractions. Please adhere to all posted and verbal warnings and directions.

FAMILY SERVICES/NURSING MOTHERS:

A private room for nursing mothers is available upon request. Baby changing areas and a companion restroom can be found in most restrooms. Please feel free to ask a Team Member for directions to these locations or review a park map.

HEARING DISABILITIES: Assisted listening devices are available upon request. Please see Guest Relations for additional information.

American Sign Language Interpreting will be available if requested at least 7 days in advance of your visit. To arrange for sign language interpreting services, please call the Security office at 636-938-5300 extension 5555 Monday through Friday 9:00am to 5:00pm.

PREGNANCY:

Guests who know or believe they may be pregnant should follow all rules, guidelines and restrictions listed for each ride. Those who are pregnant should not ride a ride that specifically lists pregnancy as a rider restriction. Please closely review all rules and guidelines at the entrance of each ride.

RESTAURANTS:

The park's restaurants offer a variety of food options. Assistance is available upon request. Exceptions are made for Guests with special dietary needs including food allergies and baby food/formula.

Guests should contact Park Security or Guest Relations upon arrival at the park for approval to bring in special dietary foods. The special dietary food containers will be marked and dated to clearly show that they have been approved for entry into the park.

FIRST AID:

Emergency Medical Technicians or Paramedics are on duty during all park operating hours. If you require medical assistance, ask any Team Member and they will summon medical personnel to your location. Please refer to your Park Map and Guide for the location of First Aid.

OXYGEN TANKS/AIR CONCENTRATORS:

Due to the dynamics and certain characteristics of the rides, oxygen tanks or portable systems are not permitted on most of our rides and attractions. Oxygen tanks are permitted in enclosed facilities. For your convenience, the park's First Aid station(s) will be able to appropriately store your additional oxygen tanks during your visit.

SPECIAL EFFECTS AT THEATERS, RIDES AND ATTRACTIONS:

Theatrical fog and other effects, including but not limited to: haze and other atmospheric effects, scents, areas of low lighting, loud music, sound effects, theatrical lighting and strobe lighting may be used at various locations in the park such as theaters and during Fright Fest. Guests with respiratory sensitivities, history of seizure or epilepsy, or sensitivities to latex, loud music and sound effects are advised not to participate in these attractions. Please adhere to all posted and verbal warnings and directions.

RIDE INFORMATION

CAMERAS:

Picture taking and the use of cameras and video recording devices is not permitted on any ride, while it is in motion. It is encouraged that Guests leave their equipment with a non-rider or secure it in a locker or their vehicle. Lockers are available to store items for a nominal fee. Guests must have written permission to use photographs and/or

recordings of any aspect of the park for commercial broadcasting, advertising, marketing, or publishing in any medium.

FULL BODY HARNESS:

The safety of our guests and employees is always our highest priority and we strive to provide a fun, safe experience for all guests. In an effort to better accommodate the needs of guests with certain disabilities, we have worked with ride manufacturers to develop safety harnesses for select rides in our park. Riders who do not meet certain extremity requirements may be able to ride Batman The Ride utilizing the full body harness [if all requirements are met]. Our ride operators have been trained to assist guests with the harnesses to ensure their safety and enjoyment.

RIDE EVACUATIONS:

If a ride evacuation is necessary, Guests may need to negotiate stairs from the highest points of the ride down steeply inclined stairs or walking surfaces. Guests requiring assistance during the ride evacuation may be escorted last in order to expedite the ride evacuation process. Please ask a Ride Attendant about the specific procedures prior to boarding a particular ride.

Definitions: Every ride entrance lists height requirements and special instructions regarding the ride. Six Flags uses the following terms:

Responsible Person (Adult): A responsible person is someone who meets all the requirements to ride the ride themselves and is at least 54" tall or taller.

Accompanied By: Whenever a Guest needs accompaniment, the accompanying person must meet all the ride requirements and be able to assist the Guest including helping the Guest to board and exit the ride and assisting the Guest down stairs, catwalks, or ladders in case of an evacuation.

Lap Child: A lap child is a child who is unable to walk to the ride independently or maintain independent seated postural control.

Functioning Extremity: A functioning extremity is a limb over which a person has control. A prosthetic device is not considered a functioning extremity. Six Flags has additional requirements regarding prosthetic devices. Please see the information for each specific ride in the Ride Information section of this Guide.

Ability to hold on or brace: Ability to use one's arms to maintain a grasp on an assist bar and support one's body during normal and emergency procedures on a ride and to use one's legs to brace to maintain a seated position during the ride.

Functioning Arm is a full arm with the ability to be flexed at the elbow and a minimum of three full fingers with the ability to hold on with a firm grip. Functioning leg is a leg with a foot.

American Thunder

An exciting coaster with high speed turns and steep drops and sudden stops.

Height Restriction: Riders must be at least 48" tall to ride.

Physical Requirements: Each rider must maintain in an upright seated position with their head against the headrest during the duration of the ride and their arms, hands, legs, and feet inside the

ride vehicle at all times. In addition, riders must possess at least one (1) functioning arm absent of prosthetic devices and two (2) functioning legs absent of prosthetic devices. No prosthetics are allowed. For your safety and the safety of others, riders must remove medical devices including half or full length orthotics, braces, crutches, canes, prosthetics and any other type of medical assistance device that is not permanently affixed to the rider's body to prevent hazards or loss due to ride forces. Riders must step up and down into the ride vehicle and will need to transfer from a wheelchair to the ride vehicle.

Ride Access: Riders using a manual or electric wheelchair or an ECV should enter through the Alternate Access Entrance located to the left of the ride entrance.

Batman: The Ride

An exciting ride with high speeds, steep drops, fast turns, inverted loops and sudden stops.

Height Restriction: Riders must be at least 54" tall to ride.

Physical Requirements: Each rider must maintain in an upright seated position with their head against the headrest during the duration of the ride and their arms, hands, legs, and feet inside the ride vehicle at all times. In addition riders with one amputated foot or two amputated feet (amputation below the knee) may ride provided the rider has ability to hold on with two functioning hands. Riders with one missing arm or hand may ride, provided rider has ability to hold on with one functioning hand and brace themselves with two functioning legs. No casts are allowed. No prosthetics are allowed. For your safety and the safety of others, riders must remove medical devices including half or full length orthotics, braces, crutches, canes, prosthetics and any other type of medical assistance device that is not permanently affixed to the rider's body to prevent hazards or loss due to ride forces. Riders must have control of their leg(s). Riders using a wheelchair must transfer from the wheelchair onto the ride. Riders who do not meet the extremity requirements may be able to ride Batman The Ride by utilizing a full body harness, if all other requirements are met.

Ride Access: Riders using a manual or electric wheelchair or an ECV should enter through the Alternate Access Entrance located at the ride exit.

Boomerang

An exciting coaster with high speed turns and steep drops and sudden stops.

Height Restriction: Riders must be at least 48" tall to ride.

Physical Requirements: Each rider must maintain in an upright seated position with their head against the headrest during the duration of the ride and their arms, hands, legs, and feet inside the ride vehicle at all times. Riders must possess at least one (1) functioning arm absent of prosthetic devices and one (1) functioning leg absent of prosthetic devices. Riders must step up and down into the ride vehicle and will need to transfer from a wheelchair to the ride vehicle.

Ride Access: Riders using a manual or electric wheelchair or an ECV should enter through the Alternate Access Entrance located at the ride exit.

Bugs Bunny Fort Fun

A children's soft play area.

Height Restriction: Riders must be a maximum of 54" tall to play. Riders under 40" tall must be accompanied by a responsible person (adult) 54" tall or taller. Riders must be at least 42" tall to participate on the spiral slides for this element.

Physical Requirements: There are no physical restrictions, however participants must step up and down into the play area and will need to transfer from a wheelchair to participate on the play structure.

Ride Access: There is not an Alternate Access Entrance, please use attraction entrance.

Bugs Bunny Ranger Pilots

A gentle circular ride with some up and down motion.

Height Restriction: Riders must be 54" tall or under to ride.

Physical Requirements: Each rider must maintain in an upright seated position with their head against the headrest during the duration of the ride and their arms, hands, legs, and feet inside the ride vehicle at all times. Riders must possess at least one (1) functioning arm absent of prosthetic devices and one (1) functioning leg absent of prosthetic devices. No leg casts are allowed. Riders must step up and down into the ride vehicle and will need to transfer from a wheelchair to the ride vehicle.

Ride Access: Please ask the Ride Operator for instructions on when and where to enter the ride.

Colossus

A ride with a circulating motion and frequent stops.

Height Restriction: Lap children may ride if accompanied by a responsible person (adult) 54" tall or taller.

Physical Requirements: Each rider must maintain in an upright seated position with their head against the headrest during the duration of the ride and their arms, hands, legs, and feet inside the ride vehicle at all times. Riders must possess upper body control and the ability to sit in an upright position and maintain an upright posture. If rider cannot maintain upper body control, they must ride with a responsible person (adult). Riders must step up and down into the ride vehicle and will need to transfer from a wheelchair to the ride vehicle.

Ride Access: Riders using a manual or electric wheelchair or an ECV should enter through the Alternate Access Entrance located at the ride exit.

Daffy Duck Stars On Parade

A slow moving circular ride.

Height Restriction: Riders must be 54" tall or under to ride.

Physical Requirements: Each rider must maintain in an upright seated position with their head against the headrest during the duration of the ride and their arms, hands, legs, and feet inside the ride vehicle at all times. Riders must possess at least one (1) functioning arm absent of prosthetic devices and one (1) functioning leg absent of prosthetic devices. Riders must step up and down into the ride vehicle and will need to transfer from a wheelchair to the ride vehicle.

Ride Access: Please ask the Ride Operator for instructions on when and where to enter the ride.

Dragon's Wing

An exciting attraction with a sudden drop and swinging back and forth motion.

Height Restriction: Riders must be at least 48" tall to fly alone. Riders 42" tall or taller may fly if accompanied by a responsible person (adult) 54" tall or taller.

Physical Requirements: Riders must possess at least two (2) functioning arms absent of prosthetic devices and one (1) functioning leg absent of prosthetic devices in order to be restrained by the flight suit, and must have two (2) functioning hands capable of grasping and holding on to the landing loop during the landing process. Those using a wheelchair must transfer from the wheelchair onto the ride.

Ride Access: There is not an Alternate Access Entrance, please use attraction entrance.

(A fee is required for Dragon's Wing. Tickets are available for purchase at the Dragon's Wing entrance.)

Elmer Fudd Weather Balloons

A family ride with circulating motion with frequent stops.

Height Restriction: Riders 36” tall must be accompanied by a responsible rider 54” tall or taller. No lap children are allowed.

Physical Requirements: Each rider must maintain in an upright seated position with their head against the headrest during the duration of the ride and their arms, hands, legs, and feet inside the ride vehicle at all times. Riders must possess at least one (1) functioning arm absent of prosthetic devices and one (1) functioning leg absent of prosthetic devices. Riders must step up and down into the ride vehicle and will need to transfer from a wheelchair to the ride vehicle.

Ride Access: Please ask the Ride Operator for instructions on when and where to enter the ride.

Foghorn Leghorn National Park Railway

A ride that slowly moves around a track with gentle turns.

Height Restriction: Riders under 36” tall must be accompanied by a responsible person (adult) 54” tall or taller. No lap children are allowed.

Physical Requirements: Each rider must maintain in an upright seated position with their head against the headrest during the duration of the ride and their arms, hands, legs, and feet inside the ride vehicle at all times. Riders must possess at least one (1) functioning arm absent of prosthetic devices and one (1) functioning leg absent of prosthetic devices. Riders must step up and down into the ride vehicle and will need to transfer from a wheelchair to the ride vehicle.

Ride Access: Please ask the Ride Operator for instructions on when and where to enter the ride.

Grand Ole Carousel

A ride that slowly moves in a circular manner with a mild up and down motion.

Height Restriction: All Riders must be 42” tall to ride the Grand Ole Carousel alone. However all riders may ride if accompanied by a responsible person (adult) 54” tall or taller.

Physical Requirements: Each rider must maintain in an upright seated position with their head against the headrest during the duration of the ride and their arms, hands, legs, and feet inside the ride vehicle at all times. Riders must possess at least one (1) functioning arm absent of prosthetic devices, one (1) functioning leg absent of prosthetic devices, and one (1) leg to the knee to utilize a horse. To utilize the chariot riders must possess upper body control and the ability to sit in an upright position and maintain an upright posture. If rider cannot maintain upper body control, they must ride with a responsible person (adult). Riders using a wheelchair must transfer from the wheelchair onto the ride.

Ride Access: Riders using a manual or electric wheelchair or an ECV should enter through the Alternate Access Entrance located at the ride exit.

Highland Fling

A circular ride that has elevation and a tilt.

Height Restriction: Riders must be at least 42” tall to ride.

Physical Requirements: Each rider must maintain in an upright seated position with their head against the headrest during the duration of the ride and their arms, hands, legs, and feet inside the ride vehicle at all times. Riders must possess at least one (1) functioning arm absent of prosthetic devices and one (1) functioning leg absent of prosthetic devices. Riders using a wheelchair must transfer from the wheelchair onto the ride.

Ride Access: Riders using a manual or electric wheelchair or an ECV should enter through the Alternate Access Entrance located at the ride exit.

Joker

A moderate ride which swings side to side and elevates.

Height Restriction: Riders must be at least 42" tall to ride alone. Riders under 42" tall may ride if accompanied by a responsible person (adult) 54" tall or taller. No lap children are allowed.

Physical Requirements: Each rider must maintain in an upright seated position with their head against the headrest during the duration of the ride and their arms, hands, legs, and feet inside the ride vehicle at all times. Riders must possess at least one (1) functioning arm absent of prosthetic devices and two (2) functioning legs absent of prosthetic devices. Riders must step up and down into the ride vehicle and will need to transfer from a wheelchair to the ride vehicle.

Ride Access: Riders using a manual or electric wheelchair or an ECV should enter through the Alternate Access Entrance located to the right of the ride entrance.

Justice League: Battle for Metropolis

An interactive dark ride with turns and spins.

Height Restriction: Riders must be at least 42" to ride. Guests under 48" may ride if accompanied by an adult.

Physical Requirements: Each rider must maintain in an upright seated position with their head against the headrest during the duration of the ride and their arms, hands, legs, and feet inside the ride vehicle at all times. Riders must have two (2) natural functioning arms with natural functioning hands capable of grasping and at least one (1) natural functioning leg with a natural foot.

Riders must step up and down into the ride vehicle and will need to transfer from a wheelchair to the ride vehicle.

Ride Access: Riders using a manual or electric wheelchair or an ECV should enter through the Alternate Access Entrance located at the entrance to the building.

Log Flume

A family boat ride with drops, turns and splashes.

Height Restriction: Riders under 42" tall must be accompanied by a responsible person (adult) 54" tall or taller.

Physical Requirements: Each rider must maintain in an upright seated position with their head against the headrest during the duration of the ride and their arms, hands, legs, and feet inside the ride vehicle at all times. Riders must possess at least one (1) functioning arm absent of prosthetic devices and one (1) functioning leg absent of prosthetic devices. Riders must step up and down into the ride vehicle and will need to transfer from a wheelchair to the ride vehicle.

Ride Access: Riders using a manual or electric wheelchair or an ECV should enter through the Alternate Access Entrance located at the ride exit.

Marvin The Martian Camp Invasion

A slow moving circular ride that has some elevation.

Height Restriction: Riders under 36" tall must be accompanied by a responsible person (adult) 54" tall or taller. No lap children are allowed.

Physical Requirements: Each rider must maintain in an upright seated position with their head against the headrest during the duration of the ride and their arms, hands, legs, and feet inside the ride vehicle at all times. Riders must possess at least one (1) functioning arm absent of prosthetic devices and one (1) functioning leg absent of prosthetic devices. No leg casts are allowed. Riders must step up and down into the ride vehicle and will need to transfer from a wheelchair to the ride vehicle.

Ride Access: Please ask the Ride Operator for instructions on when and where to enter the ride.

Moon Cars

A ride with slow speeds and gentle turns.

Height Restriction: Riders must be 42" tall to drive the cars alone. Riders under 42" tall must be accompanied by a responsible person (adult) 54" tall or taller. No lap children.

Physical Requirements: Each rider must maintain in an upright seated position with their head against the headrest during the duration of the ride and their arms, hands, legs, and feet inside the ride vehicle at all times. Riders must possess at least one (1) functioning arm absent of prosthetic devices and one (1) functioning leg absent of prosthetic devices. Driver must have the ability to hold and/or turn steering wheel and depress foot pedal. Passenger must have the ability to brace self. Riders must step up and down into the ride vehicle and will need to transfer from a wheelchair to the ride vehicle. A sighted driver must be in control of the car at all times.

Ride Access: Riders using a manual or electric wheelchair or an ECV should enter through the Alternate Access Entrance located at the ride exit.

Mr. Freeze

An intense roller coaster with quick acceleration, high speeds, steep drops, fast turns, and inverted turns.

Height Restriction: Riders must be at least 54" tall to ride.

Physical Requirements: Each rider must maintain in an upright seated position with their head against the headrest during the duration of the ride and their arms, hands, legs, and feet inside the ride vehicle at all times. Riders must possess two (2) functioning arms absent of prosthetic devices and two (2) functioning legs absent of prosthetic devices. No casts are allowed. No prosthetics are allowed. Riders must step up and down into the ride vehicle and will need to transfer from a wheelchair to the ride vehicle.

Ride Access: Riders using a manual or electric wheelchair or an ECV should enter through the Alternate Access Entrance located at the ride exit.

Ninja

An exciting roller coaster with high speed turns and loops and sudden stops.

Height Restriction: Riders must be at least 48" tall to ride.

Physical Requirements: Each rider must maintain in an upright seated position with their head against the headrest during the duration of the ride and their arms, hands, legs, and feet inside the ride vehicle at all times. Riders must possess at least one (1) functioning arm absent of prosthetic devices and one (1) functioning leg absent of prosthetic devices. Riders must step up and down into the ride vehicle and will need to transfer from a wheelchair to the ride vehicle.

Ride Access: Riders using a manual or electric wheelchair or an ECV should enter through the Alternate Access Entrance located at the ride exit.

Pandemonium

An exciting ride / attraction with sudden turns and drops.

Height Restriction: Riders must be at least 47" tall to ride alone. Riders 42" tall or taller may ride if accompanied by a responsible person over 54".

Physical Requirements: Each rider must maintain in an upright seated position with their head against the headrest during the duration of the ride and their arms, hands, legs, and feet inside the ride vehicle at all times. Riders must possess at least one (1) functioning arm absent of prosthetic devices and two (2) functioning legs absent of prosthetic devices. Riders must step up and down into the ride vehicle and will need to transfer from a wheelchair to the ride vehicle.

Ride Access: Riders using a manual or electric wheelchair or an ECV should enter through the Alternate Access Entrance located at the ride exit.

River King Mine Train

An exciting coaster with high speed turns, steep drops and sudden stops.

Height Restriction: Riders must be at least 42" tall to ride.

Physical Requirements: Each rider must maintain in an upright seated position with their head against the headrest during the duration of the ride and their arms, hands, legs, and feet inside the ride vehicle at all times. Riders must possess at least one (1) functioning arm absent of prosthetic devices and two (2) functioning legs absent of prosthetic devices or at least two (2) functioning arms absent of prosthetic devices and one (1) functioning leg absent of prosthetic devices. Riders must step up and down into the ride vehicle and will need to transfer from a wheelchair to the ride vehicle.

Ride Access: Riders using a manual or electric wheelchair or an ECV should enter through the Alternate Access Entrance located to the left of the ride entrance.

Rush Street Flyer

A moderate ride with a circulating up and down and side to side motion.

Height Restriction: Riders must be at least 42" tall to ride.

Physical Requirements: Each rider must maintain in an upright seated position with their head against the headrest during the duration of the ride and their arms, hands, legs, and feet inside the ride vehicle at all times. Riders must possess at least one (1) functioning arm absent of prosthetic devices and two (2) functioning legs absent of prosthetic devices. Riders must step up and down into the ride vehicle and will need to transfer from a wheelchair to the ride vehicle.

Ride Access: Riders using a manual or electric wheelchair or an ECV should enter through the Alternate Access Entrance located at the ride exit.

Screamin' Eagle

An exciting coaster with high speed turns and steep drops and sudden stops.

Height Restriction: Riders must be at least 42" tall to ride.

Physical Requirements: Each rider must maintain in an upright seated position with their head against the headrest during the duration of the ride and their arms, hands, legs, and feet inside the ride vehicle at all times. Riders must possess at least one (1) functioning arm absent of prosthetic devices and two (2) functioning legs absent of prosthetic devices. No prosthetics are allowed. Turbobungy

Self-propelled up and down motion including jumping, flips and heights.

Height Restriction: Riders must weigh no less than 39 pounds and no more than 200 pounds in order to jump.

Physical Requirements: Riders must possess two (2) functioning arms absent of prosthetic devices and two (2) functioning legs absent of prosthetic devices. Riders must step up and down onto the trampoline and will need to transfer from a wheelchair onto the trampoline.

Ride Access: There is not an Alternate Access Entrance, please use the attraction entrance.

(A fee is required for Turbo Bungy. Tickets are available for purchase at the Turbo Bungy entrance.)

Tweety's Twee House

A ride with a mild up and down motion.

Height Restriction: Riders under 36" tall must be accompanied by a responsible rider 54" tall or taller.

Physical Requirements: Each rider must maintain in an upright seated position with their head against the headrest during the duration of the ride and their arms, hands, legs, and feet inside the ride vehicle at all times. Riders must possess at least one (1) functioning arm absent of prosthetic devices and one (1) functioning leg absent of prosthetic devices. No leg casts are allowed. Riders must step up and down into the ride vehicle and will need to transfer from a wheelchair to the ride vehicle.

Ride Access: Please ask the Ride Operator for instructions on when and where to enter the ride.

Xcalibur

A ride with circulating and oscillating up and down motion.
Height Restriction: Riders must be at least 54" tall to ride.

Physical Requirements: Each rider must maintain in an upright seated position with their head against the headrest during the duration of the ride and their arms, hands, legs, and feet inside the ride vehicle at all times. Riders must possess at least one (1) functioning arm absent of prosthetic devices and one (1) functioning leg absent of prosthetic devices. Riders must step up and down into the ride vehicle and will need to transfer from a wheelchair to the ride vehicle.

Ride Access: Riders using a manual or electric wheelchair or an ECV should enter through the Alternate Access Entrance located at the ride exit.

Yosemite Sam Tugboat Tailspin

A slow moving circular ride that has some elevation.

Height Restriction: Riders under 42" tall must be accompanied by a responsible person (adult) 54" tall or taller.

Physical Requirements: Each rider must maintain in an upright seated position with their head against the headrest during the duration of the ride and their arms, hands, legs, and feet inside the ride vehicle at all times. Riders must possess at least one (1) functioning arm absent of prosthetic devices and one (1) functioning leg absent of prosthetic devices. Riders must step up and down into the ride vehicle and will need to transfer from a wheelchair to the ride vehicle.

Ride Access: Please ask the Ride Operator for instructions on when and where to enter the ride.

Hurricane Harbor Attractions:

Big Kahuna

A large serpentine flume where multiple persons ride in a raft down a river-rapids-like slide. Guests will experience high speeds, turns, and side-to-side motions. This ride ends in a landing pool 3 ½ feet deep. Physical and cognitive ability is required to maintain riding position.

Height/Weight Restriction: You must be at least 42" to ride alone, at least 36" if accompanied by an adult. Maximum of 5 riders per raft. Combined weight of riders may not exceed 1000 lbs.

Physical Requirements: Guests must possess the physical and cognitive abilities to hold themselves in an upright-seated position while holding onto two handles of the raft throughout the course of the ride. Guests with casts are not allowed to ride.

Ride Access: There is one entrance to this attraction through a queue line and up multiple flights of stairs. Access is available to the edge of the catch pool through the exit pathway.

Bonzai Pipeline

A serpentine flume with high thrills of acceleration and deceleration forces from front and rear and all sides. Riders will experience high speeds, steep drops and tight turns. Guests will decelerate in a run out with a water depth of 8 inches. Riders must be able to sit up in slide run out without assistance. Physical and cognitive ability is required to maintain riding position.

Height/Weight Restriction: You must be at least 48" to ride. May not exceed 300 lbs. Maximum 1 rider per slide.

Physical Requirements: Guests must possess the physical and cognitive abilities to stand in launch capsule with back and head against capsule wall and hold themselves in a feet first position throughout the ride, with legs crossed at the ankles and arms crossed over the chest. Rider must be able to sit up in slide run out without assistance. Guests with casts are not allowed to ride. Footwear is not allowed.

Ride Access: There is one entrance to this attraction through a queue line and up multiple flights of stairs. Access to the slide run out is available from the exit pathway.

Gulley Washer Creek

A simulated flowing river where riders float in tubes along its course. Guests experience currents and may encounter waterfalls, geysers, and splashing. The pool depth is up to 2 feet, 8 inches.

Height/Weight Restriction: Small and non-swimming children must swim with an adult. A small child may ride in the lap of an adult, all other riders, 1 per seat.

Physical Requirements: Must float in a raft.

Ride Access: There are two entrances/exits for the attraction with zero depth sloped entry.

Hook's Lagoon

A children's aquatic attraction with various water elements in a pool with a depth of up to 3 feet. Play elements include tipping buckets with water splash and sprays, water blasters, slides, tunnels and net climbs. Physical and cognitive ability is required to maintain riding position on slides.

Height/Weight Restriction: You must be 54" or less to participate unless accompanying a child. You must be at least 42" to ride Tree House slides. You must be 48" or less to ride Pirate Ship slides. Maximum 1 rider per slide.

Physical Requirements: On slides, guests must possess the physical and cognitive abilities to hold themselves in a feet first position throughout the ride. Guests with casts are not allowed to participate.

Ride Access: Zero depth sloped entry for access to the pool. Slides and some play elements can be accessed using staircases with multiple flights of stairs or net climbs.

Hurricane Bay

An ocean-like swimming pool with simulated waves and currents that can be strong. Pool depth ranges from a zero depth entry to 7 feet.

Height/Weight Restriction: Small and non-swimming children must swim with an adult.

Physical Requirements: Guests with casts are not allowed to participate.

Ride Access: Zero depth sloped entry/exit.

Speed Slides – Geronimo Falls, Kontiki Falls, Wahini Falls

A serpentine or straight flume with high thrills of acceleration and deceleration, forces from side to side and front to rear. Guests will decelerate in a run out 6 inches deep. Riders must be able to sit up in slide run out without assistance. Physical and cognitive ability is required to maintain riding position.

Height/Weight Restriction: You must be 48" to ride. Maximum 1 rider per slide.

Physical Requirements: Guests must possess the physical and cognitive abilities to hold themselves in a feet first position throughout the ride, with legs crossed at the ankles and arms crossed over the chest and hands on shoulders. Rider must be able to sit up in slide run out without assistance. Guests with casts are not allowed to ride. Shirts and footwear are not allowed.

Ride Access: There is one entrance to this attraction through a queue line and up multiple flights of stairs. Access to the slide run out is available from the exit pathway.

Tube Slides – Piranha, Stingray, Hammerhead, Man-O-War

Riders sit in an inflatable tube and travel down the path of a serpentine flume experiencing variable and high speeds, multi-directional forces, and steep drops, which may include free-falling sensations. Riders

will decelerate in a landing pool up to 3½ feet deep. Physical and cognitive ability is required to maintain riding position.

Height/Weight Restriction: You must be at least 48" to ride. Combined weight of riders may not exceed 400 lbs. Maximum of 1 rider per single tube and 2 riders per double tube. One rider per seat.

Physical Requirements: Guests must possess the physical and cognitive abilities to hold themselves in a seated position while holding onto two handles of the raft, with palms down, throughout the course of the ride. When two riders are riding a double tube, the lighter rider sits in the front seat. Rider in back seat must extend legs forward and straddle the rider in the front seat. Guests with casts are not allowed to ride. Footwear is not allowed.

Ride Access: There is one entrance to this attraction through a queue line and up multiple flights of stairs. There is access to the edge of the catch pool through the exit of the ride.

Tornado

Riders slide on a tube on a half-pipe type water flume where they travel down a steep wall and ride up the opposite wall oscillating back and forth until they lose momentum and slide into a 3 foot deep pool. Guests experience steep drops, variable and high speeds, free-falling sensations and multi-directional forces. Physical and cognitive ability is required to maintain riding position.

Height/Weight Restriction: You must be at least 48" to ride. Combined weight of riders may not exceed 700 lbs. Minimum of 2 and maximum of 4 riders per raft. One rider per seat.

Physical Requirements: Guests must possess the physical and cognitive abilities to hold themselves in an upright-seated position while holding onto two handles of the vehicle throughout the ride. Guests with casts are not allowed to ride.

Ride Access: There is one entrance to this attraction through a queue line and up multiple flights of stairs. Access is available to the edge of the catch pool from the exit pathway.

Wahoo Racer

A straight flume with high thrills of acceleration and deceleration forces from side to side and front to rear. Riders slide headfirst on a mat and will experience high speeds, steep drops, and zero gravity effects. Guests will decelerate in a run out with a water depth of 8 inches. Physical and cognitive ability is required to maintain riding position.

Height/Weight Restriction: Riders must be at least 42" tall to ride. Maximum 1 rider per mat.

Physical Requirements: Guests must possess the physical and cognitive abilities to remain in proper riding position, lying on their stomach and holding onto both handles throughout the ride. Guests with casts are not allowed to ride.

Ride Access: There is one entrance to this attraction through a queue line and up multiple flights of stairs. Access is also available to the run out of the attraction.
