

# Bushwackers Paintball at Six Flags FAQ's

We are located inside the Axis Building, marked by the red star.

The yellow star indicates where our playing fields are located.

**What to bring-** A completed safety waver, spare clothes, and sturdy footwear. It is suggested you bring spare clothes with you that you don't mind getting dirty. Paintballs contain no paint, and are machine washable and biodegradable, but grass stains are a bit harder to get out. You will also need footwear that you're comfortable running in the outdoors with. Sandals and other open toed shoes are not allowed. Sun block is also recommended.

**When and where to meet-** Meet 15 minutes prior to your scheduled playing time at the Axis building. Follow the large "Play Paintball Here" banners to our building. We are located between the Ninja Rollercoaster and the Joker ride. As of now the playing fields have no restroom facilities or soda machines, so be sure to use the restroom and get a drink prior to meeting at the Axis Building.

**What to expect-** After escorting you to our playing fields, we will outfit you with body armor, neck guard, safety gloves, protective jersey, full face helmet, and paintball gun. You have UNLIMITED paintballs and UNLIMITED air fills, meaning you can shoot as many shots as you can. Our games have a 15 minute time limit, but average only 8 minutes long. Once a game finishes we will head off the playing fields to refill your guns with paintballs and air. You will play multiple games on 4 different fields over the 90 minute playing session.
